SIMPLY IMAGINE

## Craft & creativity

---

Starting out as metalworkers in the Italian region of Piemonte, it was brothers Antonio and Giuseppe Sottini who established our family tradition of excellence in design and manufacturing innovation. They applied their skills to everything from Italian coffee machines to automotive components, and of course, bathrooms fittings. Sottini became renowned for quality, craftsmanship and an obsessive attention to detail.

This same passion for design and manufacturing excellence forms the foundation of all Sottini products today.

## Made by Sottini

---

Our reputation for design excellence has been built on collaboration with some of the most successful product designers from around the world. Each has a unique take on every aspect of design and engineering, and that is why we can offer such a rich depth of styles.

Our unifying principle is to align form with precise, efficient function. Sottini works hard to develop products that deliver exceptional performance and an improved experience. We embrace innovation, like award-winning AquaBlade® flush technology, which provides a cleaner, quieter alternative to standard WCs.

Our confidence in the quality of Sottini design and manufacture is the reason we offer a lifetime guarantee on all of our ceramics.

# Fusaro

Basins | WCs | Furniture

Clarity of purpose and pure geometry are what sets the Fusaro collection apart. Our commitment and single-minded approach to bathroom architecture mean Fusaro is the versatile choice for realising your interior vision.

In Fusaro, hard lines have been refined with softer angles and fine edges. The result is a collection of elegant, balanced ceramics that combine the precise with the sensory.

A wide choice of basin options include vanity and wall hung models with matching Fusaro furniture. Vessel basins can be combined with Ippari and Turano furniture. WCs feature AquaBlade® flush technology for superior hygiene.

# Turano

Basins | Baths | WCs | Furniture

Turano has a soft square outer and an organic flowing inner which gives it both beauty and function. The soft contours of the ceramics are echoed in the furniture with its curved handles and four subtle finishes. The result is a harmonious collection that creates a feeling of spaciousness.

Extra features across the range include hidden overflows, integrated waste covers and a range of design-matched furniture and handles. This diverse collection includes a variety of basin options, including pedestal, wall mounted, vessel and vanity basins, in a choice of sizes. WCs have slim, easy-take-off seats and use AquaBlade® technology for superior hygiene.

Turano furniture is also compatible with Fusaro vessels and vanity basins, offering even more possibilities.

## Rienza and Caffaro

Basins | Furniture | WCs

Rienza and Caffaro collections share the same design vocabulary; their generous, squarely chiselled proportions make them great partners when specified together.

There is a wide range of Rienza basins including wall hung, pedestal, vanity, guest and vessel options. All feature a soft square design that has a minimal clarity perfectly suited to modern living. Sharply stylish furniture with an integrated handle adds yet another layer of versatility. Offered in gloss white, matt anthracite, dark walnut or light pine finishes. All units feature silent soft close drawers and doors.

Caffaro WCs, with wafer-thin seats and a distinctive almost-square bowl, are styled with a stunningly simplicity. The collection also includes a comfort height close coupled WC which is raised higher for improved accessibility.

# Simeto

## Basins | Furniture

Simeto's two unique vanity basin designs, Due and Uno, combine seamlessly with a range of elegantly framed furniture.

The ethos behind Simeto Due is simplicity. The basin features a smooth ceramic surface with a unique asymmetrical inner bowl.

Both Due and Uno basins marry neatly with the precisely crafted Simeto furniture, creating refined and highly functional units. The furniture is available in gloss dark grey, gloss safari, gloss white and inox, a brushed metal finish.

Simeto Uno represents a thorough redesign of the washbasin surface. At the core of the concept is the separation of wet and dry areas. The surface is arranged into two zones: the front section is deemed splashable while the rear is kept drier within retaining rims. A square ceramic waste cover integrates into the geometric design adding the finishing touch to this stylishly practical vanity basin.

# Mavone

Basins | WCs | Furniture

Mavone is the essence of simplicity and purity. The design is geometric in principle, but its soft, rounded shapes are undoubtedly reminiscent of organic forms. The basins are seemingly sculpted into flat, linear surfaces, creating an inviting, generous depth.

The WC range includes AquaBlade® flush technology and soft close seats for an unparalleled experience.

Mavone furniture inspires an atmosphere of style and elegance. The range includes wall mounted and floor standing units in various sizes as well as a WC unit and semi countertop unit.

## Chiani

Basins | WCs | Furniture

Space to live, relax and enjoy personal time is something we all aspire to. Bathrooms may have evolved to suit today's lifestyles, but many have inherent limitations that prevent the use of standard size products.

Chiani can help realise a design vision without the need to compromise on style. It is a collection of creative solutions designed for smaller spaces.

In this collection, you will find basin and guest basin solutions with coordinating furniture. There is a range of short projection WCs as well as a clever corner model. All ingeniously and elegantly designed to suit the most stylish small spaces.

# Ippari

## Modular Furniture

Designed to support Sottini vessel basins, Ippari is a modular furniture system for every possible bathroom function and layout. It allows you to design your individual space with personally tailored configurations.

The extensive range comprises consoles, basin, side and base units, columns with shelving options, a leg frame and towel rails.

Ippari furniture is made from high-quality materials and is available in a choice of six elegant finishes: soft, neutral greys; harmonising tones of light brown, textural natural wood veneers, a sophisticated dark blue and premium white. Continuing the streamlined look, drawers are handle free, soft close and push-to-open.

The system works perfectly as individual pieces but elements can also be combined to create unique arrangements. Play with different finishes or build your own multi-unit storage – the permutations are endless.

## Basins

---

Sculptural, distinctive basins that bring individuality to the bathroom.

Choose precision lines, minimal elegance or organic forms modelled on the natural world. Each design is a blend of the inspirational and the beautifully functional.

With Amusa, we took a simple, well-loved, everyday object and gave it new purpose and life. Reminiscent of days at the beach, this unique design is unapologetic in its sense of fun.

## Bonamico

Bonamico is an evolution in basin architecture. A ceramic cover, formed in two halves, creates a fine opening through which the water drains. It is an elegant alternative to the traditional waste solution.

Bonamico is available in two shapes, each embracing the same design principle: the smaller basin is circular, while the larger version is a rounded rectangular form. Both formats are available with a ceramic cover as an option.

## Ellero

Graceful refinement meets practical robustness in Ellero basins. The elegantly flared walls appear delicate, but these slender-sided basins are surprisingly sturdy, making them a prudent solution for a busy hotel environment.

The secret lies in the construction, using Diamatec - an exceedingly durable ceramic material which contains finely ground alumina to give the structure an unexpected degree of resilience.

## Gravina

With echoes of Japanese minimalism, Gravina dispenses with the traditional format for draining water. It employs an altogether new approach: the waste lies beneath an elegant ceramic cover – a perfect circle within a gentle square.

Gravina is complemented by a range of distinctive towel rails and washstands, available in a black or white matt finish.

# Ombrone

---

Ombrone is unlike any other washbasin. Standing stones, both naturally formed and hand-hewn, were the seed of inspiration for this organic design. Totem-like and sculptural, Ombrone is as thought-provoking as it is sensual and as aesthetic as it is functional. We can imagine no clearer mark of individualism for a bathroom.

## Stilaro

---

Stilaro was born of the desire to create a highly aesthetic and unconventional product. To do this, we went back to the ceramicist's art and experimented with decreasing thicknesses.

Inspired by forms found in the natural world, the result is an abstract articulation of enveloping, exotic leaves. The fluid, asymmetrical shape has a distinctly calming effect as it echoes nature's way of channelling water.

## Stirone

---

A droplet falling onto water makes a ripple - the purest, natural circular form. Inspired by this phenomenon, Stirone is a fresh, innovative bathroom concept. The minimal depth of the basin is thought provoking and visually pleasing. The result is an original design that stimulates the imagination and gives pleasure.

An ultra-slim profile is the distinctive signature of Tinella. This elegant design almost appears to be floating. The keenly crafted rim and arc-like bowl along with a sense of lightness confirm Tinella's individuality. An optional towel rail completes this clean and functional design.

This classically simple basin is ideal for minimal bathroom environments – both domestic and commercial.

## Baths

---

Graceful and organic or precise and architectural; from iconic freestanding to simple rectangular baths. Designed for comfort and indulgence Sottini offers the perfect bathing experience for any bathroom.

---

Crostolo 170cm freestanding bath / p192  
Turano freestanding bath shower mixer / p224

## Crostolo

---

Crostolo's defining feature is its elegantly fine rim - which appears even more pronounced against the depth and scale of the bath itself. The subtly bowed sides give a sculptural quality as well as enhanced comfort for complete luxury. Available in two sizes to bring the same bathing experience to homes where space is limited.

---

Crostolo 170cm freestanding bath / p192  
Turano freestanding bath shower mixer / p224

## Piomba

---

A stunning iconic centrepiece with timeless appeal. The Piomba mirrors the traditional shape of a Victorian slipper bath but reinterprets it in a modern style. Sweeping curves define this most luxurious of freestanding baths.

---

Piomba 180cm freestanding bath / p194  
Turano freestanding bath shower mixer / p224

## Rotaldo

---

Rotaldo takes the freestanding bath to a new sculptural level - an elegant design with graceful curves that flow with confidence. This double ended bath is available in two sizes.

---

Rotaldo 155cm freestanding bath / p194  
Paglia freestanding bath shower mixer / p219

## Savutto

---

A flat rim and straight, tapered sides give Savutto a clean and modern look. This simple, angular design will complement a variety of bathroom styles.

## Mixers and Showers

---

Brassware is where Sottini's story began and, for us, it is the essential element that delivers the pleasure of water into the bathroom. Our fittings are expertly engineered for precise, efficient function while our design adds finesse and even a splash of fun.

## Ceno

Our latest range of fittings takes the sleek aesthetic to a new plane. Sharp, flat surfaces and strong horizontal lines are counterbalanced with a simple but precise arc at the rear of the pillar. With a wide choice of basin mixer variants, Ceno is as versatile as it is stylish.

**GUARANTEE** Our confidence in the quality and reliability of Sottini products enables us to guarantee many of them for a lifetime. Our guarantee is offered on all products that have been used in the manner for which they were intended, and does not apply to any products that have been misused or abused in any way. Products must be installed and cared for in line with our fixing instructions and local water bye-laws. In the unlikely event the product fails within the guarantee period, we offer a free replacement or replacement part (or nearest equivalent). Liability is limited to individual products and does not cover consequential loss or damage on installation. All ceramic products are guaranteed for a lifetime. Acrylic baths are guaranteed for 25 years from date of purchase. Bath panels, furniture, mixers, taps and showers, WC suite seats and cistern fittings are guaranteed for five years from date of purchase. Parts (including push button flush valves) are guaranteed for five years and will be replaced if found to be faulty. Cistern diaphragms, seals and shower seals are not included. The guarantee is transferable 'it applies to the product not the purchaser' provided guarantee registration details are passed on to the new owner.

For full guarantee details including terms and conditions please visit [www.sottini.co.uk](http://www.sottini.co.uk)
