Ancona® Steel Multi Column

Italy has earned an outstanding worldwide reputation for being at the leading edge of radiator design, style and practical functionality, producing a whole host of quintessential products. Produced in our Rovigo factory in Italy the the Ancona® range of Steel Multi Column radiators take the classic look of cast iron and combines it with the flexibility of steel; suitable for living rooms, dining rooms, hallways, bedrooms, kitchens, bathrooms, conservatories or studies. Multiple column heights and widths provides an extensive choice of sizes and outputs to suit any room or location.

Our Ancona® range has the UK's widest range of sizes and is available in two ways;

Ancona® stock (pages 8-11); is available in white RAL 9016 in 2, 3 and 4 columns from 3 - 50 sections, for delivery within 3 - 5 working days. Ancona® Bare Metal Lacquer stock available in selected sizes (pages 20 & 128-129).

Ancona® made to order (see pages 12-25) is available in 2 – 6 columns with thousands of different size combinations and 224 colours, delivered in up to 4 weeks.

Ancona® Stock White & Bare Metal Lacquer (pages 8 - 11 & 20)

Our stylish and timeless stock Ancona® steel multi column is held in our warehouse for fast delivery

The most popular 2, 3 or 4 column sizes in 5 height options and 5 mounting options are available from stock in White RAL 9016

We list all possible combinations on pages 120 to 127 in the technical section

Bare Metal Lacquer stock available in selected sizes; see pages 128-129 for full details.

Ancona® made to order (pages 12 - 25)

The perfect solution, made to order in our Italian factories to fit your requirements.

We offer over 4,620 sizes of Ancona Multicolumn in 2, 3, 4, 5 & 6 column options, with 3 different mounting options wall-hung, cast feet or welded feet. Added to this we have over 188 RAL colours (including RAL 9016 as standard) plus 36 special finishes including Galvanised & Bare Metal Lacquer.

Combine all these choices and you have over 3 million combinations of sizes, colours and mounting options. To help make selection easier please use our **online radiator builder**, (one of our range of helpful online tools) a simple way to select the best size and options for your space.

Ancona® Steel Multi Column

Ancona® Bare Metal Lacquer (page 20) NEW SIZES

This industrial bare metal finish is created by taking a “battery” sized radiator and hand finishing every part of the radiator so each radiator is unique. As you would expect variations in colour, welding and burnishing marks vary from one section to another and add to the idiosyncrasy of each radiator. Once sections are hand burnished to give a smooth surface, a clear gloss lacquer is applied, protecting the bare metal and enhancing their irregular nature and individuality. **New for this edition, we are offering stock in our best selling sizes in Bare Metal Lacquer, see pages 134-135 for more information.**

Ancona® Galvanised (pages 21 - 23)

We have developed a range of truly unique, stunning and “on trend” finishes in classic Antique Copper, Antique Brass and a more contemporary Satin Nickel. We take individual sections of Ancona®, hand polish every part of the section, then using the hot dip galvanising process (similar to chroming) we create the finish. 5 stages in total are needed with a final hand brushing and protective lacquer. The result, is distinctive and hardwearing, with each radiator completely unique due to the amount of hand finishing. Please note: galvanised Ancona’s are available with welded feet only. **See pages 136-137 for full range of sizes.**

Satin Nickel

Antique Brass

Antique Copper

Ancona® Bench Seat (page 24)

A practical solution providing both seating and heating. Perfect for boot rooms, utility rooms and conservatories. The Ancona bench seat comes with a solid Oak top; to tie in with your décor you could make a seat pad in matching fabric. **See pages 140 for full range of sizes.**

© Ancona is a registered trademark of IRSAP UK Limited

Ancona® Curved (page 25)

Fitting a curved Ancona into your bay window or around a curved wall will give truly bespoke finish to a room. 2, 3 or 4 Ancona sections in heights ranging from 300mm to 750mm can be used to create your radiator. All come with welded feet as standard (these add 100mm to the overall height) & are available in 188 RAL colours & 32 Special Finishes. Use our **curved radiator builder online** or download the easy to follow Specification Instruction on our website www.theradiatorcompany.co.uk

Ancona® Stock is our best selling sectional steel multi column range, these radiators are incredibly versatile with literally hundreds of possible sizes in 2, 3 or 4 columns from 3 - 50 sections, in a choice of 5 mounting options (slip on welded feet, cast feet or 3 types of wall brackets) all available from stock in White RAL 9016 in 3 - 5 working days delivery.

Traditional Cast Iron

The epitome of traditional heating, cast iron radiators are a must for any period restoration; suitable for living rooms, bedrooms, kitchens, hallways and dining rooms. Our choice of six classic designs offer the clean simplicity of "column" or the "decorative classic". These radiators will be a perfect match for any existing radiators and being new, they come with a ten year guarantee.

As a material, cast iron has its own unique properties; these radiators will hold their heat for a long time, compared to a similar steel model, although they are slower to heat up and therefore less responsive to sudden changes in temperature.

Design

Prices from £126.00

Column

Probably the most well known form of cast iron radiators, the original imported column models bring a real charm and character to any period property.

Aston

Ledbury

Priory

Telford

Decorative Classic

The original detailed, ornate designs of the Trieste with its tasteful scroll work and decorative ears brings a touch of splendour to your home. Our Linton range reflects the style of the 1920's, with smooth clean lines and a choice of exclusive galvanised and painted finishes.

Linton

Trieste

Choice

Sectional

Our sectional cast iron range is incredibly versatile with literally hundreds of possible sizes from a wide range of column depths & heights finished to your size. Use our online radiator builder to select the best solution for your room www.theradiatorcompany.co.uk.

Finishes

Our cast iron designs can be supplied in a base primer finish ready for you to paint in your chosen colour. To get the best possible finish we can powder coat your radiators in a selection of the top 26 most popular colours from the RAL range and 31 special finishes, this gives a better finish and is more cost effective than hand painting. See opposite for more information.

Mounting Options

Cast iron radiators are very heavy and therefore best mounted with floor supports. Cast iron radiators can be wall mounted using our specialised wall brackets, provided the wall is structurally strong enough to take the weight. There are two methods of floor mounting; either footed end sections or individual cast feet.

- **Aston**; footed end sections as standard, cast feet or wall brackets (on request)
- **Ledbury**; footed end sections as standard, cast feet or wall brackets (on request).
- **Priory**; footed end sections, cast feet or wall brackets (on request).
- **Telford**; cast feet, footed ends (in limited sizes) or wall brackets (on request)
- **Trieste**; footed end sections only.
- **Linton**; footed end sections only
- Solid Brass Wall Ties & Airvents for all cast iron radiators

Footed End Sections

Cast Foot

Wall Brackets

Solid Brass Wall Ties & Airvents see page 170 for details

Service

All stocked cast iron lines are listed in bold in the technical section, primer delivered in 3 - 5 working days.

Use our online radiator builder to select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List. Go to our website www.theradiatorcompany.co.uk

Our range of valves include the classically styled Vintage TRV, Vintage XL TRV as well as the Black & Brass TRV's.

Cast Iron Finishes

Our range of Cast Iron radiators are available in a wide choice of finishes. We offer a choice of colour ranges and levels of finishing for you to select from. Please note; that as a result of the casting process, cast iron radiators have a rough surface finish with small imperfections which will show after the painting process.

Finishes

Primer

The basic option is a primer coat which requires finishing to prevent rust forming. If carried out by hand this can be a long and difficult process as cast iron is very heavy and the entire surface must be covered with an appropriate undercoat and top coats for full protection.

RAL Colours

A range of 26 of the most popular colours from the RAL range. We use a robust, polyester powder coat paint, which is applied by our specialist painters based in the UK, to achieve a long lasting, durable finish. Your cast iron radiators fully finished and ready for installation. For a RAL chart please call **01342 302250**

Please Note; delivery lead times on coloured cast iron start from when we have receipt of your chosen RAL colour number / special finish in writing; please ensure the selected RAL colour number / special finish and name is included on your order.

Special Finishes

We can also overpaint your cast iron radiator (the the Linton has its own exclusive range, see below) in any of the special finishes in our Special finish chart including: metallics, mottled & textured effects (excludes Mottled White Gold). For a Special Finish chart please call our Customer Service team on **01342 302250**.

Mottled Bronze

Gun Metal Grey

Textured Stone

Mottled Copper

Farrow & Ball®

Premium paint manufacturer Farrow & Ball® is known for its range of exclusive colours, now those colours can be applied to a selection of our cast iron Ranges. Using Farrow and Ball Estate eggshell rather than an inferior matched product, we can now provide the perfect match to your interior paint scheme. For full details see pages 40-43.

Lacquered

For a more industrial feel all our cast iron radiators can be lightly sandblasted and then treated with a protective high gloss lacquer to retain the raw characteristics of the cast iron.

Polished & Burnished

Our cast iron ranges are available in a beautiful, burnished or high lustre, polished finish. Created by hand, in the UK, an initial black paint is used to protect hidden, hard to access areas of the radiator and to highlight the visible polished areas (the front, sides & tops of the sections are polished whilst the rear & more difficult to access areas between the sections remain black); a series of burnishing & polishing processes produces the final stunning results.

Aston Polished

Linton Special & Galvanised Finishes

The Linton is a classic smooth design, available in our 26 RAL colours (selected sizes are also available in Farrow and Ball® colours, see pages 40-43) and 4 special finishes, exclusive to the range galvanised finish, lacquered, polished and burnished (some of which are shown below). See pages 154-156 for more information.

Antique Brass

Sectional Aluminium

Smooth clean lines and slim profiles make these ranges perfect for both new homes and as replacement radiators. Their practical functionality makes them suitable for living rooms, bedrooms or studies and our variety of accessories can also enhance their use in kitchens, bathrooms and hallways.

Our Sectional Aluminium ranges are available in white from stock in 3 - 5 working days; other RAL and special finishes available in up to 15 working days.

Use our online radiator builder to help select the best configuration for your room; www.theradiatorcompany.co.uk.

Energy efficient

Aluminium boasts countless qualities and an infinite variety of uses in modern industry sectors. In essence aluminium radiators mean; "Less water, less preheat times, less weight".

- An aluminium radiator will heat up in just over half the time of a steel radiator and uses 50% less water saving money by using less fuel therefore it is the most energy efficient radiator.
- As aluminium radiators are a third lighter than steel radiators, it means they are extremely light and easy to install on any type of wall.
- Aluminium radiators are excellent heat conductors; our products have high thermal efficiency and contain a lower amount of water, therefore heat up faster than those produced with other materials. They are therefore easier to control and they therefore cost much less to run

With modern building methods and regulations meaning more insulation and higher U values for windows more efficient heating means a more comfortable living environment and cheaper utility bills.

Design

Prices from £139.00

All our Sectional Aluminium radiators are made in Italy and are available in 5 different profiles; the Vip, Oscar, Ottimo, Mix and Vox Ranges.

The Vip and Oscar are also available with optional end panels (shown below and right), please specify at time of order.

Sectional Aluminium

Choice

Sectional

Our Sectional Aluminium ranges are incredibly versatile with hundreds of possible size options, all available from stock finished to your size from 3 up to 20 sections. See our online radiator builder for more information; www.theradiatorcompany.co.uk

Colours

White RAL 9010 standard for the Vip, Oscar, Vox & Mix ranges and is available from stock in 3 - 5 working days

The Ottimo standard finish is White RAL 9016 and is available from stock in 3 - 5 working days.

Painted RAL options for the Vip, Oscar, Vox, Mix & Ottimo ranges

All our Sectional Aluminium radiators are available in a selection of the top 25 most popular colours from the RAL range (shades of White, Cream, Grey, Brown, Red & Black). Available in up to 15 working days.

Special finish options

Our aluminium ranges also come in 32 exclusive special finishes (some of which are shown below) these radiators provide both the efficiencies of aluminium and a stunning finish. Available in up to 15 working days.

Please call **01342 302250** for a RAL or Special Finish chart

For orders of more than 10 radiators in colour or special finishes please allow an extra 10 working days for delivery.

Service

All models in white are available from stock in 3 - 5 working days, painted RAL colours and 32 special finishes available in up to 15 working days, for orders of more than 10 radiators please allow an extra 10 working days for delivery.

Use our online heat output calculator to get a guide of your room requirements which you can then check with your installer. Once you know your outputs use our online radiator builder to select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List. Go to our website www.theradiatorcompany.co.uk

See our Quick Selection for each model for our most popular sizes, other sizes can be made to your specification using the sectional data.

Please note; delivery lead times on coloured aluminium start from when we have receipt of your chosen RAL colour number in writing; please ensure the selected RAL colour number and name is included on your order.

Painted Valves

You now have the option to fully coordinate your aluminium radiator colour with your valves and pipe covers to create a unique and individual statement. Image right is a Mix in Azurite with matching Pistol TRV, pipe covers & shrouds. See page 113 for full details.

Aluminium Accessories

Aluminium accessories include a specially designed brush to clean radiators, hanging pegs, towel bars and for the Oscar and Vip, end panels to create a clean side profile, see page 161 more details.

Contemporary Designer

Our contemporary designer range contains models that can be used throughout the home in living rooms, dining rooms, hallways, bedrooms, kitchens, bathrooms, conservatories or studies. Developed to reflect the latest trends in interior design these radiators will complement any modern scheme. The wide selection of sizes, formats and colour options allows you to select the perfect radiator to suit your heat output requirements, available space and interior.

Knowing the heat output required (BTU/Watts) to heat your room is key when choosing your radiator. For help on calculating this and selecting the correct size of your chosen radiator please visit our website www.theradiatorcompany.co.uk.

Design

Prices from £215.00

We are the leading Italian radiator designers and manufacturer and as a group have over 50 years of experience bringing you the widest choice of stylish and highest quality radiators

Our Low Water Content radiators are designed for improved efficiency which contribute to reduced running costs while delivering great output. For Low Water Content radiators look out for this symbol in the technical section.

Choice

There is an extensive choice of vertical, horizontal, single and double formats, as well as a variety of tube designs so you can have the right combination of design and heat output.

Colours

Personalise your design with over 225 colours and special finishes. Please call **01342 302250** for a copy of our RAL or Special Finish chart.

Service

Look out for our Designer ranges which have stock lines, delivered in 3 - 5 working days; all stock lines are shown in bold in the technical section.

Valves & New Painted Valves NEW

Complement your designer radiator with a contemporary and stylish valve; see pages 112-119 for our full selection. New for this edition we are offering painted valves so you can fully coordinate your designer radiator colour with your valves and pipe covers to create a unique and individual statement.

Bathroom Towel Rails

With space often at a premium, a towel rail functions as both a heat source and as a towel warmer; perfect for bathrooms, kitchens and cloakrooms

Design

Prices from £105.00

We are the leading Italian towel rail designers and manufacturer and as a group have over 50 years of experience bringing you the widest choice of stylish and highest quality towel rails.

Choice

An extensive choice of styles from standard vertical formats to horizontal and side loading towel rails in a variety of tube styles including round, flat, oval and rectangular.

Electric Heating Elements & Dual Fuel

Selected towel rails can be converted to dual fuel by adding an electrical element; this allows the towel rail to warm towels during the summer when the main heating system is switched off. Adapting your towel rail to dual fuel is easy to achieve; a separate 'T-piece' or Dual Fuel valve is used to allow the installation of an electric element alongside the standard water feed pipe. There are three types of electric elements to choose from, please turn to pages 110-111 for more detailed information and prices. All towel rails that can be converted will have a dual fuel symbol in the technical section 

(Please note; Towel Rails are not designed to dry soaking wet clothes or towels as this can lead to rusting of the rail).

Service

Look out for our Towel Rails which have stock lines, delivered in 3 - 5 working days; all stock lines are shown in bold in the technical section.

Painted Valves NEW

You now have the option to fully coordinate your towel rail colour with your valves and pipe covers to create a unique and individual statement. Picture right shows a Lupin ladder rail in RAL 7011 with matching Cylinder valves and pipe covers and shrouds. See page 113 for full details.

Towel Rail Accessories

These towel bars and hanging pegs are designed to fit selected ladder style rails and vertical tube radiators. Ideal for providing additional hanging space to air towels or hang bathrobes, they are **available from stock in 3 - 5 working days in white or chrome.**

Towel Bars

Model	Length	White Ex VAT	Chrome Ex VAT	White Inc VAT	Chrome Inc VAT

A nominal £5 charge for postage and packing will be applied to any orders under £50 in value

Bathroom Towel Rails

Kitchen & Cloakrooms

We offer a range of sizes that are perfect for small rooms or where space is tight. Cloakrooms and Kitchens are typical rooms where it is essential to maximise the use of the space available. Narrow widths (300, 400 or 450mm) and a range of heights add to the options available. See our Piano, Poll, Pulsar, Griffin, Ellipsis, Lupin or Poppy ranges for ideas.

Traditional

Our range of traditional towel rails includes both wall and floor mounted options, as well as a free-standing design; the Lingfield. With distinctive period features such as ball joint connections, cast iron radiator sections and antique galvanised finishes this range provides an array of choices to complement any traditional scheme.

Made to Order:

Up to 5 weeks: Bright Nickel,
Up to 7 weeks: Antique Bronze & Antique Copper

Technical details & prices page 208

Dual fuel is a great way to warm your towels during the summer months when the main heating system is turned off. Adapting your towel rail to dual fuel is easy to achieve; a separate 'T-piece' or Dual Fuel valve is used to allow the installation of an electric element alongside the standard water feed pipe.

All towel rails that can be converted to dual fuel will have a dual fuel symbol in the technical section

Follow these simple stages to select the correct Dual Fuel Kit for your towel rail.

1. Valve Configurations

The pictures opposite show a Poll Chrome with three valve options, two showing the addition of an electric element; note the positions of the valve tail for the water pipe, in each option.

All radiators will require a valve, select either a T-piece or a Dual Fuel valve to suit your installation.

Standard manual valve with no electric element

Dual Fuel Valve

Valve & additional T-piece

2. Types of Element

There are three types of electric element to choose from (see opposite) and all are supplied with a 50mm T-piece as standard.

3. How to choose your Element

It is important to select the correct size element for your towel rail. Too small and it will not provide enough heat, too large and it can burn out.

The chart opposite will help you choose the right size element; we have listed the towel rail output in watts and the corresponding recommended size of element.

Towel Rail output range in Watts	Electric Elements
165 - 255	200w
260 - 375	300w
380 - 530	400w
535 - 735	600w
740 - 920	800w
920 - 1100	1000w

Dual Fuel Valve

All towel rails that use the central heating system to heat up require valves; the Dual Fuel Valve has been specifically designed for use with electric elements. Combining the role of the valve and T piece it has an entry point for the element; this creates a neater finish and keeps pipe centres in line with the collector preventing major changes in pipe work.

Model	Description	White Ex VAT	Chrome Ex VAT	White Inc VAT	Chrome Inc VAT
VVCOMB	Dual Fuel valve	£144.00	£144.00	£172.80	£172.80

Chrome Dual Fuel valve

Optional 75mm T-Piece

50mm T-Pieces are provided as standard with all of our elements. 75mm T-Pieces are available as an optional extra, if you need additional length to match your pipe centres or you would like a different aesthetic finish.

Model	Description	Price Ex VAT	Price Inc VAT
AATPIECE75	Chrome T-Piece 75mm	£14.00	£16.80
AATPIECE75	White T-Piece 75mm	£14.00	£16.80

75mm 50mm

50mm supplied as standard, 75mm available as an optional extra

Types of Element

There are three types of electric element to choose from and all are supplied with a 50mm T-piece as standard;

Round Head Manual Element

White & Chrome 200, 300, 400, 600, 800 & 1000 watts.

This element has basic functionality, it maintains a constant heat (65°C) and is either on or off. Control is via a switched fused spur the neon light indicates if the element is on.

Model	Description	Output	IP Rating	White Ex VAT	Chrome Ex VAT	White Inc VAT	Chrome Inc VAT
AAELE	Round Head Manual Element	200, 300, 400, 600, 800 & 1000 watts	IP 55	£61.00	£66.00	£73.20	£79.20

Round Head Thermostatic element

White, Chrome & Silver 200, 300, 400, 600, 800 & 1000 watts.

These elements monitor the temperature of the towel rail and activate the element as required. They have a choice of 2 set temperature options which can be selected manually.

Model	Description	Output	IP Rating	White Ex VAT	Silver Ex VAT	Chrome Ex VAT	White Inc VAT	Silver Inc VAT	Chrome Inc VAT
AARHTELE	Round Head Thermostatic Element	200, 300, 400, 600, 800 & 1000 watts	IP 55	£80.00	£82.00	£93.00	£96.00	£98.40	£111.60

MOA TH3

White, Chrome & Silver 200, 300, 400, 600, 800 & 1000 watts.

This element has a 5 step temperature regulation up to 65°C; a minimum of 30°C and a maximum range between 45°C and 65°C, with a 2 hour override function.

Model	Description	Output	IP Rating	White Ex VAT	Silver Ex VAT	Chrome Ex VAT	White Inc VAT	Silver Inc VAT	Chrome Inc VAT
AAMTELE	Thermostatic Element	200, 300, 400, 600, 800 & 1000 watts	IP 55	£95.00	£98.00	£109.00	£114.00	£117.60	£130.80

Element Wire Cover

Clip on cover to provide a neat finish, hiding the wire at the back of the element.

Model	Description	Suitable for	IP Rating	White Ex VAT	Silver Ex VAT	Chrome Ex VAT	White Inc VAT	Silver Inc VAT	Chrome Inc VAT
AAMASK	Element Masking Cover	AATELE & AAMTELE Models	IP 55	£9.00	£9.00	£9.00	£10.80	£10.80	£10.80

Please note; All elements come with a 2 year warranty.

Valves

Every Radiator needs a pair of valves to operate. A good quality valve not only benefits efficient performance they also add to the appearance of your finished radiator. All our valves have a 5 year warranty.

Wheelhead and Lockshield;

Every Radiator requires a pair of valves which work together the Wheelhead adjusts the flow of water into the radiator and the Lockshield balances the flow of water around the whole system, ensuring each radiator heats up at the same rate, these should be adjusted by your installer.

TRV or Manual?

Thermostatic Radiator Valves (TRVs) monitor the room temperature. They usually have between 4 to 6 levels and the valve opens and closes automatically to reach and maintain the desired level. TRVs can help maximise the efficiency of your system reducing energy consumption and are now a requirement as part of building regulations relating to new builds and refurbishments.

Manual valves are adjusted by hand; they allow a constant flow of water through your radiator regardless of the room temperature and radiators will only turn off when the main thermostat reaches it's set point or the programmer turns the heating off.

Angled, Corner or Straight?

Pipe work and Pipe centres;

All our valves have 15mm connections as standard unless otherwise stated; if you need different connections please specify when ordering your valves. The use of plastic pipe has become more popular; however, our valves are not designed to operate with plastic pipes. Also, if chrome pipe work is used most valves will not grip it securely because chrome is a harder surface than copper or iron and leaks can occur. Special fittings are required to enable valves to grip chrome pipe work and these must be specified at time of order. The position of the pipe work for your radiator will be affected by the valves you select. All angled valves have a dimension to allow for adjusting pipe work. You should make adequate allowances for manufacturing tolerances in pipe centres.

For straight valves, a minimum of 150mm should be allowed from the base of the radiator for ease of installation.

Please note: We endeavour to ensure all pipe centres are correct, however manufacturing tolerances must be considered; we strongly recommend that pipe work is not altered or adjusted until the new radiator or towel rail is fitted. The Radiator Company will not accept any responsibility for claims resulting from incorrect pipe centres.

Pistol TRV

shown on pages 46, 55, 58, 69 & 79.

Available in three standard finishes as well as painted options (see page 113), the Pistol TRV is available in angled or straight configurations.

Pipe Centers For angled valves allow an extra 80mm in total	Valve Height 128mm	Please Note Pistol TRV valves are not Bi-directional
---	------------------------------	--

Please note: all valves are sold in pairs, a lockshield and a wheelhead.

Painted Valves NEW

You now have the option to fully coordinate your radiator or towel rail colour with your valves and pipe covers to create a unique and individual statement.

The following range of valves can be painted in the same colour as your radiator from any of the 188 RAL options plus 32 special finishes available.

Pictured right is a Lupin in RAL 7011 with matching painted Cylinder valves and pipe covers and shrouds.

Painted valves are delivered in up to 15 working days.

To provide complete coordination, simply follow these three easy steps

1. Select your valve;

Pistol TRV in Azurite

Model	Description	Colour Ex VAT	Colour Inc VAT
VVPISLTRV	Angled / Straight	£232.00	£278.40

Cylinder in RAL 7011

Model	Description	Colour Ex VAT	Colour Inc VAT
VVCYL	Angled / Straight	£148.00	£177.60

Crosshead in Mottled Copper

Model	Description	Colour Ex VAT	Colour Inc VAT
VVCRO	Angled / Straight	£219.00	£262.80

2. Select your colour from a choice of 188 RAL colours and 32 special finishes

There are 188 RAL colours and 32 special finishes to choose from including metallics, mottled and textured effects. For a RAL or Special Finish chart please call our Customer Service team on 01342 302250.

Please Note: Due to the printing process and manufacturing tolerances the colour (including white) of a finished valve may very slightly differ from the colours represented in the brochure, as well as from our Special Finish & RAL charts. It should also be noted that if the same type of valves are ordered and produced they may also differ in finished colour from any radiators or valves previously ordered.

3. Select matching pipe covers and shrouds.

We can also match the colour of the pipe covers and pipe shrouds for your radiators or towel rails in any one of the colour options shown above. Each pair of painted pipe covers comes with matching shrouds.

Model	Description	Colour Ex VAT	Colour Inc VAT
AAPIPECOVR	Pipe Covers (Pair)	£58.00	£69.60

Each set is supplied with 2 x 160mm pipe covers & 2 shrouds. Delivery on coloured pipe covers is 15 working days.

Pipe Covers & Shrouds

Available in 7 set colours; White, Chrome, Antique Copper, Nickel, Polished Brass, Antique Brass & Black.

Pipe covers and shrouds are the perfect method of creating a neat finish for your radiator, they remove the need to paint copper pipes and hide unsightly holes drilled in the floor or wall for the feed pipe. Available in 7 standard finishes they can be delivered in 3- 5 working days. Each set is supplied with two 160mm covers and two shrouds.

Overview

High quality Italian design & manufacture
Steel multi column
10 year guarantee, CE approved & certified to BS EN442

Finish

White RAL 9016

Delivery

3-5 working days

- 1 Calculate the heat output you need for your room, using our online Heat Output Calculator or check with your installer, remember you may need more than one radiator to heat your room.
- 2 Use the tables on pages 122-127 to find the best size to suit your space and heat output you need; if you cannot get the right size and output combination from a 2 column radiator try an alternative height or column (depth) option.
- 3 Choose the style of mounting option you want; standard wall brackets, solid wall brackets and stud wall brackets are included in the radiator price.
- 4 If selecting cast feet or slip on welded feet there is an additional cost, see right for pricing tables.

If you need an alternative size, there are thousands of other sizes we can Make to Order from the full Ancona range which can be found on pages 130-137.

Online Radiator Builder

Use our online radiator builder to help you select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List. To select the right size of radiator for your room you need to calculate the heat output you required to heat your room, you can use our online calculator to work these out. Go to our website www.theradiatorcompany.co.uk

Mounting Options for Ancona Stock

Once you have chosen your radiator size simply choose your preferred mounting option; standard wall brackets, solid wall brackets and stud wall brackets are included in the radiator price. Cast feet and slip on welded feet are an additional cost, see pricing tables below.

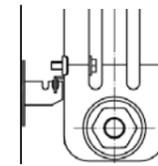

We will supply the correct number of brackets and wall ties with each order; prices for extra brackets / feet and wall ties are available on request, please call 01342 302250.

Please specify your preferred mounting at time of order (remember cast feet and slip on welded feet are not included in the radiator price)

Note: Ancona's must be a minimum of 100mm from the floor for all mounting options

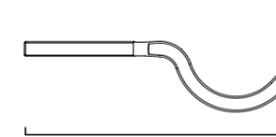

Wall mounting options included in radiator price

Standard wall brackets

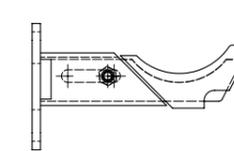

Pipe centres from wall:
2 column = 64mm - 74mm
3 column = 82mm - 92mm
4 column = 102mm - 112mm

Solid wall brackets

Pipe centres from wall:
2 column = 64mm - 74mm
3 column = 82mm - 92mm
4 column = 102mm - 112mm

Stud wall brackets (pairs)

Pipe centres from wall:
2 - 3 column = 70mm - 80mm
4 column = 95mm - 130mm

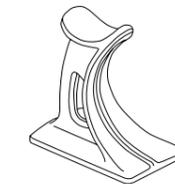

Wall ties

adjust from
32 to 42mm

Cast feet kit prices (includes wall ties)

PPANCSSOFKIT5	41-49 (odd number of sections)	5	£150.00	£180.00

Pipe centres from wall:
2 column = 64mm - 74mm
3 column = 82mm - 92mm
4 column = 102mm - 112mm

Note: Please remember to add 100mm to the height of the Ancona section you have chosen if you are using slip on welded feet.

Helpful notes & advice;

Please call us on **01342 302250** if you need any further information or help with specifying your Ancona.

Due to transport and handling restrictions, Stock Ancona's are supplied pre-assembled up to a maximum of 40 sections. For radiators outside these parameters there is an additional joining charge please consult Customer Services to discuss alternative requirements. All Ancona's come supplied as a finished radiator with 1/2" B.O.E. (Bottom Opposite End) connections as standard.

Ancona® 2 Column 600mm & 750mm High

Match the output you need and the best size for your space. All prices include wall mounting options, slip on welded feet and cast feet have an additional cost see right for kit prices.

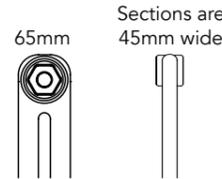

The radiators width shown below includes bushes. Pipe centres left to right = width + valves.

2 column - 600mm High

Mounting Options

Once you have chosen your radiator size simply choose your preferred mounting option; standard wall brackets, solid wall brackets and stud wall brackets are included in the radiator price see pages 121 and 123 for more information.

Cast feet and slip on welded feet are an additional cost, see pricing tables below.</

Ancona® Bare Metal Lacquer Stock

Overview

High quality Italian design and manufacture
Steel multi column
10 year guarantee, CE approved & certified to BS EN442

Finish

Bare Metal Lacquer, please call **01342 302250** for a Special Finish chart.

Delivery

Stock: 3-5 working days

Bare metal lacquer

This industrial bare metal finish is created by taking a "battery" sized radiator and hand finishing every part of the radiator so each radiator is unique.

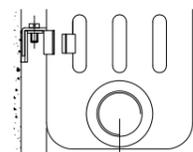

As you would expect variations in colour, welding and burnishing marks vary from one section to another and add to the idiosyncrasy of each radiator. Once sections are hand burnished to give a smooth surface, a clear gloss lacquer is applied, protecting the bare metal and enhancing their irregular nature and individuality.

Once you have chosen your radiator size (right) simply choose your preferred mounting option (below).

Universal wall brackets are included in your radiator price. Slip on welded feet are an additional cost, please see kit prices below. Please specify your mounting option choice at time of order (fittings are available to order with a corresponding radiator only). The correct number of universal wall brackets are supplied with each order; prices for extra universal wall brackets are available on request, please call 01342 302250.

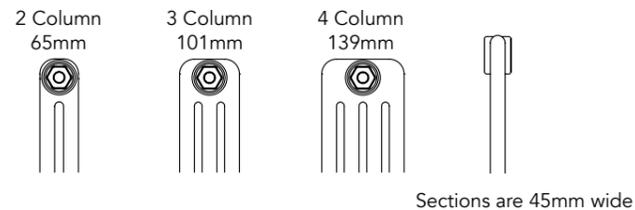

Universal wall brackets included in radiator price

Supplied as standard with all lacquer stock Ancona's®

Pipe centres from wall:
2 column = 56mm
3 column = 74mm
4 column = 93mm

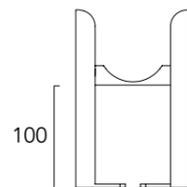

24mm

Sections are 45mm wide

Pipe Centres for universal wall brackets / slip on welded feet;

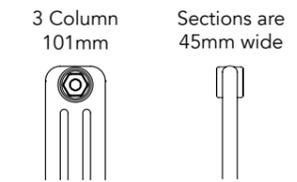

Pipe centres left to right = width plus valves.

Pipe centres from wall 4 Column = 93mm

Universal wall brackets as standard, slip on welded feet are an additional cost see left for details and pricing, please specify at time of order.

Overview

High quality Italian design & manufacture
Steel multi column
10 year guarantee, CE approved & certified to BS EN442

Finish

White RAL 9016 as standard, 188 RAL colours and 36 Special Finishes
Please call **01342 302250** for a RAL or Special Finish chart

Delivery

Made to Order: Up to 4 weeks White & Colours, up to 6 weeks Bare Metal Lacquer,
Up to 7 weeks Galvanised

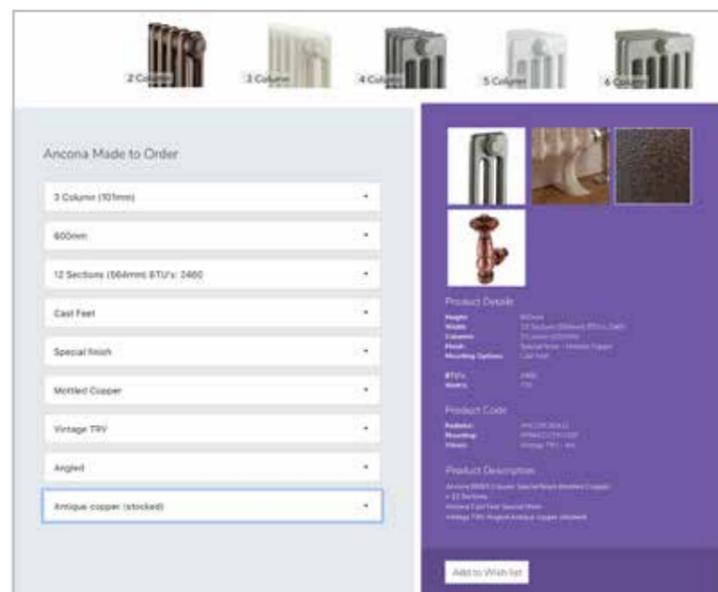

Create a radiator that matches your exact requirements with thousands of sizes, plus a choice of 188 RAL colours and 36 special finishes available including bare metal lacquer and galvanised finishes.

Choose your radiator using our online radiator builder

Once you know your outputs use our online radiator builder to select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List. Go to our website www.theradiatorcompany.co.uk

It is vital to know the correct heat output you need to keep your room warm, use our online heat output calculator to get a guide to your requirements which you can then check with your installer.

Once you know your outputs you can use the brochure to specify your radiator by following these steps (or call our Customer Services team on 01342 302250 who will help you size your radiator)

- Note the space you have in mind for the radiator(s) you need; vertical or horizontal, length, height & depth
- Select a column option and height that fits your space; Calculate the number of sections you need by dividing the required BTU (Watt) output with the output per section; e.g 4142 BTUs divided by 205 = 20 sections, based on 3 column, 600mm high sections (always round up to the next whole number of sections)
- If using that section size does work in the space available, try a different column option or if possible a different height
- Once you have calculated the best number and size of section, select the best mounting option. Wall hung options (standard wall brackets, solid wall or stud wall brackets) are included in your radiator price. Cast feet or welded feet are an additional cost, see kit prices on page 135. Choose your colour from over 200 colours and special finishes; white RAL 9016 or 9010 are our standard finishes
- Work out the price of your radiator; e.g 3 column 600mm high, white, 20 x £25.99 = £519.80 + welded feet kit price £96.00 = £615.80 (inc VAT)
- Place your order with your local Merchant using the Sectional Model Code x No. of Sections needed, noting the Mounting Option and the name and number of colour you have chosen; e.g ANCO360W x 19 sections, RAL 9016 Traffic white, with welded feet.
- If you have chosen a colour use the colour reference 'R' instead of 'W' and list the colour number and name

All prices and outputs are given per section in the tables on pages 132-133. Price per section includes plugs, bushes and diverter. Mounting options must be selected separately, these will include the air vent and appropriate number of wall ties.

Helpful notes & advice;
Please call us on 01342 302250 if you need any further information or help with specifying your Ancona®.

Ancona sections are 45mm wide, therefore the total radiator length is; "no. of Sections x 45mm + 24mm for bushes + valves"
When considering the height of your radiator remember that your mounting option will affect the overall height of your radiator. Made To Order Ancona's® are supplied factory assembled up to a maximum of 40 sections. For radiators outside these parameters there is an additional joining charge please consult Customer Services to discuss alternative requirements.

The Ancona® made to order range is available in White RAL 9016 as standard (as an alternative the RAL colour 9010 Pure White can be specified at the standard white price). They can also be ordered in one of the 188 RAL colours or any of the non galvanised special finishes including Gun Metal Grey, Textured White and Ivory, Mottled, Bronze, Metallic and Gold finishes. Call 01342 302250 for a RAL or special finish chart.

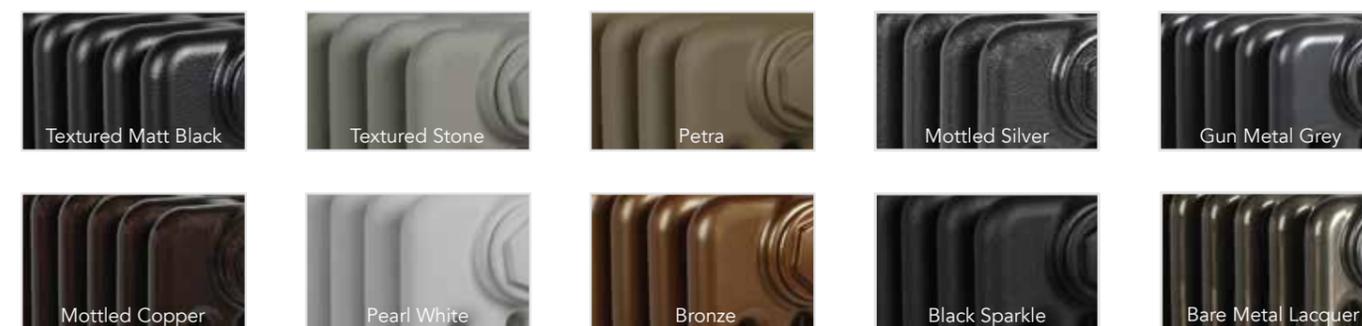

RAL Colours

Match your room style by selecting from a full rainbow of 188 RAL colours. Use either contrasting colours to create a bold statement or sympathetic colours so your Ancona® blends in to your wall.

Special Finishes & Bare Metal Lacquer

Choose from colours including metallics, mottled, textured effects as well as a bare metal lacquer, for a Special Finish chart please call our Customer Service team on 01342 302250.

Please specify your chosen RAL number and colour or special finish at time of order.

Galvanised Finishes

We have developed a range of truly unique, stunning and "on trend" finishes in classic Antique Copper, Antique Brass and a more contemporary Satin Nickel. We take individual sections of Ancona®, hand polish every part of the section, then using the hot dip galvanising process (similar to chroming) we create the finish. 5 stages in total are needed with a final hand brushing and lacquer. The result, is distinctive and hardwearing, with each radiator completely unique due to the amount of hand finishing. **Please note: galvanised Ancona's are available with welded feet only in set sizes, see pages 136-137.**

Ancona® Accessories

Ancona® Towel Bars

Adapt your Ancona for the bathroom with a towel bar.
Available from stock.

Model	Description	Price Ex VAT	Price Inc VAT
PPANCSTB06	To fit 8 sections or more	£50.00	£60.00
PPANCSTB08	To fit 10 sections or more	£60.00	£72.00

To fit 8 sections or more

To fit 10 sections or more

Manual Brass Airvents

As an alternative, why not order an Ancona® manual brass airvent to co-ordinate with your chosen colour or to match your valve. 1 airvent is needed per Ancona® radiator; please specify at time of order. **Available from stock.**

Model	Description	Price Ex VAT	Price Inc VAT
PPAVB	Brass airvent	£4.00	£4.80

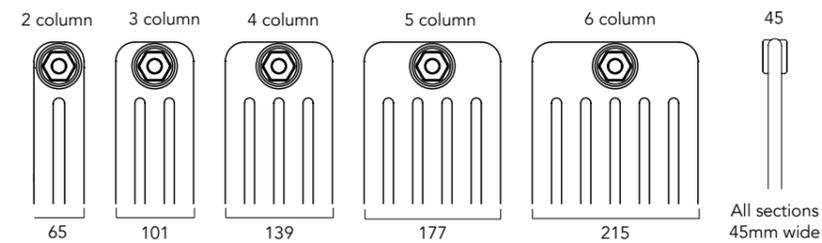

A nominal £5 charge for postage and packing will be applied to any orders under £50 in value

Create a radiator that matches your exact requirements with thousands of sizes, plus a choice of 188 RAL colours and 33 special finishes available. Specify your radiator on line; Use our Online Radiator Builder to quickly and easily specify your radiator. Go to our website www.theradiatorcompany.co.uk. Use these tables to specify your radiator by following these steps;

- 1 Calculate the heat output you need for your room, using our online Heat Output Calculator or check with your installer, remember you may need more than one radiator to heat your room.
- 2 Use the tables below and right to find the best size to suit your space and heat output you need; if you cannot get the right size and output combination from a 2 column radiator try an alternative height or column (depth) option, see page 130 for more details on how to size your radiator.
- 3 Choose the style of mounting option you want; standard, solid and stud wall brackets are included in the radiator price. If selecting cast feet or welded feet there is an additional cost, see pricing tables on page 135.
- 4 Choose your colour from a choice of 188 RAL colours and 33 special finishes including bare metal lacquer. For galvanised finishes please see pages 136-137.

All prices and outputs are given per section in the tables below. Price per section includes delivery plugs, bushes, diverter, wall brackets and wall ties. Alternative mounting options must be selected separately, these will include the air vent and appropriate number of wall ties. When considering the height of your radiator remember that your mounting option will affect the overall height of your radiator. Made To Order Ancona's[®] are supplied factory assembled up to a maximum of 40 sections. For radiators outside these parameters there is an additional joining charge please consult Customer Services to discuss alternative requirements.

Pipe Centres for all Anconas with Cast Feet, Welded Feet or Wall Brackets are;	
Pipe centres left to right = number of sections x 45mm plus 24mm (12mm each) for bushes plus valves.	
Pipe centres from wall (based on adjustable wall ties)	2 Column = 64mm to 74mm 3 Column = 82mm to 92mm 4 Column = 102mm to 112mm 5 Column = 120mm to 130mm 6 Column = 140mm to 150mm

Sections

2 Column - 65mm Deep

Ancona® Made to Order wall mounting options

Once you have chosen your radiator size you can choose any one of our 5 mounting options & specify at time of order (fittings are available to order with a corresponding radiator only).

Included in your radiator price you have a choice of three wall mounting options; standard wall brackets, solid wall brackets or stud wall brackets. The correct number of brackets and wall ties will be supplied with each order; prices for extra wall brackets and wall ties are available on request, please call 01342 302250.

Please specify your preferred wall mounting option at time of order.

Technical & pipe centre information of each mounting option is shown below / right.

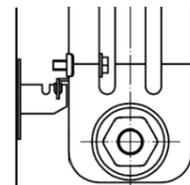

Please note: Ancona's in a bare metal lacquer finish are only available to be mounted with universal wall brackets or welded feet.

*PPANCOWNB

Standard wall brackets technical & pipe centre information

Can be positioned at any height (minimum height from floor 100mm); brackets are supplied with raw plugs.

Pipe centres from wall:
 2 column = 64mm - 74mm
 3 column = 82mm - 92mm
 4 column = 102mm - 112mm
 5 column = 120mm - 130mm
 6 column = 140mm - 150mm

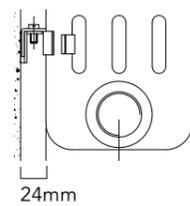

Wall tie; adjusts from 32 to 42mm

*PPANCOWNB

Bare metal lacquer universal wall brackets (suitable for stud walls)

Note: Ancona's with lacquer wall brackets can be positioned at any height (minimum 100mm from floor)

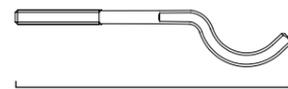

Pipe centres from wall:
 2 column = 56mm
 3 column = 74mm
 4 column = 93mm
 5 column = 112mm
 6 column = 131mm

Solid wall brackets technical information & pipe centres

Wall brackets can be positioned at any height (minimum height from floor 100mm); brackets are supplied with raw plugs.

*PPANCOSWB

bracket length
 2 Column = 173mm, 3 Column = 192mm
 4 Column = 211mm, 5 Column = 230mm
 6 Column = 249mm

Pipe centres from wall:
 2 column = 64mm - 74mm, 3 column = 82mm - 92mm
 4 column = 102mm - 112mm, 5 column = 120mm - 130mm
 6 column = 140mm - 150mm

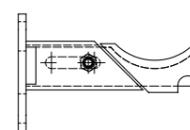

Wall tie; adjusts from 32 to 42mm

Please note: Solid wall brackets are not available for bare metal lacquer finishes

Stud wall brackets technical & pipe centre information (supplied in pairs)

Note: stud wall brackets can be positioned at any height (minimum height from floor 100mm).

Pipe centres from wall:
 2-3 column = 70mm - 80mm
 4-5 column = 95mm - 130mm
 6 column = 129mm - 148mm

Please note: Stud wall brackets are not available for bare metal lacquer finishes

*PPANCOSB

Ancona® Made to Order floor mounting options

Once you have chosen your radiator size you can choose to have your Ancona floor mounted by selecting either Welded or Cast feet (fittings are available to order with a corresponding radiator only).

Please note; welded feet and cast Feet are an additional cost to your radiator price.

The correct number of wall ties will be supplied with each order; prices for extra cast feet and wall ties are available on request, please call 01342 302250.

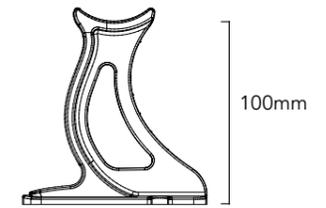

Please specify your preferred floor mounting option & kit number at time of order.

Technical & pipe centre information of each mounting option is shown below.

Cast feet kit prices

Note: please remember to add 100mm to the height of the Ancona section you have chosen if you are using cast feet.

Delivery

Approximately 6 weeks from receipt of written sign off of technical drawings
Please visit our website for further information www.theradiatorcompany.co.uk.

Our Ancona® radiators can be curved to fit into bay windows and around columns. Ancona® Curved is most often produced in 2, 3 or 4 column sections and can be produced in heights of 300mm, 400mm, 500mm, 600mm or 750mm, with welded feet (welded feet add an additional 100mm to the height of your radiator). Alternative heights are available on request, please contact us on **01342 302250** if required. Radiators can be curved using up to 40 sections, minimum 10 sections (450mm).

As with all radiators it is essential to know how much heat you need to keep your room comfortable, use our online Heat Output Calculator to work out how much heat you will need for your room before you size your radiator.

Curving is a precise process and as such accurate measurements and calculations must be made and checked before production can begin. Since our Ancona® Curved is made on a bespoke basis to your exact requirements we have created an online tool to help make the process as easy as possible;

To order your curved radiator follow these simple steps;

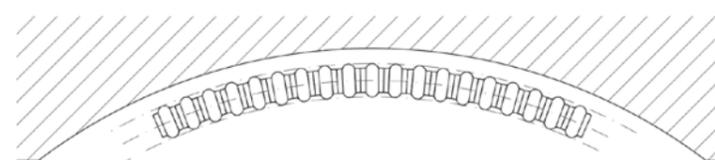

- 1 Go to our website www.theradiatorcompany.co.uk and select the 'Curved Ancona®' in the steel multi column section, download or read the specification document which explains how to measure for your curved radiator
- 2 Use our online Curved Radiator Builder by filling in all the sections
- 3 When you have reviewed the technical specification, double check everything is correct to see how your radiator will fit in your space
- 4 Print the technical specification and sign all pages once you are happy with the details
- 5 Use the signed specification to place your order with your Installer or local merchant

Alternatively, you can complete the Specification Instruction sheet with the dimensions of your bay or column and return it to us via email, fax or post (please see contact details below). However, this will take extra time for us to have drawings made and then sent to you for approval before any order can be placed. **Please note; once you have signed off your drawings and ordered your curved radiator it may not be cancelled or returned.**

Our website www.theradiatorcompany.co.uk has a number of easy to use tools to help make choosing the right radiator easy and quick;

Sectional Radiator Builders;
Our sectional radiator builders make quick work of selecting the right combinations for your space. Each range has their own specific builder.

Help and FAQ's;
Helpful advice that clearly explains the key facts to consider when selecting your radiators and answers the most common questions about choosing and buying our radiators.

Wish List;
Saves details of all your short-listed radiators for easy reference. Once you have built your wish-list you can share and review.

Downloads;
You can download Fittings Instructions and Brochure pages for every product.

Downloads;
You can download Fittings Instructions and Brochure pages for every product.

Heat Output Calculator;
An essential guide to ensuring your radiator(s) generate enough heat to keep your room as warm as you want it to be.

View our Brochure;
View our entire brochure online, request a hard copy to be sent to you or download a copy.

Finishes;
Many of our designs are available in a large selection of RAL colours and Special Finishes, swatches of every colour or finish for each radiator can be viewed here. Please note we do recommend you see our Special Finish chart and a RAL chart before choosing your radiator colour.

Products;
Every product we list in our brochure can be found here, we also have two convactor radiators; the Mini and Trench.

Ranges;
The UK's largest selection of radiators and towel rails in mild steel, aluminium, stainless steel and cast iron.

All prices shown include a solid oak seat.

Please note: Bench seats over 1650mm wide will be supplied with 3 feet.

Pipe centres = width - 215mm

Cast Iron Range shown on pages 26-41

Overview

Cast Iron; 4 Column, 2 Classic and Ornate Styles
Up to 20 years guarantee, CE approved & certified to BS EN442

Finish

Aston; available in 26 RAL colours and a Polished finish
Priory, Ledbury, Telford & Trieste; available in primer, 26 RAL colours, 31 Special Finishes, Polished or Burnished (Trieste) and Lacquered.
Linton; 26 RAL colours, 4 Special finishes, 1 Galvanised Special Finish, Polished, Burnished & Lacquered. Please call **01342 302250** for a RAL / Special Finish chart

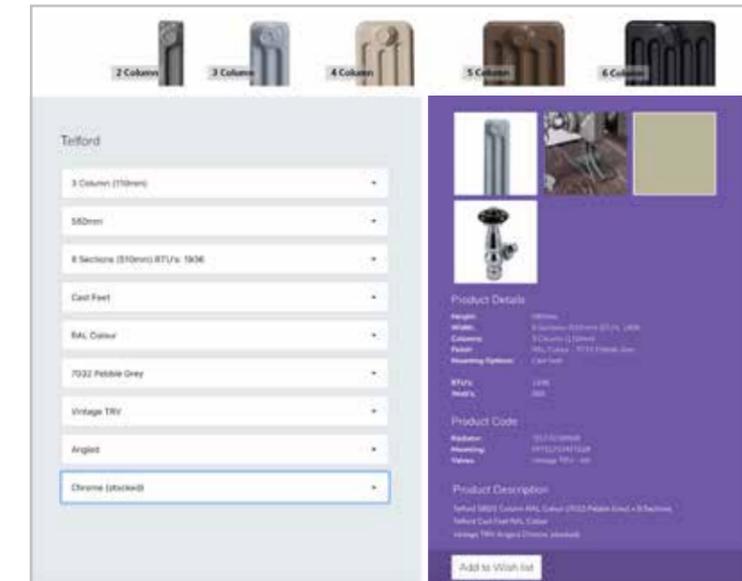

Delivery

Aston; 15 working days for RAL colours, 5 weeks for Polished.
Priory, Ledbury, Telford & Trieste; 3-5 working days for primer, 15 working days for RAL colours & special finishes. 4 weeks for Lacquer, 5 weeks for Polished & Burnished.
Linton; 4-5 weeks dependent on finish see pages 154-156 for full details.
Please add 10 working days for orders of more than 10 radiators

Choose your radiator using our online radiator builder

Once you know your outputs use our online radiator builder to select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List. Go to our website www.theradiatorcompany.co.uk

It is vital to know the correct heat output you need to keep your room warm, use our online Heat Output Calculator to get a guide to your requirements which you can then check with your installer.

Once you know your outputs you can also use the brochure to specify your radiator by following these steps (or call our Customer Services team on 01342 302250 who will help you size your radiator)

- Note the space you have in mind for the radiator(s) you need; vertical or horizontal, length, height & depth
- Select a column option and height that fits your space; Calculate the number of sections you need by dividing the required BTU (Watt) output with the output per section; e.g 1913 BTUs divided by 242 = 8 sections, based on 3 column, 580mm high sections (always round up to the next whole number of sections)
- If using that section size does work in the space available, try a different column option or if possible a different height
- Once you have calculated the best number and size of section, select the best mounting option and kit; footed end section, cast feet or wall brackets. For the Ledbury, Aston, Priory & Telford you have the option of footed ends, cast feet or wall brackets. For the Trieste and Linton ranges these are only available with footed ends.
- Your cast iron radiator can be painted in a selection of the most popular colours from the RAL range, special finishes, in a polished or burnished finished (Trieste) or a lacquered finish. Please specify your chosen colour at time of order. Please note: as a result of the casting process, cast iron radiators have a rough surface finish with small imperfections which will show after the painting process.
- Work out the price of your radiator; e.g Telford 3 column, 580 high, 8 section, RAL 7032 = £57.29 x 8 = £458.32 + Cast feet Kit Model A (2) = £81.60 - Total = £539.92
- Place your order with your local Merchant using thesectional model code x No. of sections needed, noting the mounting option and the name and number of colour you have chosen; e.g TELF3C58 x 8 sections, RAL 7032 Pebble Grey with cast feet
- If you have chosen a colour make sure you list the colour number and name

All prices and outputs are given per section in the tables on pages 142-159. Price per section includes plugs, bushes and diverter. Mounting options must be selected separately, these will include the air vent and appropriate number of wall ties.

Overview

Cast Iron; Footed ends as standard, optional cast feet or wall brackets (available on request). 10 year guarantee, CE approved & certified to BS EN442

Finish

26 RAL colours plus a Polished finish.
Please call **01342 302250** for a RAL chart

Delivery

15 working days for 26 RAL colours
5 weeks for Polished.
Please add 10 working days for orders of more than 10 radiators

Farrow & Ball® finishes available in all sizes, see page 158 for full details
®Registered trademark of Farrow & Ball Holdings Limited

Aston Sectional with footed end sections as standard please see page 151 for floor mounting options, wall brackets are available on request, please call customer services on 01342 302250 for more information and prices

Build your radiator to fit your requirements using individual sections shown below, visit page 141 to help you size your radiator.
If you require more than 40 sections please contact our Customer Services team on 01342 302250.

Quick Selection Sizes with footed ends (widths include measurement for bushes)

Available in up to 15 working days for RAL colours

For our most popular sizes of Aston radiators, simply find the sizes that fulfill your heat and space requirements. If this quick selection does not meet your requirements you can use the sectional stock tables adjacent to work out other stock sizes to fit your space.

Important Note: Due to the weight of Aston radiators, we can only supply complete or part assembled radiators up to a maximum of 10 sections. Radiators over 10 sections must be site assembled with a basic joining key available on a sale or return basis see page 151; appropriate nipples & gaskets are supplied, see below for more information.

5 Column	60 x number of sections + 30mm bushes + valves	160mm to 180mm

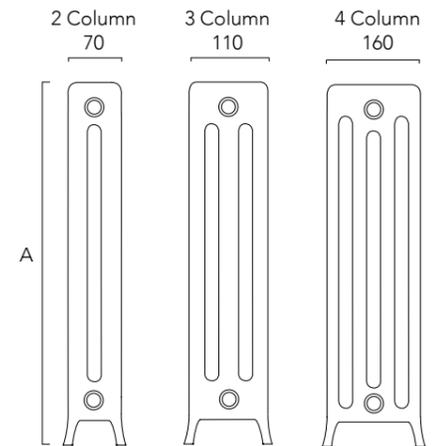

Quick Selection Sizes with footed ends (widths include measurement for bushes)

Available in 3-5 working days for primer, up to 15 working days for RAL colours

For our most popular sizes of Priory radiators, simply find the sizes that fulfill your heat and space requirements. If this quick selection does not meet your requirements you can use the sectional stock tables on page 144 to work out other stock sizes to fit your space. Priory radiators are priced with footed end sections included. For more details see information on page 151.

Important note: Due to the weight of Priory radiators, we can only supply complete or part assembled radiators up to a maximum of 10 sections. Radiators over 10 sections must be site assembled with a suitable joining key available on a sale or return basis (see page 151); appropriate nipples & gaskets are supplied.

Mini 6 Column	60 x number of sections + 28mm bushes + valves	130mm to 150mm	255mm (footed ends protrude 33mm total from section width)	222mm

Please note for sections without footed ends deduct 60mm from the height of the section

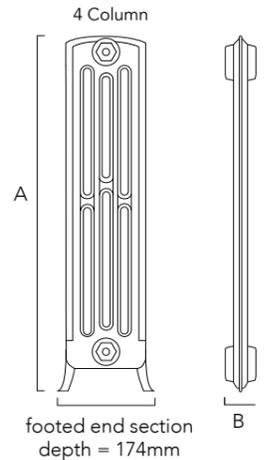

Quick Selection Sizes with footed ends (widths include measurement for bushes)

Available in 3-5 working days for primer, up to 15 working days for RAL colours

For our most popular sizes of Ledbury radiators, simply find the sizes that fulfill your heat and space requirements. If this quick selection does not meet your requirements you can use the sectional stock tables on page 146 to work out other stock sizes to fit your space. Ledbury radiators are priced with footed end sections included. For more details see information on page 151.

Important Note: Due to the weight of Ledbury radiators, we can only supply complete or part assembled radiators up to a maximum of 10 sections. Radiators over 10 sections must be site assembled with a suitable joining key (see page 151); appropriate nipples & gaskets are supplied.

Cast iron cast feet

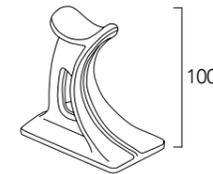

All our cast iron radiators (except 3 and 5 column Telford's) will be supplied with footed end sections as standard; if you require optional Cast Feet please specify at time of order by adding the relevant kit and price below. Wall Brackets are also available on request, please call 01342 302250 to discuss with our customer service team.

Up to 20 Sections	21 - 39 Sections (odd number of sections)	22 - 40 Sections (even number of sections)
2 Feet - 1 at each end	3 Feet - 1 at each end and 1 positioned centrally	4 Feet - 1 at each end and 2 spaced equally inbetween
2 Wall Ties	3 Wall Ties	4 Wall Ties

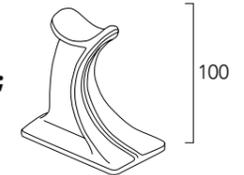

Wall Ties are included in the price and supplied as standard for all orders. Please specify your chosen mounting option at time of order.

Cast Feet Kits for Aston, Priory, Ledbury & Telford

Model A Cast Feet; Aston, Priory, Telford

Model B Cast Feet; Ledbury

Model A	Model B	Number of Feet	Primer Ex VAT	RAL Colour Ex VAT	Special Finish Ex VAT	Polished & Lacquer Ex VAT	Primer Inc VAT	RAL Colour Inc VAT	Special Finish Inc VAT	Polished & Lacquer Inc VAT
PPRIOCFKIT2	PPLEDBCFKIT2	2	£42.00	£68.00	£90.00	£90.00	£50.40	£81.60	£108.00	£108.00
PPRIOCFKIT3	PPLEDBCFKIT3	3	£64.00	£102.00	£134.00	£134.00	£76.80	£122.40	£160.00	£160.00
PPRIOCFKIT4	PPLEDBCFKIT4	4	£85.00	£136.00	£179.00	£179.00	£102.00	£163.20	£214.80	£214.80

Please specify the correct cast foot model at time of order; model A if you are buying cast feet for the Aston, Priory or Telford, model B for the Ledbury.

If you require additional cast feet or wall ties please see pricing table below and specify at time of order

Model A	Model B	Description	Primer Ex VAT	RAL Colour Ex VAT	Special Finish Ex VAT	Polished & Lacquer Ex VAT	Primer Inc VAT	RAL Colour Inc VAT	Special Finish Ex VAT	Polished & Lacquer Ex VAT
PPANSFM01	PPCIFM01	Cast foot (each)	£18.00	£31.00	£43.00	£43.00	£21.60	£37.20	£51.60	£51.60
	PPCIWT01	Wall tie (each)	£4.00	£5.00	£6.00	£6.00	£4.80	£6.00	£7.20	£7.20

Aston; Please remember to minus 60mm then add 100mm to the height of the Aston section when using Cast Feet.

Priory; Please remember to minus 70mm then add 100mm to the height of the Priory section you have chosen if you are using Cast Feet.

Telford; Please remember to add 100mm to the height of the Telford section you have chosen if you are using Cast Feet.

Ledbury; Please remember to minus a maximum of 60mm (allowing for 5mm variation) then add 100mm to the height of the Ledbury section if you are using Cast Feet (Ledbury feet are slightly different in design to the other cast feet see drawing above)

Joining Keys

Cast iron radiators come assembled up to a maximum of 10 sections. Radiators larger than these will require on site assembly using an appropriate Joining Key.

- The Basic key is for joining up to three 2, 3 or 4 column radiators, consisting of two blocks of sections to make one radiator. For more than 3 radiators you must use the Heavy Duty Joining Key available on a sale or return basis.
- The Heavy Duty joining key must be used to join all 5 or 6 column radiators and any radiator (2, 3, 4, 5 or 6 column) requiring more than two individual blocks of sections to be joined to make one radiator, or more than 3 radiators, in order to create the consistent torque required for a water tight seal.
- The Heavy Duty Joining Key is available on a sale or return basis.** Joining Keys must be specified at time of order for assistance please contact our Customer Service team on 01342 302250, they will also arrange a courier to collect it from you when you are ready.

Model	Description	Price Ex VAT	Price Inc VAT
PPASM	Basic Joining Key 1" x 300mm/600mm/900mm	£54.00	£64.80
PPASMT5	Heavy duty joining tool	£400.00	£480.00

Heavy Duty Joining Tool (includes tommy bar) engineered in the UK

Overview

Cast Iron; Footed ends only
20 year guarantee, CE approved & certified to BS EN442

Finish

Supplied in a standard primer, ready to be painted in your desired finish
26 RAL colours, 31 special finishes, Burnished or Lacquered.
Please call **01342 302250** for a RAL or Special Finish chart

Delivery

3-5 working days for primer, 15 working days for RAL colours & special finishes.
Up to 4 weeks for Lacquer, 5 weeks for Burnished.
Please add 10 working days for orders of more than 10 radiators

Farrow & Ball® finishes available in selected sizes, see page 158 for full details
®Registered trademark of Farrow & Ball Holdings Limited

Trieste sectional with footed end sections

Build your radiator to fit your requirements using individual sections shown below, visit page 141 to help you size your radiator. If you require more than 40 sections please contact our Customer Services team on 01342 302250.

The Trieste is a free standing radiator and is supplied with footed end sections only.

Trieste	Pipe centres left to right	Pipe centres from wall
2 Column	76 x number of sections + 24mm bushes + valves	As a free standing radiator pipe centres depend on final position.
3 Column	78 x number of sections + 24mm bushes + valves	As a free standing radiator pipe centres depend on final position.

Some of the 31 special finishes the Trieste is available in, please call **01342 302250** for our special finish chart

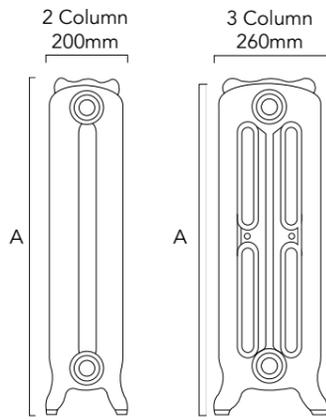

Quick Selection Sizes with footed ends (widths include measurement for bushes)

Available in 3-5 working days for primer, up to 15 working days for RAL colours

For our most popular sizes of Trieste radiators, simply find the sizes that fulfill your heat and space requirements. If this quick selection does not meet your requirements you can use the sectional stock tables adjacent to work out other stock sizes to fit your space. For more details see information on page 152.

Important Note: Due to the weight of Trieste radiators, we can only supply complete or part assembled radiators up to a maximum of 10 sections. Radiators over 10 sections must be site assembled with a suitable joining key available on a sale or return basis (see page 151); appropriate nipples & gaskets are supplied.

26 RAL colours and 31 special finishes available for your cast iron radiator to be painted in.

Overview

Cast Iron; Footed ends only
10 year guarantee, CE approved & certified to BS EN442

Finish

26 RAL colours, 3 Special Finishes, Polished, Burnished and Lacquered finishes plus 1 Galvanised Finish (details below).
Please call **01342 302250** for a RAL or Special Finish chart

Delivery

Made to order: 4 weeks: RAL colours, Soft Gold, Slate Grey, Flat Black, Antique Brass, Burnished & Lacquered. 5 weeks: Galvanised Copper & Polished.
For orders of more than 10 radiators allow an extra 10 working days.

 Farrow & Ball® finishes available in selected sizes, see page 157 for full details
*Registered trademark of Farrow & Ball Holdings Limited

Linton Finishes

26 RAL Colours

The Linton is available in a range of colours from the RAL range, an industry standard range of colours. Select from 26 of the most popular colours, produced to order and delivered in 4 weeks.

5 Linton Finishes

Five exclusive finishes are available for the Linton, a special two pack paint system is used to create some exciting and impactful finishes, including a galvanised effect for Antique Brass.

The Linton can be finished with a full galvanised top coat. The galvanic process applies a coating of Metal (copper in this case) which is then finished to create an aged effect.

Burnished, Polished & Lacquered

Created by hand, an initial black paint is used to protect hidden, hard to access areas of the radiator and to highlight the visible polished areas; a series of burnishing and polishing processes produces the final stunning results.

For a more industrial feel the Linton can be lightly sandblasted and then treated with a protective high gloss lacquer to retain the raw characteristics of the cast iron

Please note, due to the printing process, these colours may not be representative of the true finished colour. For a colour chart call **01342 302250**.

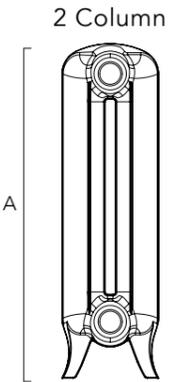

Quick Selection Sizes (widths include measurement for bushes) - Delivered in 4 weeks

For our most popular sizes of Linton radiators, simply find the sizes that fulfill your heat and space requirements. If this quick selection does not meet your requirements you can use the sectional tables adjacent to work out other sizes to fit your space. Linton radiators are priced with footed end sections included. For more details see information on page 154.

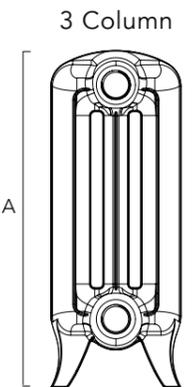

Important Note: Due to the weight of Linton radiators, we can only supply complete or part assembled radiators up to a maximum of 10 sections. Radiators over 10 sections must be site assembled with a heavy duty joining key (see page 151) available on a sale or return basis; appropriate nipples & gaskets are supplied, see page 151 for details.

Quick Selection - RAL & Special Finishes (Soft Gold, Slate Grey, Flat Black) shown left on page 154

Overview

Cast Iron; Footed ends only
20 year guarantee for the Ledbury and Trieste
10 year guarantee for the Aston and Linton
CE approved & certified to BS EN442

Finish

132 Farrow & Ball® finishes

Delivery

15 working days for Farrow & Ball® finishes
Please add 10 working days for orders of more than 10 radiators

Using only genuine Farrow & Ball® Estate Eggshell, we can finish your Aston, Linton, Ledbury or Trieste Radiator in any of the 132 colours in the F&B range. Each radiator undergoes a rigorous painting process to ensure the best quality finish;

1. Two coats of etch primer using an acid key to bond with the iron and form a watertight barrier
2. Two coats of base primer, providing a durable undercoat
3. Up to four top coats of Farrow & Ball® Estate Eggshell to get a great finish
4. Up to 2 hours in the curing oven and then left to cure for at least 24 hours before packaging

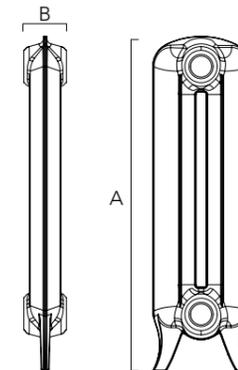

Linton

Build your radiator to fit your requirements using individual sections shown below, visit page 141 to help you size your radiator. If you require more than 40 sections please contact our Customer Services team on 01342 302250.

Sectional Aluminium shown on pages 44-55

Overview

High quality Italian design & manufacture
Aluminium; 5 different profiles; Vip, Oscar, Ottimo, Mix & Vox
10 year guarantee, CE approved & certified to BS EN442

Finish

White RAL 9010 standard, 25 RAL Colours (shown right), plus 32 Special Finishes (shown right). Please call **01342 302250** for a RAL or Special Finish chart

Delivery

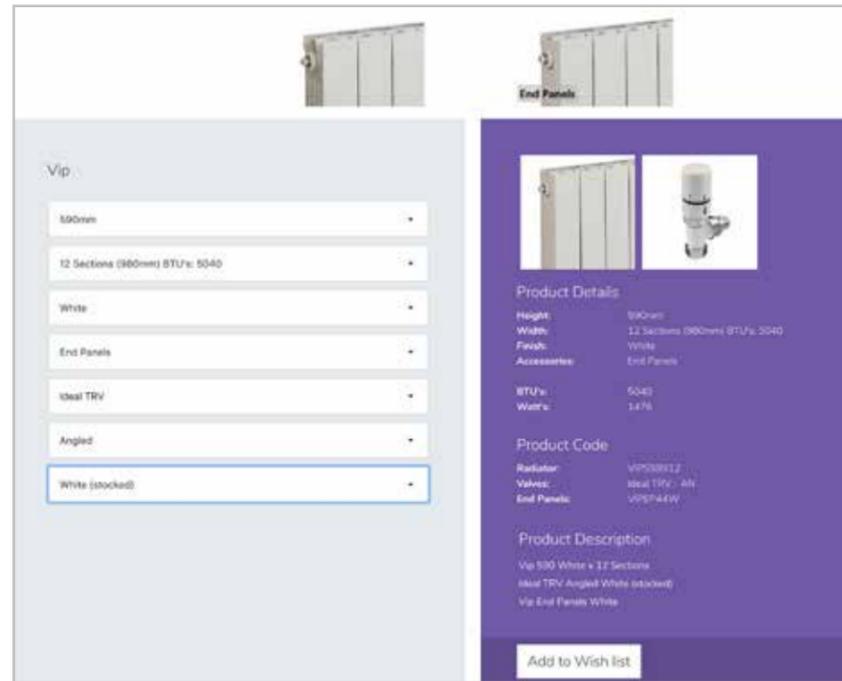

3-5 working days for white RAL 9010
15 working days for colours & special finishes, please allow up to 25 working days for orders of more than 10 radiators in colours or special finishes

Choose your radiator using our online radiator builder

Once you know your outputs use our online radiator builder to select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List. Go to our website www.theradiatorcompany.co.uk

It is vital to know the correct heat output you need to keep your room warm, use our online Heat Output Calculator to get a guide to your requirements which you can then check with your installer.

Once you know your outputs you can also use the brochure to specify your radiator by following these steps (or call our Customer Services team on 01342 302250 who will help you size your radiator)

Note the space you have in mind for the radiator(s) you need; vertical or horizontal, length, height & depth

- Select a column option and height that fits your space; Calculate the number of Sections you need by dividing the required BTU (Watt) output with the output per section; e.g $4811 \text{ BTUs divided by } 420 = 11.45$, (we always suggest rounding up, as it is better to have too much output, than too little) therefore 12 sections based on Vip 590
- If using that section size does work in the space available, try a different height or alternative aluminium profile
- Once you have calculated the best number and size of section, select your colour. Our Aluminium Radiators are now available in a selection of the top 25 most popular colours from the RAL range and 32 special finishes (shown right on page 161). Please specify your RAL colour or special finish at time of order. White RAL 9010 is our standard for the Vip, Oscar, Vox and Mix, RAL 9016 for the Ottimo.
- Work out the price of your radiator by multiplying the section price by the total number of sections e.g Vip 590 high, 12 sections in white = $\text{£}34.64 \times 12 = \text{£}415.68$ (inc VAT)
- Place your order by using the Sectional Model Code x No. of Sections needed and noting the colour number and name selected; e.g VIP59 X 12 in White RAL 9010
- If you have chosen a colour make sure you list the colour number and name

All prices and outputs are given per section in the tables on pages 162-171. Price per section includes plugs, bushes and diverter.

End Panels for the Vip & Oscar must be specified at time of order, please see pages 163 and 165 for more information.

Sectional Aluminium shown on pages 44-55

25 RAL Colours

Special Finish options

Our aluminium ranges also come in 32 exclusive special finishes (some of which are shown below) these radiators provide both the efficiencies of aluminium and a stunning finish. Available in up to 15 working days.

Please call **01342 302250** for a RAL or Special Finish chart

For orders of more than 10 radiators in colour or special finishes please allow an extra 10 working days for delivery.

Aluminium Pegs & Bars

These towel bars and pegs are designed to fit all of our sectional aluminium ranges except the Ottimo. Ideal for providing additional hanging space to air towels or hang bathrobes. **Available from stock in 3 - 5 working days.**

Overview

High quality Italian design & manufacture
Aluminium, 10 year guarantee, CE approved & certified to BS EN442

Finish

White RAL 9010 standard, 25 RAL Colours, 32 Special Finishes
Please call **01342 302250** for a RAL or Special Finish chart

Delivery

3-5 working days for white RAL 9010
15 working days for colours & special finishes, please allow up to 25 working days for orders of more than 10 radiators in colours or special finishes

Oscar Quick Selection - All available from stock

These are our most popular sizes of Oscar radiators. Simply find the size(s) that meet your output needs and pick the best size for your space. If this quick selection does not meet your requirements you can also use the tables on page 165 to work out other sizes from the Made to Order stock range. See page 160 for information and help on how to size your radiator.

Overview

High quality Italian design & manufacture
Aluminium
10 year guarantee, CE approved & certified to BS EN442

Finish

White RAL 9016 standard, 25 RAL Colours, 32 Special Finishes
Please call **01342 302250** for a RAL or Special Finish chart

Delivery

3-5 working days for white RAL 9016
15 working days for colours & special finishes, please allow up to 25 working days for orders of more than 10 radiators in colours or special finishes

Ottimo Quick Selection - All available from stock

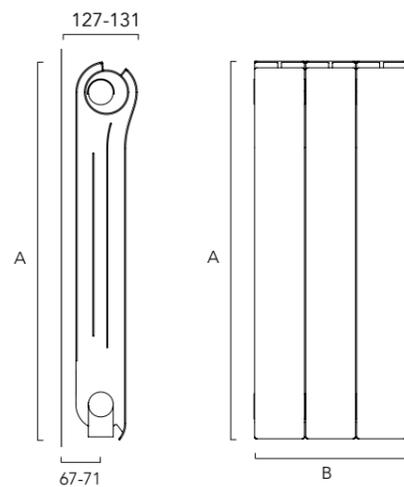

These are our most popular sizes of Ottimo radiators. Simply find the size(s) that meet your output needs and pick the best size for your space. If this quick selection does not meet your requirements you can also use the tables on page 167 to work out other sizes from the Made to Order stock range. See page 160 for information and help on how to size your radiator.

Note: Supplied pre-assembled in up to 20 sections (1600mm), wider radiators must be joined on site.
1646mm & 1846mm supplied pre-assembled in up to 10 sections (800mm), wider radiators must be joined on site.

25 RAL colours plus 32 special finishes available please call 01342 302250 for a RAL / special finish colour chart

Overview

High quality Italian design & manufacture
Aluminium
10 year guarantee, CE approved & certified to BS EN442

Finish

White RAL 9010 standard, 25 RAL Colours, 32 Special Finishes
Please call **01342 302250** for a RAL or Special Finish chart

Delivery

3-5 working days for white RAL 9010
15 working days for colours & special finishes, please allow up to 25 working days for orders of more than 10 radiators in colours or special finishes

Mix Quick Selection - All available from stock

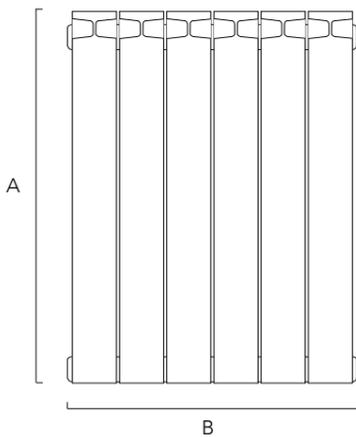

These are our most popular sizes of Vox radiators. Simply find the size(s) that meet your output needs and pick the best size for your space. If this quick selection does not meet your requirements you can also use the tables on page 171 to work out other sizes from the Made to Order stock range. See page 160 for information and help on how to size your radiator.

How to order

Order your radiator in six easy steps

- 1. Confirm your heat output requirements for the room where you need the radiator or towel rail;** this ensures the radiators you choose will deliver the heat output you need. Use the heat output calculator on our website www.theradiatorcompany.co.uk then decide how many radiators you need for the relevant room; discuss this and positions with your Installer If needed.
- 2. Choose your design;** our range has everything from traditional cast iron to modern feature radiators even an environmentally friendly aluminium range, with an extensive choice of sizes, colours & outputs.
- 3. Select a size that matches the heat output requirement;** outputs are shown in our technical section & will help you & your installer to find the best match for your needs.
- 4. Choose the colour you want;** with over 220 colours & special finishes you are able to match your colour scheme or introduce an accent colour to create a striking feature.
- 5. Find a valve to complete the look;** Choose from our wide selection of valves and add any accessories that complement your choice.
- 6. Order from your nearest showroom or merchant;** to find your nearest branch call us on **01342 302250** or visit www.theradiatorcompany.co.uk

For help in choosing a sectional radiator (modular radiators that can be built by section to achieve a size and/or output requirement) please visit our website to use one of our online radiator builders for Ancona® Steel Multi Column, Cast Iron and Sectional Aluminium.

Our Product Range

- All our radiators are produced and outputs measured in accordance with European standard BS EN442 and as such are **CE** approved.
- Radiators are supplied with BOE connections as standard unless otherwise stated. B2 underneath connections can be supplied with selected models. Full technical details can be found from pages 120 to 208 and all details are in accordance with our factory or manufacturing partner's terms of reference at the time of going to print.
- Due to the excessively corrosive nature of chlorine we do not recommend that radiators & towel rails are placed in swimming pool environments. In addition radiators should not be located in areas that have long term exposure to high levels of moisture without suitable ventilation.
- When commissioning any radiator (including aluminium) on an indirect/closed system we recommend using a suitable mixed metal inhibitor in suitable quantities to protect against scale & corrosion. We can provide the water content of our radiators if required to help the installer calculate this if needed.

Electric / Dual Fuel

Selected towel rails can be converted to work as dual fuel models. An element and T-piece is needed to adapt the towel rail; your installer will need to be aware if you wish to do this in order to adjust pipe centres accordingly. See pages 110 - 111 for our range of elements. If a towel rail is suitable for dual fuel it will be noted in the Product Information box.

Pipe Centres

We endeavour to ensure all pipe centres are correct, however manufacturing tolerances must be considered. Therefore we strongly recommend that pipe work is not altered or adjusted until your new radiator or towel rail is delivered. The Radiator Company will not accept any responsibility for claims resulting from incorrect pipe centres.

Delivery

Please note that many of our factories close for 2 - 4 weeks during the holiday periods of July/August and December. This may extend the delivery period quoted for non stock made to order items ordered during July/August & December/January. We will confirm the expected delivery date on our order acknowledgement at the time of order. Unfortunately delivery to Scotland / Offshore Islands may take longer due to the distances involved. Deliveries will be made to the nearest hard standing area.

Systems

All radiators and towel rails featured in this brochure are suitable for indirect/closed systems that comply with 'BS5449, section 1 forced circulation hot water systems'.

Systems running with low pressures (under 1 Bar), microbore pipework or modern boilers with modulating pumps, may experience flow and heating issues if not accounted for in the system design which could result in radiators not heating fully or noisy pipework.

Direct heating systems use your hot water supply to heat a radiator; usually this will occur in a bathroom. If you have any radiators or towel rails linked to a direct system they should be made from either stainless steel or brass to avoid rusting and contaminating the hot water supply.

Powder coat finishes and Painted cast iron

It should be noted that due to the production process colours can vary by +/- 5 to 10% from samples provided and between radiators ordered in the same colour at different times.

All painted cast iron radiators will be checked and tested prior to despatch. Care must be taken when handling and joining painted cast iron radiators on site to avoid damaging the finish. Cast iron radiators will be supplied with a small bottle of touch up paint in case of damage to the finish during installation, however it should be noted that this may vary slightly from the standard powder coat finish. As a result of the casting process, cast iron radiators have a rough surface finish with small imperfections which will show after the painting process.

Terms & Conditions

For a copy of The Radiator Company full Terms & Conditions please call our Customer Services department on **01342 302250** or visit www.theradiatorcompany.co.uk
