WE ARE PIONEERS WITH A VISION

We thrive upon innovation designed to give you the ultimate feeling of mastery in your home and laundry care. We see your needs of today. And foresee the ones of tomorrow. So that you can achieve results that don't just meet your standards, but exceed them.

We believe in intelligent technology and exceptional performance, helping you to take anything you do at home to the next level, every day.

We are proud of our distinctive engineering and responsive design, guaranteeing you the performance you expect and deserve.

We are a brand that people turn to for intelligent and exciting new ways to guarantee their outcome.

This has been our passion for over 125 years, and continues to be our passion today.

We are AEG. And together with you, we are always an idea ahead.

Lifts gentle to a new level

The world's first ComfortLift® dishwasher means less bending down, to make your life more comfortable.

AEG FSK93800P ComfortLift Dishwasher awarded Which? Best Buy status July 2017.

FLAVOUR CONDUCTED YOUR WAY.

The new Mastery Range from AEG works with you in unique ways to take your cooking to the next level. Every appliance ready to play their part, working in harmony and instantly responding to your second-by-second commands.

Now, for the first time, you can even tell the oven how you want your dish cooked – using just the words you would in a restaurant – rare, medium, well done. Or play with a hob where the entire surface follows every pan you move, no matter how big or small. It's time to expect more from the way you cook. Step into the world's most responsive cooking experience.

Maestro, your kitchen is waiting.

CUSTOMFLEX®

SENSECOOK

MAXISENSE®

INTRODUCING YOUR PRODUCTS OF THE YEAR

We are delighted to have won two awards for our AEG products in the largest UK consumer survey of its kind.

Product of the Year is the world's largest consumer-voted award for product innovation, aiming to guide consumers to the best products in the market and to reward manufacturers for quality and innovation. In the UK, the Product of the Year seal is determined by more than 10,000 consumers, who vote on product appeal, innovation and satisfaction overall.

Two of our leading appliances, the AEG SteamPro Multifunction Sous Vide Oven and the AEG 9000 Series Washing Machine range now have this accolade for 2018. And we want all of our consumers to know about it.

REFRIGERATION

Flavour is all about freshness and storing ingredients – the right humidity and temperature is vital. But how do you want your fridge arranged?

Our solution lets you decide. Everything and anything fits in perfectly for long-lasting flavour, while maintaining energy efficiency, protecting your environment and your budget.

Our Zero Degree compartments make it possible to create different chilling conditions in each part of your refrigerator. Adjust each drawer's temperature at a touch.

ENERGY EFFICIENT

CUSTOMFLEX®

TWINTech®

ADAPTABLE FOR EVERY TASTE

CustomFlex®

Create your own perfectly organised fridge with the CustomFlex® storage system. This unique and practical inner door system allows you to arrange shelves, clips and compartments in all shapes and sizes in hundreds of different layouts, so there's always one that works best for you at any time.

LED Touch Display

Touch controls with new white LED digital display.

High Efficiency LED Lighting

High efficiency LED lighting ensures a good spread of light shines downwards in the fridge. An intelligent fan function prevents warm areas in the upper part of the fridge and creates an even temperature in all fridge levels.

Self-Closing Door

An elegant solution, with no risk of slamming. Automatically closes from an opening angle of 25–30 degrees.

PRECISION CHILLING

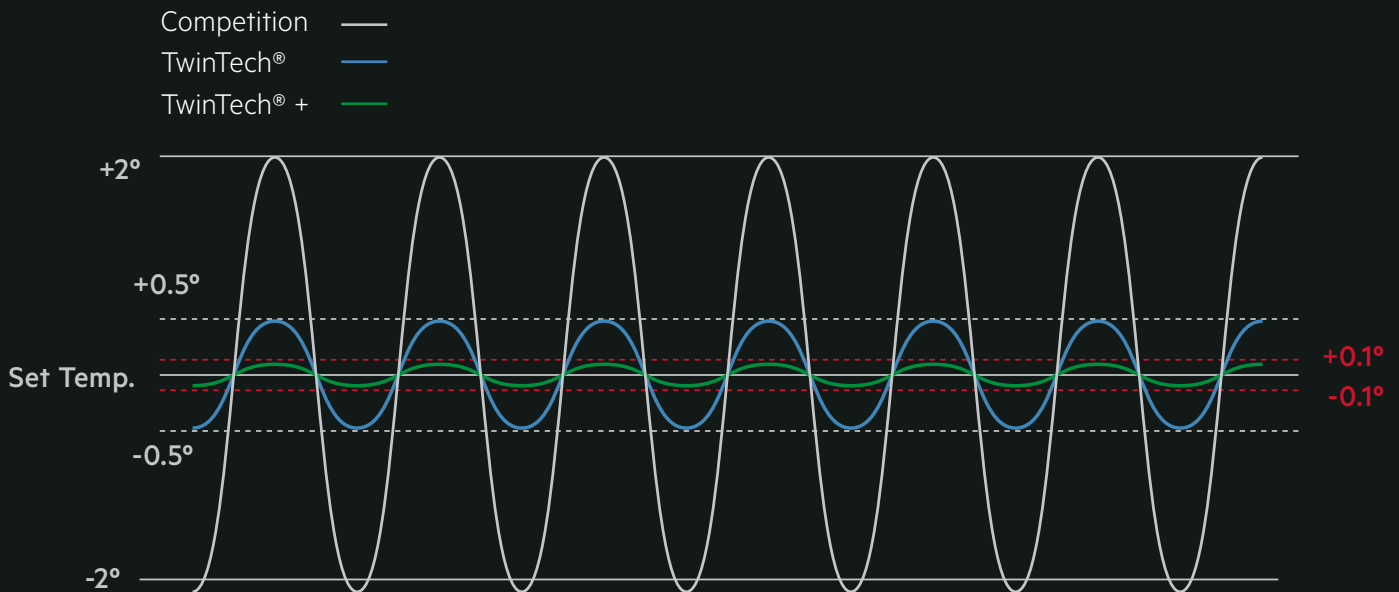

TwinTech®

Unlike conventional fridge freezers that use cold, ultra-dry air from the freezer and recirculate it to cool the fridge, TwinTech® Plus units have two separate cooling systems. This provides the ideal humidity in each compartment, preventing food from drying out in the fridge and delivering frost-free storage in the freezer.

Energy efficient

Did you know that our appliances are leaders in energy performances, with the highest ratings of up to A+++ -20% energy saving?

DynamicAir

DynamicAir technology maintains the airflow inside the fridge, ensuring consistent temperature at every shelf so that your ingredients stay fresh.

LowFrost/NoFrost

Never defrost your freezer again. NoFrost freezers also offer efficient and effective freezing with quicker, more even freezing for better food preservation.

Without Zero Degree

With Zero Degree

Zero Degree

Our Zero Degree compartments make it possible to create different chilling conditions in each part of your refrigerator. Adjust each drawer's temperature at a touch.

A GUIDE TO REFRIGERATION ICONS

KEY FEATURES

TwinTech®

With the pioneering TwinTech® technology for exceptional freshness. One cooling system chills the freezer, keeping it NoFrost. The other cools the fridge, ensuring that the fridge temperature is cold, stable and with the correct level of humidity.

Frostmatic

Ideal for freezing fresh food quickly, preserving the flavour, colour, texture and nutritional value.

Multi Air Flow

The Multi air flow technology provides the precise temperature and humidity your ingredients need to stay fresh throughout your fridge, nutritious and full of flavour for even longer.

CustomFlex®

Keeping all your fresh ingredients to hand is key to creating fresh, delicious dishes. Now the CustomFlex® refrigerator from AEG lets you organise your fridge storage just the way you want.

LCD Touch Display

Sleek touch controls that are intuitive and ready to use.

Ice & Water

Dispenser through the door for water and ice cubes.

NoFrost

Never defrost your freezer again. NoFrost freezers offer efficient and effective freezing with quicker, more even freezing for better food preservation.

LowFrost

Faster, more efficient defrosting. Time is of the essence when defrosting your freezer. This fridge-freezer comes with efficient LowFrost technology, which makes the defrosting faster and less frequent than ever before.

LongFresh

The LongFresh feature is a Zero Degree compartment with adjustable temperature settings and separate humidity. The two Zero Degree compartments in the AEG refrigerator allow you to choose and adjust the humidity and temperature settings in each drawer.

Touch Control

Intuitive touch controls provide instant feedback, are easy to use and look sleek in the kitchen.

Soft Close Doors

Soft Close door hinges that automatically close from an angle of 23–30 degrees – providing an elegant solution to slamming doors.

Temperature Alarm

Highlights an increase in the temperature in the freezer compartment.

Coolmatic

Ideal for chilling fresh food quickly and regaining a stable temperature within the fridge once the door has been opened, maintaining food freshness.

DynamicAir

DynamicAir technology maintains the airflow inside the fridge, ensuring consistent temperature at every shelf so that your ingredients stay fresh.

Simple Touch Controls

Our simple to use electronic controls, with Frostmatic function, ensures that you can set the fridge freezer to your desired temperature.

LED Lighting

Premium and modern lighting system in the fridge thanks to the bright LED light with rise-on effect.

REFRIGERATION

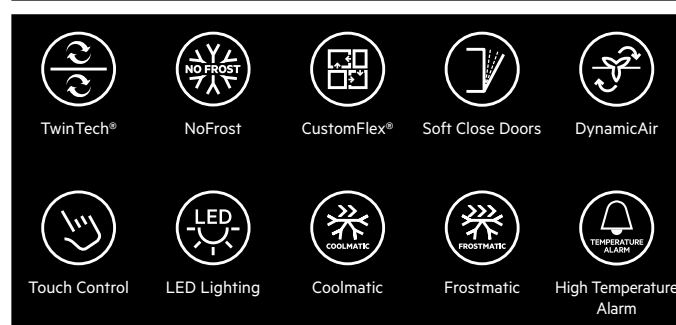

CustomFlex® a unique storage system that allows you to organise your fridge just the way you want. Move and rearrange compartments quickly and easily to maximise storage space.

LongFresh

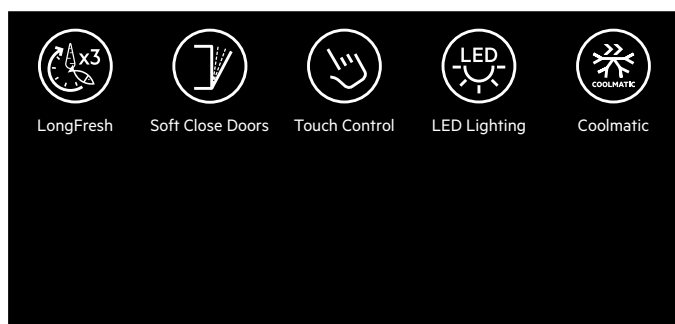

The LongFresh feature is a Zero Degree compartment with adjustable temperature settings and separate humidity. To maintain the deep blushing crimson of a fillet of beef, to ensure the sweet freshness of a lobster tail, or to hold the ultimate flavour of fresh fruit they must be treated and chilled with precision. The two Zero Degree compartments in the AEG refrigerator allow you to choose and adjust the humidity and temperature settings in each drawer. Ensure that each element is at peak condition, by chilling them in unique conditions.

WINE COOLING

Our Wine Cellar Range has dedicated technology for optimal wine storage, to store your wine bottles at the perfect temperature throughout the cooler.

Our wine cellars have a single temperature zone with a range of 5–20, providing the perfect environment for your wine. The UV protected glass door helps to protect your wine from light damage and our internal fan ensures a stable, consistent temperature.

COMMAND
WHEEL OVEN
CONTROL

STEAMPRO

SENSE COOK

RARE, MEDIUM, WELL DONE. AT YOUR COMMAND.

Command Wheel

An innovative Command Wheel removes the need for a busy dashboard and makes the cooking experience simple and streamlined for perfection on a plate, every time.

The latest furniture trends are becoming more linear and we have designed our products in line with that. We've also included more glass and less stainless steel for a seamless finish.

SenseCook

By precisely measuring the core temperature of your food, the Food Sensor lets you know when your rare, medium or well done meat is ready. As well as cooking fish, casseroles and vegetables just the way you like them.

SurroundCook®

Expect even, every time with SurroundCook®. Every part of your dish receives the exact consistent heat that it needs.

Pyrolytic Self Cleaning

A total self-cleaning function, that heats up to 500°C and turns food residue to ash.

STEAM. YOUR NEW STANDARD FOR FLAVOUR.

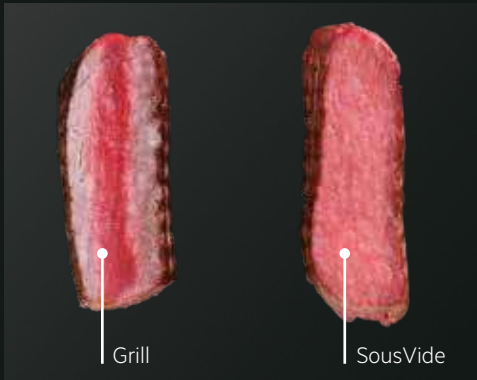

For maximum flavour, add steam.

By adding steam to traditional heat, our range of ovens ensures your dishes are cooked to your exact preference.

Why steam?

- **Prevents flavour exchange**
Stops flavour exchange between different dishes.
- **Food stays moist**
Prevents food from drying out.
- **Preservation**
Preserves nutrients, vitamins and minerals.
- **Evenly cooked**
Cooks food more evenly from surface to core.
- **More efficient**
Delivers heat more efficiently to the food than dry, hot air, so the temperature can be lower.

SteamPro

SteamPro, with SousVide means you can create tastier and healthier dishes. Cook with absolute purity, sealing in all the aromas, taste and nutrients under vacuum, then applying gentle steam heat to cook delicious dishes.

SteamBoost

Turn flavour up to full, whether you are baking, roasting or steaming with SteamBoost. The right amount of steam locks in the natural moisture to deliver juicy and succulent dishes.

SteamCrisp

SteamCrisp, by combining steam and traditional heat, food is cooked gently from the outside to the centre, enhancing food taste and achieving better results. Perfect for all your favourite roasting and baking recipes.

A GUIDE TO COOKING ICONS

KEY FEATURES

SteamPro

An multifunctional oven that also provides you with the SousVide function, a powerful tool that has been used by professional chefs for many years.

SteamBoost

The introduction of steam makes all the difference. Locking in the natural moisture to deliver a whole range of juicy and succulent dishes including meat, fish, casseroles and vegetables – even desserts.

SteamCrisp

By combining steam and traditional heat, food is cooked gently from the outside to the centre, enhancing food taste and achieving better results.

SteamBake™

Adds a bit of steam for the right colour and crust, improving all of your baking results.

SurroundCook®

Hot air fan that circulates the air more effectively than an conventional oven so that your food gets evenly cooked anywhere in the oven.

SenseCook

Food sensor that adapts to what you are cooking and helps you get the results your are aiming for. Just tell the oven how you want your dish cooked and the oven will let you know once your food has reached the right temperature.

Multifunction

Multifunction ovens have all of the familiar cooking functions, including our extra large hot air fan.

Dual Multifunction

Both oven cavities are multifunctional, meaning that they have all of the traditional cooking functions including True Fan.

Command Wheel

The Command Wheel gives you an intuitive way to operate all the cooking settings. It swiftly responds to your actions so that you always have control of every step of the cooking process.

ProSight Controls

Full-touch electronic control panel – simple to operate and beautifully designed.

Retractable Controls

High quality finish stainless steel retractable knobs.

Pyrolytic

A total self-cleaning oven that heats up to 500°C and turns food residue to ash.

CataFan

The Fan Cover with catalytic surface activated at high temperature supports you with removing all stains and grime on hardly accessible areas.

Soft Motion

Ensures a smooth and soundless door closing delivering a premium feeling time after time.

Catalytic Liners

The catalytic lining absorbs the grease from cooking and is activated by regular heating to 220°C. The grease residue is oxidised leaving the catalytic surface clean.

Enamel Liners

Ultra smooth enamel interior that significantly facilitates easy cleaning.

XXL

All of our single ovens have an extra large capacity, allowing you to cook on all 5 levels simultaneously.

Telescopic Runners

Allows you to pull the shelves smoothly out of the oven. This enables you to efficiently and safely access the contents of your oven.

Fully Programmable

Precise timer that switches off the oven at the time you require. Ideal for dishes with a long cooking process.

3 Vacuum Settings

Seal your food from 50% – 99% efficiency. Making sure that no precious marinade will leave the bag or that unnecessary oxygen enters it.

Non-Vented Installation

Self ventilating microwaves, allows for more flexibility when installing.

800w Quartz Grill

Flexible cooking thanks to microwave functions and integrated quartz grill.

FUNCTIONS

SousVide Cooking

SousVide cooking is an old cooking technology which is used by professional chefs to cook vacuum packed food slowly at a low, very accurately controlled temperature.

Full Steam

The SteamBoost oven with Full Steam function makes more of the flavours within your food. Combining all of traditional oven functions with the added benefit of steam.

Humidity High

The function is suitable for cooking delicate dishes like custards, flans, terrines and fish.

Humidity Medium

The function is suitable for cooking stewed and braised meat as well as bread and sweet yeast dough. Due to the combination of steam and heat the meat gets a juicy and tender texture and yeast dough bakes get a crispy and shiny surface.

Humidity Low

The function is suitable for meat, poultry, oven dishes and casseroles. Thanks to the combination of steam and heat, meat gets a tender and juicy texture along with a crusty surface.

True Fan Cooking

Our true fan cooking system gently circulates hot air through the oven cavity. As the oven heats up faster, lower temperatures and shorter cooking times are used to achieve those delicious results.

Conventional Cooking

Top and bottom elements heat the oven providing traditional cooking on one shelf position, which is ideal for baking breads or fruitcakes.

Bottom Heat

Oven is heated by the bottom element only. Food is gently reheated, ideal for pies and pastries as it keeps the pastry crisp.

Turbo Grilling

Heat from the top element is circulated by the fan, sealing and crisping the food.

Grilling

Fully controllable powerful grill, ideal for family sized portions of food.

Steam Assisted Fan Cooking

An improved version of the traditional True Fan cooking, combining steam with an extra large hot air fan.

Pizza Setting

Designed to ensure pastry bases, quiches and pizzas are cooked to your taste.

Moist Fan Baking

Retains moisture within the ovens, thus achieving light fluffy results whilst using the oven in an energy efficient way.

Slow Cooking

Two slow cook options, dependent on the quantity of food being cooked. Low temperature combined with patience will guarantee a good result.

Defrost

Defrost your frozen food gently in half the usual time. Hot air is quickly circulated inside the oven cavity.

Au Gratin

For dishes such as lasagne or potato gratin. Also to gratinate and brown.

Bread Baking

Optimum temperature and environment for baking yeast mixtures. Using radiant heat and steam to bake a variety of loaves to your taste.

Dough Proving

Creates the perfect environment to assist bread baking by proving your yeast mixture correctly.

Eco Roasting

Economical setting for roasting large joints or poultry. Simply select the appropriate cooking time depending on the weight of the food, and the oven automatically switches off once the cooking is complete.

Pyrolysis

A total self-cleaning function that heats up to 500°C and turns food residue to ash.

Quarter Steam & Heat

25% steam and 75% heat locks in moisture and browns the outside for irresistible flavours.

Microwave & Grill

Combines traditional microwave and grill function.

Defrost by Weight

Take the guesswork away and defrost your food by weighing it during the process.

Auto Favourite

The Auto favourite function has 3 pre-set functions, these are Soften Butter, Melt Chocolate and Mug Cake. You can overwrite these with your favourite recipes.

Child Lock

Setting the child lock function will prevent your little ones to switch on the oven.

SINGLE OVENS

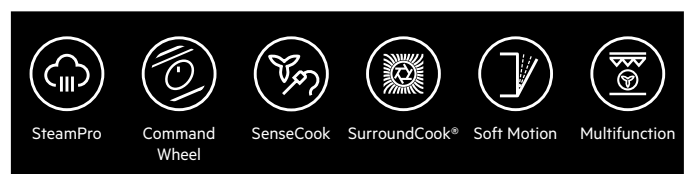

SteamPro, with SousVide allows you to create tastier and healthier dishes. Cook with absolute purity, sealing in all the aromas, taste and nutrients under vacuum, then applying gentle steam heat to cook delicious dishes.

AEG

COMPACT RANGE

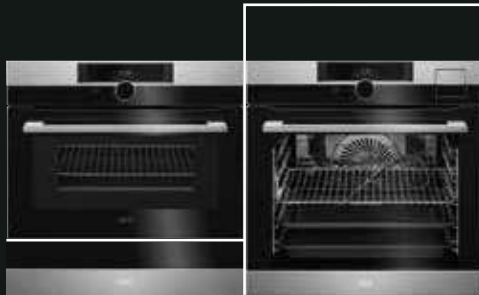

With our widest range of high performance appliances, you can mix and match everything you want – the way you want – and it all aligns beautifully with a single, stylish design.

The Compact range also fits perfectly with our full size appliances.

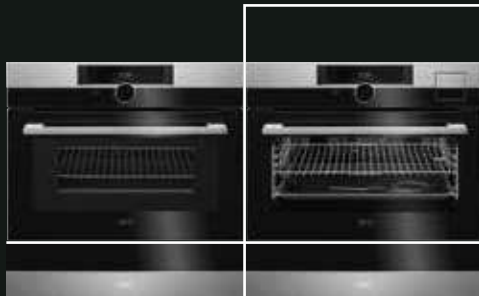

Square Alignment Compacts

Create your ideal kitchen in a combination to suit your needs. By grouping your compact appliances in a cluster, a column or a sleek horizontal run you create your own, individual look.

Horizontal Alignment Oven and Compacts

Compact Appliance, Warming Draw or Vac sealer and an AEG Single Oven.

Horizontal Alignment Compacts

Two compact appliances with two warming draws or vacuum sealers.

Vertical Alignment Oven and Compact

Compact above an AEG single oven.

COMPACTS

However you like to create in the kitchen, we have a Compact appliance to suit your preferences.

Whether you want to roast, bake, grill, microwave or cook with steam, our high performance ovens and vacuum sealer drawers ensure you can serve great tasting dishes every time.

The combination of drawers with our Compact range match those of our full-size ovens, so you don't need to compromise.

HOBS

At AEG we believe that a hob should look as good as it performs. Which is why all our induction hobs are designed not just to bring out the best in your cooking, but also to give you all the flexibility you need while cooking and to look fantastic in your kitchen.

IN THIS SECTION

Induction	80–89
ComboHobs	90
Ceramic	91
Gas Hobs	92–101
Mixed Fuel Hobs	102
CrystalLine	103–105

TFT Touch control

SenseFry®

MaxiSense®

Slim Installation

TAKE THE GUESS WORK OUT OF FRYING

SenseFry®

SenseFry® delivers accurate and consistent frying results every time.

Preset frying levels automatically sense, control and regulate the cooking temperature to deliver great taste and texture every time.

Simply select the food type, frying level, and the SenseFry® will take care of the rest.

Pure Black Design

Aligns perfectly with every kitchen style to match the clean design of your kitchen. This hob has a unique, pure black surface – with absolutely no markings apart from a subtle on/off button.

Hob²Hood

The AEG Hob²Hood adapts to your cooking to keep your kitchen free of steam and vapours without you even having to touch it.

Slim Installation

The slim, space-saving design embeds into a work surface of any depth, even with a drawer below.

PLACE IT WHEREVER YOU WANT

The ComboHob combines an induction hob and an integrated hood into one single product. So you can place the hob wherever you want without having to install a hood above it, giving you many creative options for individual kitchen design.

Easy Installation

The unique 2in1 design of the ComboHob makes it possible to integrate it anywhere in the kitchen.

Hob²Hood

Built directly in to the AEG ComboHob, Hob²Hood adapts to your cooking to keep your kitchen free of steam and vapours without you even having to touch it.

Easy Cleaning and Maintenance

The beautiful glass surface is durable and easy to maintain, only needing a quick wipe to clean up.

A GUIDE TO HOB ICONS

KEY FEATURES

Touch Control

Efficient touch controls enable you to set the hob's heat level precisely, while its flat surface is easy to clean.

TFT Touch Display

A single, full colour touchscreen provides complete control over the hob. Monitor live feedback for each zone and adjust the settings accordingly.

DirekTouch Slider

This hob's direct-access heat controls enable you to switch directly to exactly the right temperature with one touch. Simply touch the correct level on the slide control.

SenseFry®

Use the intelligent touchscreen on the SenseFry® induction hob to select the food and desired result. Rare, medium or well-done.

Rotary DirekTouch

Touch controls in the familiar design of rotary of knobs. The DirekTouch function allows you to switch to the exact right temperature with one touch.

Rotary

Classic rotary control knobs.

MaxiSense®

The MaxiSense® induction hob has self-sizing cooking zones. Each zone detects the size and shape of the pan you're using, however large or small.

FlexiBridge

A multi-purpose zone that allows you to customize your own cooking area, combining up to 4 segments with a consistent and even heat distribution.

Double Bridge

Two zones can be paired at the touch of a button, providing a single bridge for cooking. By automatically aligning to share both temperature and time settings, it's optimised for using large pots and pans at once.

PowerSlide

From boiling to simmering to keeping warm: when you need repeated quick heat changes to create a dish. Simply slide your pan from heat to heat.

Stop & Go

A function that reduces all zones in operation to a keep warm setting.

TripleZone

Triple extendable zone, optimized for cooking with a wide range of pot sizes.

Hob²Hood

Hob²Hood automatically turns on your cooker hood and lights when you start using the hob. The cooker hood will adjust according to the cooking levels on the induction zones.

Pure Black Design

Unique hob with pure black design. The hob controls and cooking zones are visible only when needed. When not in use, the surface is clean black, nothing to disturb the kitchen design.

Cast Iron Supports

Cast iron pan supports provide a robust and durable cooking support with professional design. Safe, long lasting and easy to clean.

Extendable Zone

Extendable zone, optimised for cooking with a wide range of pot sizes.

Slim Installation

AEG induction hobs have the slimmest platform on the market, allowing a worktop as thin as 28mm with an oven beneath the hob.

Easy Installation

Our Optifix™ spring system is self-installing and self-centering. Simply place the hob into your cut out.

KEY FEATURES

Easy Clean

Because the surface around the pans stays cool as you cook, you can get rid of spills as you go along. Nothing gets burnt on and there's nowhere for dirt to hide.

Minute Minder

Perfect cooking results guaranteed by setting the cooking time length and has an acoustic signal to let you know it has finished.

Auto Ignition

Total control of the ignition through a single-handed operation of turning the knob to automatically light the hob.

Flush Burner

Flush burners are easy to remove and dishwasher safe. Ensuring that cleaning the hob is as simple as possible.

Vertical Flame

Vertical Flame ensures the heat is evenly distributed on the bottom of the pan, making it 20% more efficient than standard burners.

Single Bridge

Two zones can be paired at the touch of a button, providing a single bridge for cooking. By automatically aligning to share both temperature and time settings, it's optimised for using large pots and pans at once.

FUNCTIONS

Cook Assist

An innovative assisted cooking function, select the dish and the desired result – rare, medium, well-done – to ensure consistent frying.

Count Up Timer

Set a reminder or use the count-up timer to keep in control of your cooking.

Minute Minder

Each induction cooking zone has an independent 99 minute timer. The timer will switch the zone off after the time has elapsed.

Eco Timer

Energy saving timer that switches off the zone and uses residual heat to complete the last few minutes of cooking.

Zone Booster

Power booster function to reach high temperatures extra fast.

AutoMax

The hob will apply full output of heat at the beginning, then it will automatically drop to the required setting.

Pot Detection

The user interface is not visible until a pot is placed on the hob.

Auto Off

Safety mechanism that turn off the hob after a given time, depending on the selected heat setting.

Melting

A gentle melting function, perfect for chocolate or butter.

Burners

Number of burners.

Wok Burner

Extra large burner designed for a large wok.

HOBS

The SenseFry® Induction Hob delivers accurate and consistent frying results every time.

It uses an integrated intelligent touchscreen, allowing you to select the food and desired level of cooking.

The pre-set frying levels can automatically sense, control and regulate the temperature to deliver great taste and texture.

GAS COOKING WITH ABSOLUTE ASSURANCE

TouchSure Hob

The advanced TouchSure hob from AEG comes with a range of reassuring safety features that provide absolute confidence in – and absolute command over – gas cooking. It's a traditional method harnessed with our responsive technology. Instilling confidence to turn up the heat.

FlameLight

FlameLight LED indicators tell you if a burner is turned on or off. And residual heat indicators show whether pan supports are still hot after use.

Vertical Flame

The unique design of the Flush Vertical flame burners makes it possible to integrate them into the glass hob top, so you have a smooth hob surface that is stylish, as well as very easy to clean.

Hob²Hood

The AEG Hob²Hood adapts to your cooking to keep your kitchen free of steam and vapours without you even having to touch it.

HOODS

Our cooking environments need to be fresh, bright and peaceful, enriching the time that we spend there. We use advanced technology to ensure that the design and build of our cooker hoods give you the optimum combination of high-end design and powerful functionality.

LED LIGHTING

BREEZE FUNCTION

SILENCETECH

HOB²HOOD

A FRESHER KITCHEN, HANDS FREE

Hob²Hood

The AEG Hob²Hood adapts to your cooking to keep your kitchen free of steam and vapours without you even having to touch it.

As you cook, the hood activates automatically, monitoring the fluctuating heat and steam of every simmer and boil, effortlessly maintaining the freshness of your kitchen. Your attention stays, as it should, on preparing, finessing and enjoying your dish.

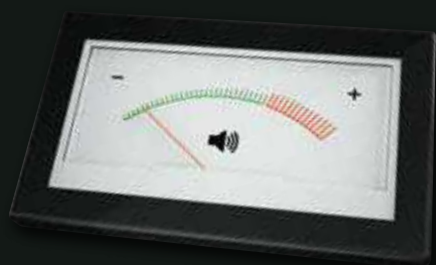

LED Lighting

Provides the possibility to adjust the intensity of the light according to your needs, creating the perfect ambient illumination in your kitchen.

Breeze Function

The breeze function quietly refreshes the air in your kitchen to create a more enjoyable atmosphere to relax or entertain.

SilenceTech

Our more advanced hood technology reduces the noise level down to the lowest number of decibels so that you can cook powerfully and enjoy the experience without loud sounds from the appliance.

A GUIDE TO HOODS ICONS

KEY FEATURES

Hob²Hood

A wireless function that when paired with suitable hobs, it automatically activates and regulates the cooker hood according to your cooking activities. Providing a fresher kitchen environment so you can focus on achieving great taste.

Touch on Glass Controls

Smooth and precise control of all your hood's functions with a simple touch on glass – easy to use and easy to clean.

Push Button Controls

Precise control of the setting levels allowed through the squared push buttons.

Designer Filter Cover

High filter efficiency combined with perfect stainless steel designed filter covers – the perfect look and easy to clean in the dishwasher.

LED Strip Lighting

LED strip lighting enables an excellent visibility on the entire cooking process and provide ambient lighting in the kitchen.

Dimmable LED Lighting

Crisp bright illumination, or a gentle glow? Dimmer-controlled LED lighting means you can adjust the effect at the touch of a fingertip.

Black Glass

Beautiful design with unique black glass.

Stainless Steel

The anti fingerprint stainless steel finishing protects the surface of your cooker hood from fingerprints.

Stainless Steel with Glass

Perfect combination of stainless steel and glass to create a unique and professional style in your kitchen environment.

FUNCTIONS

Fan Speeds

Number of fan speeds, allowing you to adjust the power, noise and energy consumption.

SilenceTech

Reduces the noise level down to our lowest number of decibels so that you can cook powerfully and enjoy all your favourite food without annoying sounds from the appliance.

Breeze Function

Refreshes the air in your kitchen after cooking at a very low noise level so that you have a more enjoyable and quiet atmosphere to relax or entertain.

Remote Control Included

Easy and fast control of all the hood's functions thanks to the remote control.

Extendable to 80cm

An innovative addition that allows you to expand your hood from 60 cm to 80 cm.

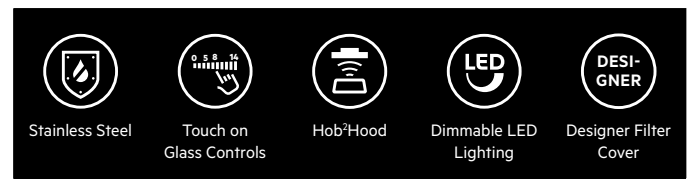

HOODS

Aligned across our range, your choice of hood will integrate seamlessly with any of our hob models. Our top line models feature our signature flow line for design harmony, together with a sophisticated white LED display on layered glass and metal.

DISHWASHERS

It's not just about the food – the style of cutlery and plates affect our perceptions of what we eat. A dark chocolate dish looks best when served on an angular plate, while a round plate is better for cheesecake. So you need a range of tableware that complements your food presentation and can be cared for in the most efficient way.

IN THIS SECTION

Fully Integrated Dishwashers	125–128
Semi-Integrated Dishwashers	129
Slimline Built-In Dishwashers	129

COMFORTLIFT®

AIRDRY TECHNOLOGY

LIFTS GENTLE TO A NEW LEVEL

ComfortLift®

The ComfortLift® dishwasher is the first of its kind to gently slide the lower basket up for easy, ergonomic loading and unloading. That means less bending down, to make your life more comfortable.

AirDry Technology

Uses natural airflow to finish the drying. By automatically opening the door by 10cm in the last part of the cycle, you will get maximum drying performance while effectively reducing your energy costs – leaving your dishes spotless.

XXL Interiors

The XXL interior of this dishwasher gives you an additional 10 litres of space, more capacity for those irregular shaped items.

Removable Cutlery Tray

Take your tray with you to the kitchen cutlery drawer for easy unloading. Best in class solutions for easy loading and unloading.

SUPERIOR CLEANING AND FULL COVERAGE

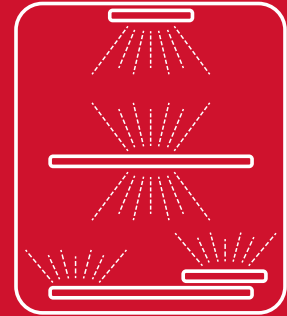

ProClean

The multiple double rotation of the Satellite Spray Arm sprays from continuously varying angles, leaving your dishes and cookware gleaming.

5 Spray levels

Multi level spray reaches every item anywhere, giving you our most efficient spray coverage.

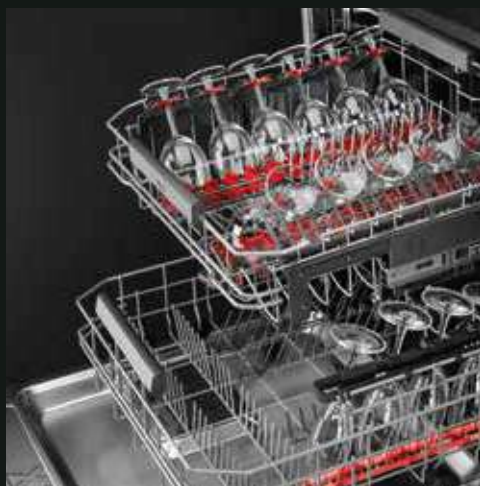

Standard spray arm coverage

versus

Satellite spray arm coverage

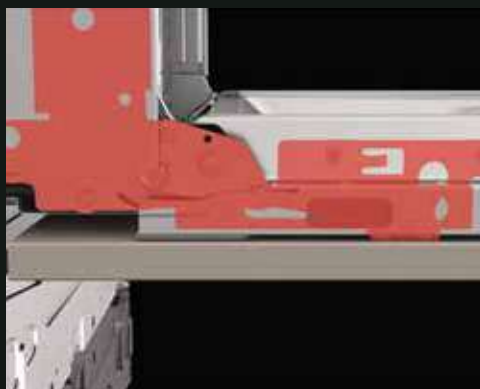

Glass Care Programme

Special 45°C glass programme ensures perfect washing results while protecting your most precious glass, crystal and china.

Delay Time

Allows you to select when the machine should start.

Sliding Hinges

Allows you to install the dishwasher with any door length without the need to cut the kitchen plinth. This is also suitable for plinthless kitchens. The best solution on the market – patented by AEG.

A GUIDE TO DISHWASHER ICONS

KEY FEATURES

ComfortLift®

The ComfortLift® basket rises on special hinges, ensuring less bending when loading and unloading dishes.

GlassCare Package

Delicate wine glasses are protected with our soft spikes, soft grips and dedicated GlassCare 45°C programme.

Removable Cutlery Drawer

Take your tray with you to the kitchen cutlery drawer for easy unloading. Best in class solutions for easy loading and unloading.

TimeBeam

Keeps you informed on the progress of the programme by projecting the remaining time on the floor.

InteriorLight

Locate items at a glance thanks to the bright internal light.

ProClean

Our ProClean models have a larger usable internal space, combined with five spray levels, satellite and ceiling spray arm plus GlassCare package.

XXL Interior

The XXL interior of this dishwasher gives you an additional 10 litres of space, more capacity for those irregular shaped items and plates up to 33cm in diameter.

TimeSaver Function

50% less time thanks to increased power speed and water pressure.

24 Hour Time Delay

Run your dishwasher when it suits you, thanks to the up to 24 hour delay start function.

Light Beam

This dishwasher is so quiet it projects a tiny red or green beam on to the floor to tell you when it's running and when it's finished.

AirDry

Uses natural airflow to finish the drying. By automatically opening the door by 10cm in the last part of the cycle, you will get maximum drying performance leaving your dishes spotless.

Sliding Hinge

With this dishwasher you can choose to install it normally above a plinth, or as it has a sliding hinge, it is perfect for plinthless kitchens or for installation above a small cupboard.

Double Fulcrum Hinge

For ease of installation, this hinge on this model rises over the plinth level when the door is opened, so no need to cut the plinth.

Deluxe Interior

Selected models have a higher level of internal finish, including stainless steel drawer handles and knife supports in the cutlery drawer.

FlexiSpray

The combination of four spray levels and lower satellite spray arm ensures superior cleaning levels.

DISHWASHERS

The AEG range of dishwashers is designed to meet the frustrations and needs of dishwasher users. The models are designed to give a better quality wash and superb drying results, combined with a larger capacity and useful features such as our glasscare package which looks after your best wine glasses.

LAUNDRY

Imagine putting your precious sweater in the washer. Imagine trusting a dryer with a silk dress.

We've not only imagined it, we've done it. Washed the black dress time after time. Dried a soft wool sweater over and over. Every time they emerge without shrinking or fading, still vibrant and soft. Because AEG has redefined what a washer and dryer are. Protectors of fabric. Defenders of colour. Guardians of fibres.

Unprecedented care for the life of your clothes. Imagine that.

IN THIS SECTION

Washing Machines	134–141
Tumble Dryers	142–145
Washer Dryers	146–149

DESIGNED WITH CARE

Our unique, innovative design is more than a pretty face. It also conveys superior quality and technical advancement. For our new range, we increased the size of the door and porthole for ease of use and a modern look, and reinvented the control panel.

Premium Design

Inspired by the electric turbines manufactured at the AEG Turbine Factory in Berlin.

The positioning of the door handle at 2 o'clock makes it easy to open.

Easy to Use Control Panel

A simplified programme choice with only your 10 favourite and most often used programmes.

Complementary Design

AEG Tumble dryers are designed to complement our washing machines and are available with stacking kits.

OUR WASHING MACHINE RANGE

Our washing machine range is structured into 3 series levels. As you go up the series levels, our washing machines step up in the level of fabric care, and include all the technologies from the series below.

	7000 SERIES	8000 SERIES	9000 SERIES
 SoftWater Technology			<input checked="" type="checkbox"/>
 ÖKOMix Technology		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
 ProSteam® Technology	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
 ProSense® Technology	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

NO FADING, WASH AFTER WASH*

SoftWater Technology

Thanks to its SoftWater technology, the 9000 series AEG washing machine is kinder to your clothes, keeping fabrics feeling soft and in-shape whilst also preserving colours and preventing fading.

All mains water contains minerals that can be harsh on fabrics. These AEG washing machines are the first in the world with SoftWater Technology to remove these impurities.

Available on 9000 series washing machines.

*Even after 50 washes, colours will keep their intensity and black won't fade to grey. Test for colourfastness performed on black polyester after 50 washing cycles at 30°C.

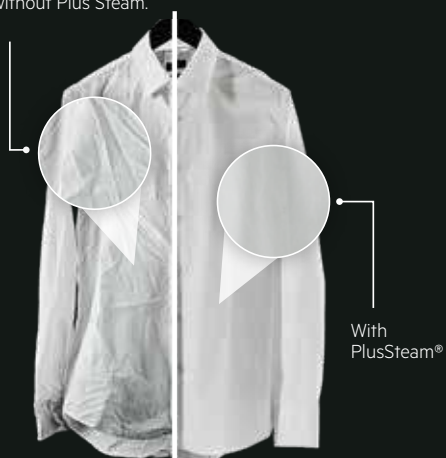

The blue colour visualises the distribution of fabric softener on the garment.

ÖKOMix Technology

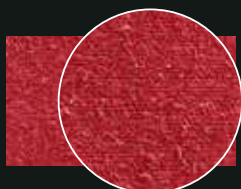

Unique pre-mixing of detergent, softener and water to reach every fibre.

Standard cottons programme without Plus Steam.

ProSteam® Technology

Using the PlusSteam® option to end a washing cycle with steam, reduces creasing by up to 30%. You can also refresh clothes with a separate steam programme to remove unwanted odours from garments.

Competitor
Fibres show more wear and tear due to unnecessary over-washing.

6000 Series with ProSense®
An optimised wash cycle results in less over-washing and less wear and tear.

ProSense® Technology

Adjusts time, water and energy consumption to the size of the load, even if it is just a single shirt or your entire weekly wash. This is thanks to specific sensors that will intelligently control the cycle settings and take care that your clothes are only washed for the exact amount of time needed.

WASHING MACHINES

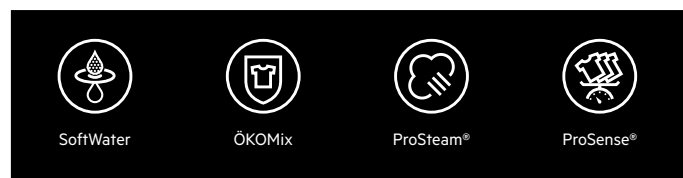

While conventional washing machines need high temperatures to activate detergents and clean properly, the SoftWater Technology in AEG 9000 Series washing machines purifies and softens water before it enters the drum.

9000 SERIES

9000 Series Washing Machine

Time save	Rinse
Delay start	Extra rinse
Temperature selection	Economy
Spin selection	Child lock

Colour: Stainless steel fascia panel

Appliance Dimensions (HxWxD) in mm: 850 x 600 x 660

Softer water, kinder to clothes

Because our advanced SoftWater Technology purifies and softens water before it enters the drum, detergents can work much more effectively at low temperatures, delivering 60°C cleaning performance at only 30°C. So colours will keep their intensity wash after wash, and black won't fade to grey.

Tips

Fully integrated machine to fit seamlessly into your kitchen.

AWARD WINNING QUALITY

Woolmark

The Woolmark Apparel Care programme helps consumers identify quality laundry appliances that are approved by The Woolmark Company for use on woollen fabrics.

Woolmark Blue

It is the Woolmark Apparel Care certification of wool cycles that identifies a machine as safe in which to wash handwash only woollen fabrics.

Woolmark Green

The gentleness required is exactly the same as for Woolmark Blue, but the programme uses less energy and water, hence the symbolic green labelling.

Ariel and Lenor certified

Our washing machine range is certified by Ariel and Lenor for their efficient use of liquid detergent and fabric softener. Any machine with ÖKOMix technology has received the premium certification by Ariel and Lenor. The certification guarantees that 90% of fabrics in a washing load are evenly covered with liquid fabric softener. AEG, Ariel and Lenor have partnered to provide you with their combined unique care expertise for fabrics.

Quiet Mark

Quiet Mark is the international approval award programme that encourages companies worldwide to prioritise noise reduction within the design of everyday machines and appliances, and find solutions to noise problems.

“AEG gives consumers the confidence to put woollen garments into a machine, which has been lacking for the last 30–40 years.”

PETER ACKROYD
The Woolmark Company

OUR TUMBLE DRYER RANGE

Our tumble dryer range is structured into 2 series levels. As you go up the series levels, our tumble dryers step up the level of fabric care, and include all the technologies from the series below.

	7000 SERIES	8000 SERIES
 AbsoluteCare® System		<input checked="" type="checkbox"/>
 SensiDry® Technology	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
 ProSense® Technology	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

TUMBLE DRYERS

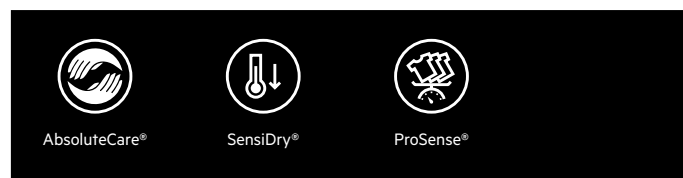

Never dared to tumble dry wool, silk or outdoor garments before? Now you can tumble dry everything you wash with the AbsoluteCare® System. Have tailored programming to control precisely the movement and temperature of the drying drum. Holding delicate fibres aloft so silks keep their shape and wrinkles are reduced.

8000 SERIES

8000 Series Tumble Dryer
T8DEC846R

TECHNOLOGY

AbsoluteCare®

DualSense® Technology tailors the temperature and motion of the drum to different fabrics. Everything from textured jackets to soft jumpers can be carefully washed, dried and cared for in one go.

SensiDry®

SensiDry® Technology reduces the drying temperature by almost half (compared to a condenser washer dryer) – reducing damage and wear, and maintaining the texture of your fabrics.

ProSense®

Automatically adjusts the time, water and energy consumption to suit any load size.

Refresh programme

Add the refresh option to your cottons and synthetics dry cycle to reduce creases and folds.

OUR WASHER DRYER RANGE

We've taken the best technologies of our washing machines and tumble dryers and incorporated them into one solution so you can wash and dry in one go.

WASHER DRYERS

With the same performance and technologies as two separate machines, you can wash and dry in one go.

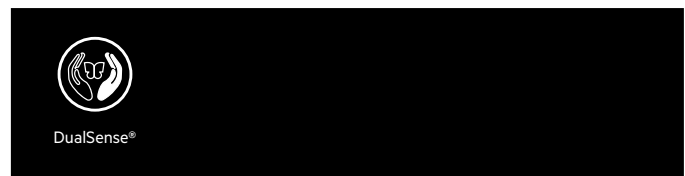

We offer complete care for your woollens throughout the wash and dry cycle.

INSTALLATION DIAGRAMS

AEG has always been committed to supporting its retail partners and professional installers by providing them with best in class installation solutions. AEG kitchens are simple to install and use only one Torx T20 screwdriver to install all of our appliances, allowing installers to save time. In 2018, AEG launched a first of its kind Installer App, giving professional installers access to installation information at their fingertips.

WARRANTIES

All appliances featured in the AEG Premier Partner Core Range as featured in this brochure are covered by an extended 5 year parts and labour warranty. We'll even register them on your behalf so you don't have to worry about a thing. During your warranty period you are protected against the cost of parts, call-out and labour charges. All work is carried out by our national network of approved AEG engineers.

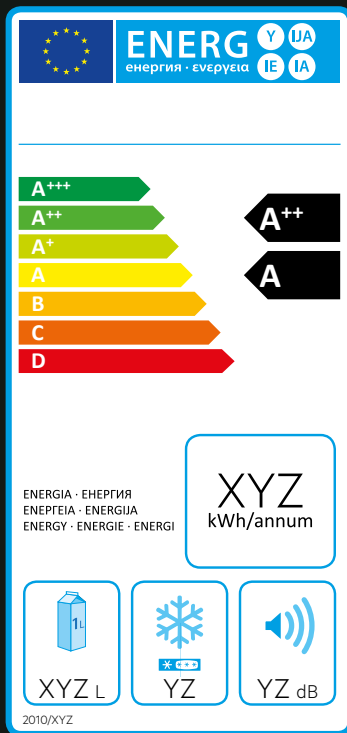

To find out more visit www.aeg.co.uk
or call **0800 479 0775**

ENERGY INFORMATION/ EU ENERGY EFFICIENCY INFORMATION

This scheme, which covers refrigerators, freezers, washing machines, tumble dryers, dishwashers and electric ovens is designed to offer consumers a standardised method of choosing the most energy efficient appliances.

For refrigerators and freezers, as well as stating the energy efficiency class (A+++ - most efficient, 'D' - least efficient) the label also gives the annual electricity consumption (i.e. running cost) freezing capacity, noise level and the usable storage capacity.

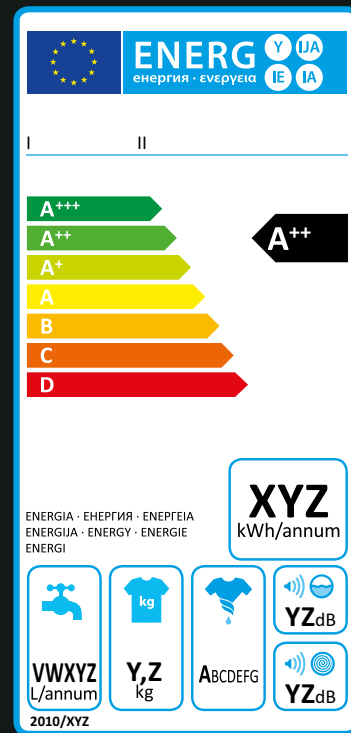

Example of refrigeration energy label.

For dishwashers, as well as stating the energy efficiency class (A+++ - most efficient, 'D' - least efficient) the label also states the annual water consumption (lts), drying efficiency, place settings and noise level.

Example of dishwasher energy label.

For washing machines, as well as stating the energy efficiency class (A+++ - most efficient, 'D' - least efficient) the label also states the annual water consumption (lts), load size (kg), spin speed efficiency and the washing & spinning noise levels.

Example of washing machine energy label.

For electric ovens, as well as stating the energy efficiency ('A' - most efficient, 'G' - least efficient), the label also states the energy consumption (in kWh) and the usable volume of the oven. If the oven is a double oven it will carry this information for both ovens.

AFTER SALES SUPPORT/ CUSTOMER CARE

Customer Service

Should you need to contact us about your product we have a dedicated AEG customer service team to help. Our team is based in the AEG UK head office and can be contacted by phone on 03445 611 611 or via www.aeg.co.uk

Local service, nationwide

Our national network of Service Force agents provide product maintenance, genuine parts and repairs for all AEG Major Appliances. Genuine AEG parts ensure you continue to experience the excellent performance you expect from your AEG product.

If you require a visit from one of our agents for your Major Appliance please call our Service Force team on 03445 616 616.
