A waterproof sealant must be used to protect any raw edges on furniture that has been cut to suit a basin or pipe work. Failure to do this will void guarantee.

Due to the photographic and printing process required some images shown within this brochure may not be an exact representation of the finished product. Any products will only match a finished sample provided.

All wood finish products in the Vanity Hall Collection are manufactured from real wood, and will vary in shade and detail from piece to piece. We will always endeavour to match the finish to samples provided, however it is not a manufacturing fault or defect if pieces are not an exact replica to samples.

Painted finishes may have small variation in shade when adding or replacing an item to an original order. We strongly recommended providing a sample that we are happy to colour match to in this instance.

Vanity Hall products are only permitted to be sold by authorised retail showroom partners. We reserve the right to remove access and close the account of any company attempting to sell Vanity Hall products via e-commerce.

Our policy is one of continuous improvement and we reserve the right to change the specification and design of any Vanity Hall product without prior notice.

Vanity Hall would like to give special thanks to BC Designs, Crosswater & Crown Tiles ([www.crowntiles.co.uk](http://www.crowntiles.co.uk)) for the supply of products used in our brochure photography. Due to the limitations of the printing process an exact match cannot be guaranteed although every effort is made to ensure the finishes are as close as possible to the finished items.
