Worktops, Splashbacks & Upstands

**Accept no
substitute**

Beautiful surfaces that reflect your lifestyle

The iconic name of Formica® is synonymous with kitchen design; our laminates were a revolutionary material that brought colour, style and practicality to kitchens all over the world.

With our latest Formica Prima® worktop surfaces and accessories, we strive to create beautiful environments, whatever your style and personality, to make your kitchen, the heart of your home.

The real beauty of our classic laminate designs is that they will be as fresh and striking in years to come, as when they are first installed. Our commitment is a lifetime worktop guarantee.

With so much versatility and choice, the Formica Prima range offers worktops, breakfast bars, islands, splashbacks and upstands that will allow you to create a truly beautiful kitchen that best reflects your lifestyle and taste.

Why accept another laminate worktop brand, when you can have the real Formica Prima?

...Accept no substitute

Front Cover

Kitchen interior showing a 600mm wide Calacatta Marble worktop in 38mm thickness with P-3 profiled edge with Radiance texture, and matching 900mm wide breakfast bar in 38mm thickness with P-3 profiled edge.

Reverse Cover

Close-up of 900mm wide Calacatta Marble breakfast bar with Radiance texture.

1 Close-up of 600mm wide Ferro Graphite worktop in 22mm thickness with P-3 profiled edge with Etchings 48 texture and mid panel splashback in Dogbone Storm with Matte 58 texture.

TRUESCALE

Inspiration on a grand scale. Formica® **TRUESCALE** laminates are designed using full slabs of stone and printed using the latest high definition printing technology.

Bringing exquisite detail on a large scale and mirroring the exact characteristics of natural materials across a large laminate sheet, Formica **TRUESCALE** laminates are without the repetition found on conventional laminates.

Look out for the **TRUESCALE** badge 

Marvellous Marbles

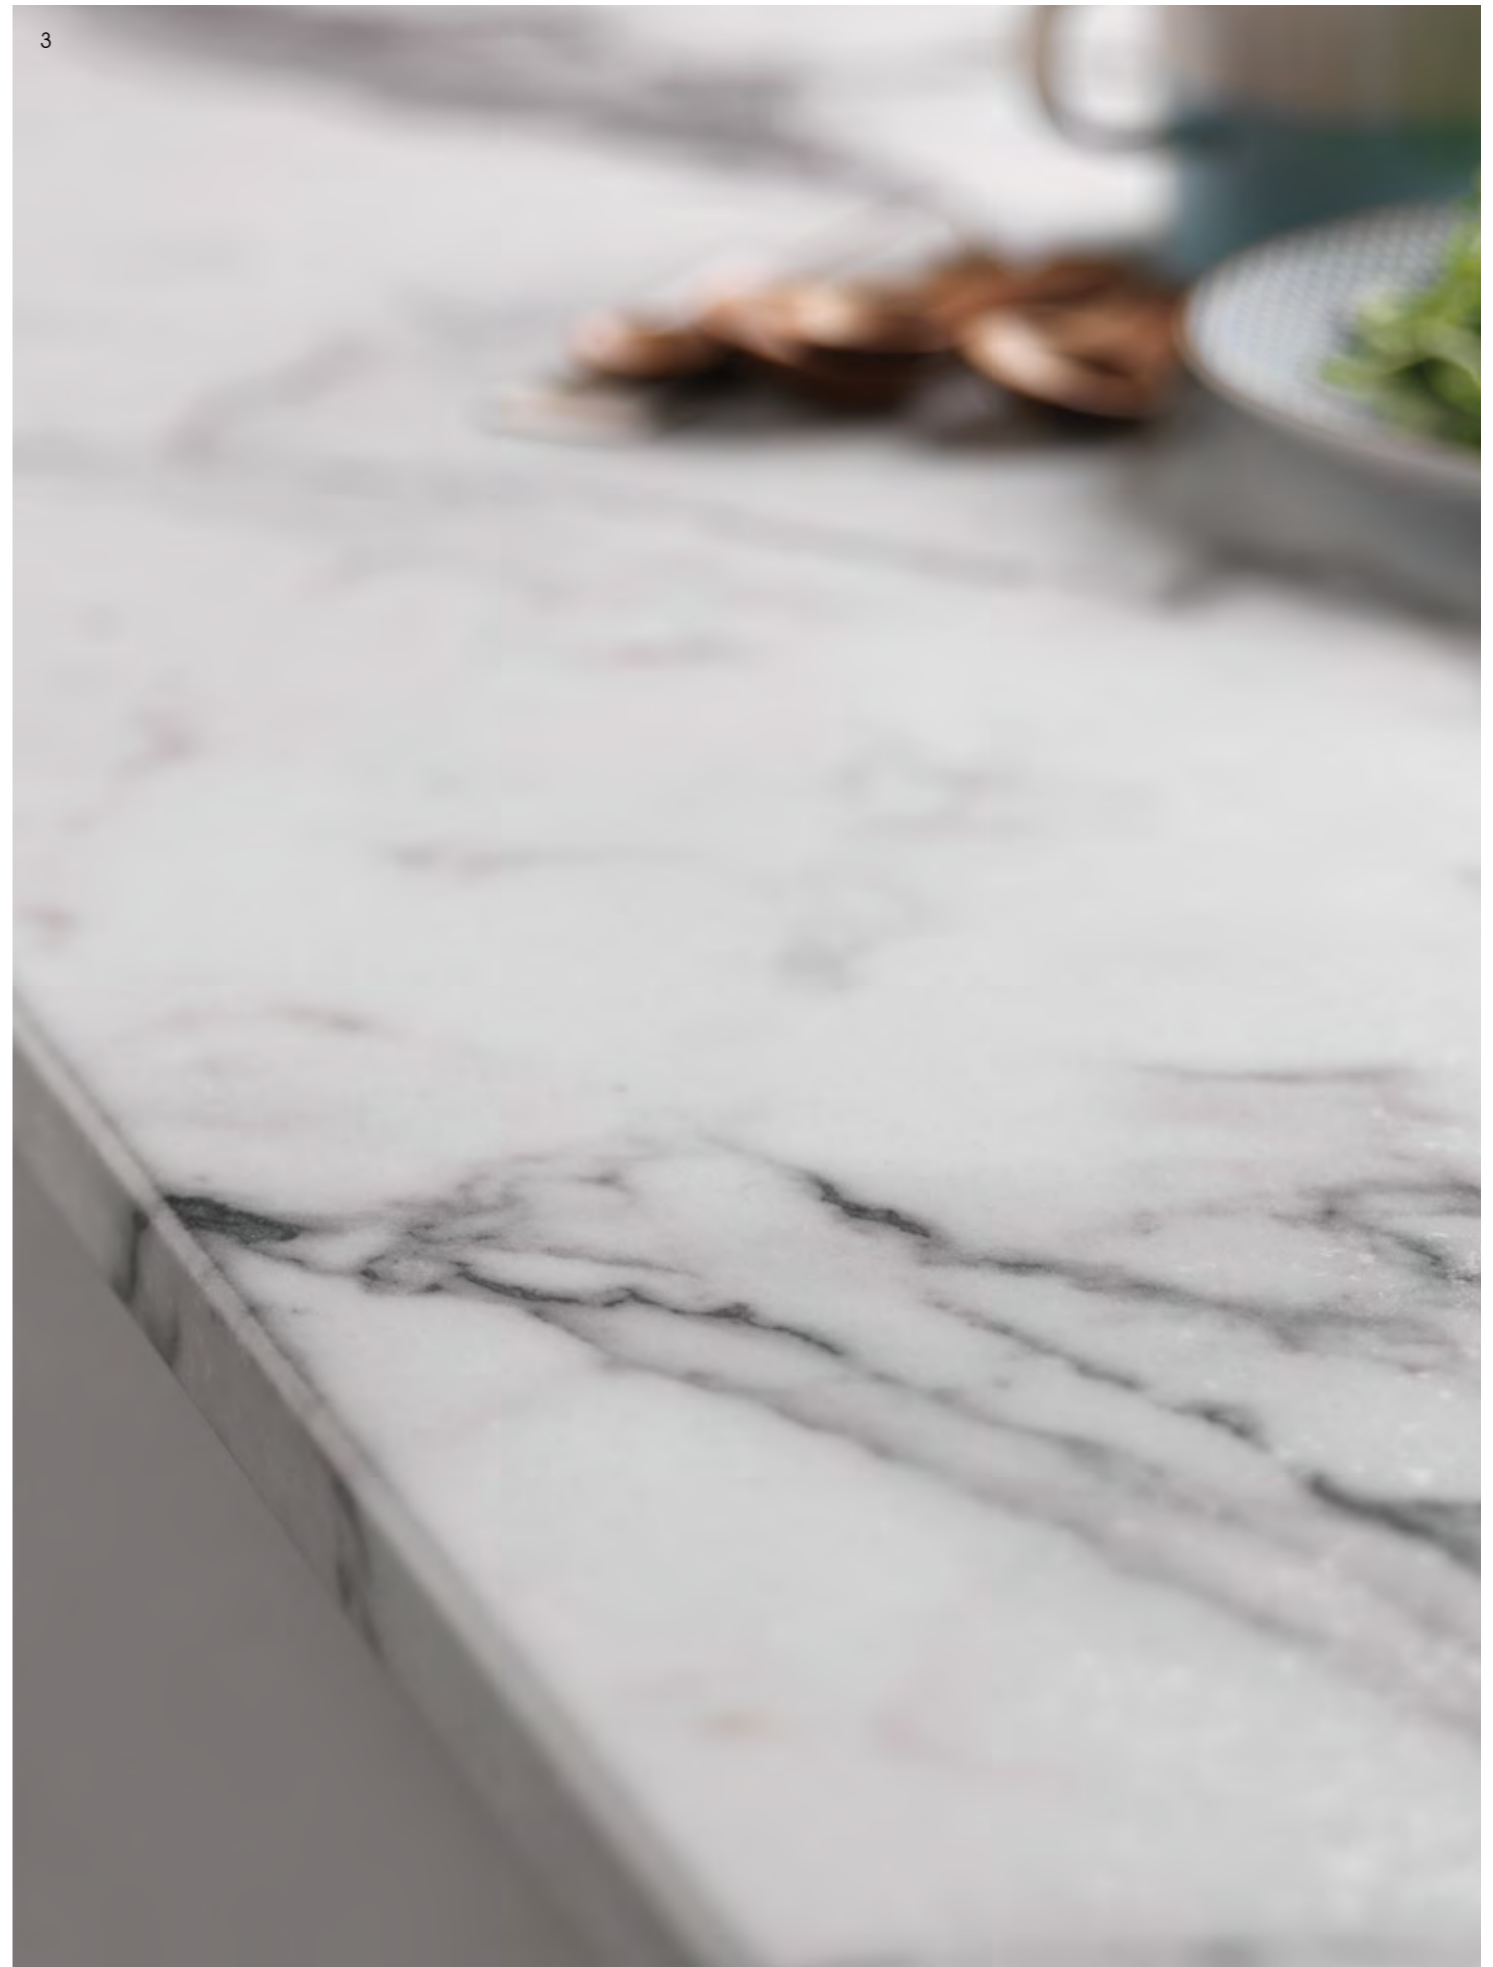

All the visual drama of marble, without the dramatic price. Formica Prima® presents a selection of exotic and luxurious marbles that will make a big design statement, without demanding a big budget.

Bringing an undeniable wow factor to any kitchen, Formica Prima marbles are available in a variety of colours to suit your interior design tastes. To show off the full drama of these marbles, use as a large island or breakfast bar. They also look marvellous vertically as a feature splashback.

Actual marble is a more open grain stone, which makes it softer and more delicate. Prima **TRUESCALE** marble decors are based on real stone slabs, but are encapsulated into a high performance laminate surface, making it water resistant and offering protection from scratches and stains.

Formica Prima **TRUESCALE** marbles are beautiful, elegant, and timeless.

Calacatta Marble displaying exquisite veined grey on a luminous background of creamy white.

1 Kitchen interior showing a 600mm wide worktop in 38mm thickness with P-3 profiled edge, 900mm wide breakfast bar in 38mm thickness with P-3 profiled edge.

2 Close-up of Radiance texture.
3 Close-up of P-3 profiled edge on a 22mm worktop.

Based on an Arabescato slab, Marbled Cappuccino is a black marble with swirls of warm grey and chocolate brown.

1 Kitchen interior showing a 600mm wide worktop in 22mm thickness with P-3 profiled edge, 900mm wide breakfast bar in 22mm thickness with P-3 profiled edge.

2 Close-up of Radiance texture on a 22mm thickness breakfast bar P-3 profiled edge.

3 Close-up of 600mm wide worktop in 22mm thickness with P-3 profiled edge and mid panel splashback in Kashmir with AR Plus® Gloss texture.

3

Ferro Grafite is an elegant dark grey marble with subtle swirls and bold white veins.

TS

1&4 Kitchen interior showing a 600mm wide worktop in 22mm thickness with P-3 profiled edge, 1205mm wide island in 22mm thickness with P-3 profiled edge and mid panel splashback in Maui with AR Plus® Gloss texture.

2 Close-up of 600mm wide worktop in 22mm thickness with P-3 profiled edge and mid panel splashback in Maui with AR Plus® Gloss texture.
3 Close-up of Etchings 48 texture on a 22mm island with a P-3 profiled edge.

Gorgeous Granites

Delivering gorgeous work surfaces, the granite "look" remains the most popular in kitchens today. Composed of crystals such as quartz and mica, the sheer variety of colours and types of granites available mean that there is a granite to meet all tastes, from the most traditional and conservative, to the most modern and minimalist kitchens.

We've sourced real slabs of granite from all over the world to inspire our Formica Prima® range. Our signature granites have been inspired by the strikingly beautiful, large-scale Mascarello granite from Brazil.

Unlike actual granite, Formica Prima laminate worktops, splashbacks and upstands are lightweight, do not require specialist equipment to cut or install and they require no sealants or on-going treatments.

Crema Mascarello captures the rich detail of the stone in soft tones of white, off-white, taupe and warm grey.

1 Kitchen interior showing a 900mm wide breakfast bar in 38mm thickness with P-Zero square edge, wrapped horizontally and vertically.

2 Close-up of 900mm wide breakfast bar in 38mm thickness with P-Zero square edge in Etchings 48 texture.

Beautiful Antique Mascarello is a soft grey brown with dynamic patterning.

1&2 Close-up of Radiance texture with P-3 profiled edge on a 600mm wide worktop in 38mm thickness. 3 Close-up of 900mm wide breakfast bar.

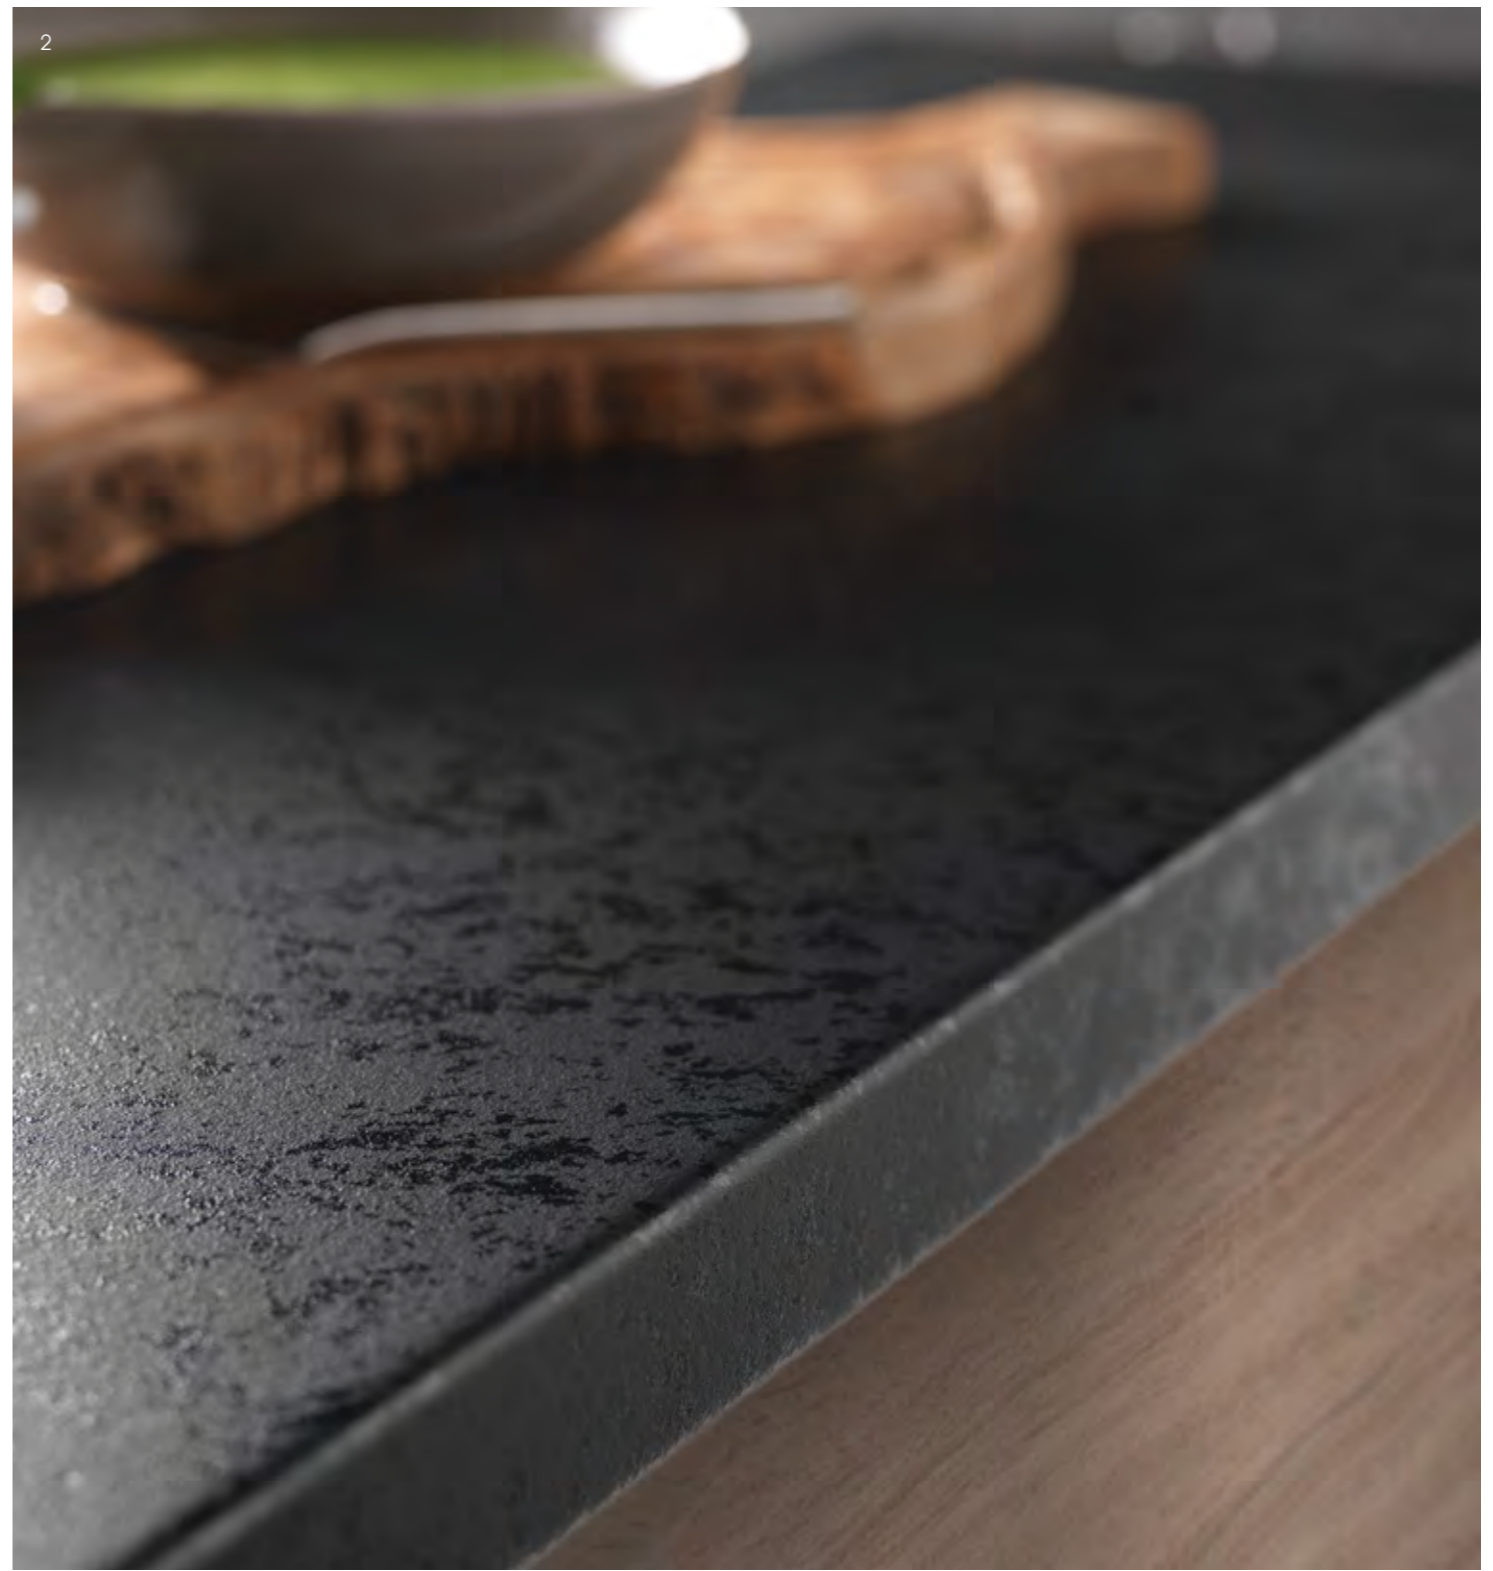

Striking Stones

Other popular stone looks include engineered stone, slate, concrete, ceramics and soapstone, but these can be hard to source, fabricate and install. They can also be expensive and the performance of these materials in a functional kitchen can have limitations.

The Formica Prima® range of worktops captures the best of these looks and makes them available, practical and affordable.

Premium and exclusive Formica® laminate textures add the perfect finishing touch, to give the look of highly polished, honed or weathered stones.

Diamond Black in Ceramo finish is inspired by fashionable large tiles that are becoming popular in kitchens and used both horizontally and vertically. Ceramo has a dry touch, and an elegant dual gloss effect.

1 Kitchen interior showing a 600mm wide worktop in 38mm thickness with a P-3 profiled edge in Ceramo texture, including matching upstand and mid panel splashback in Possum in Matte 58 texture.

2 Close-up of 600mm wide worktop with P-3 profiled edge in Ceramo texture.

1

2

3

Soapstone Sequoia is a warm and inviting stone with finely drawn veins in white, beige and grey that criss-cross over misty hues of warm and cool grey.

- 1 Close-up of 900mm breakfast bar.
- 2 Kitchen interior showing a 600mm wide worktop in 38mm thickness with a P-3 profiled edge in honed texture with mid and hob panel splashbacks in Kashmir with AR Plus® Gloss texture.

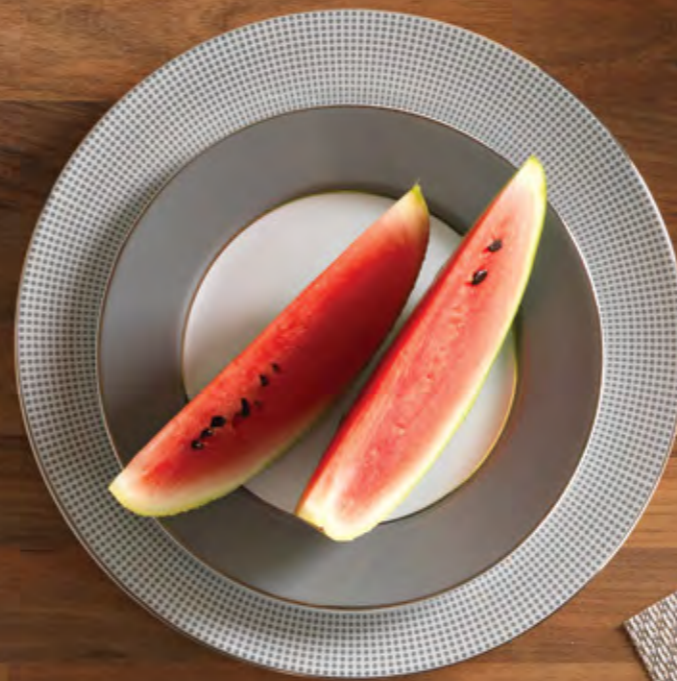

- 3 Close-up of 600mm wide worktop with P-3 profiled edge in Honed texture.

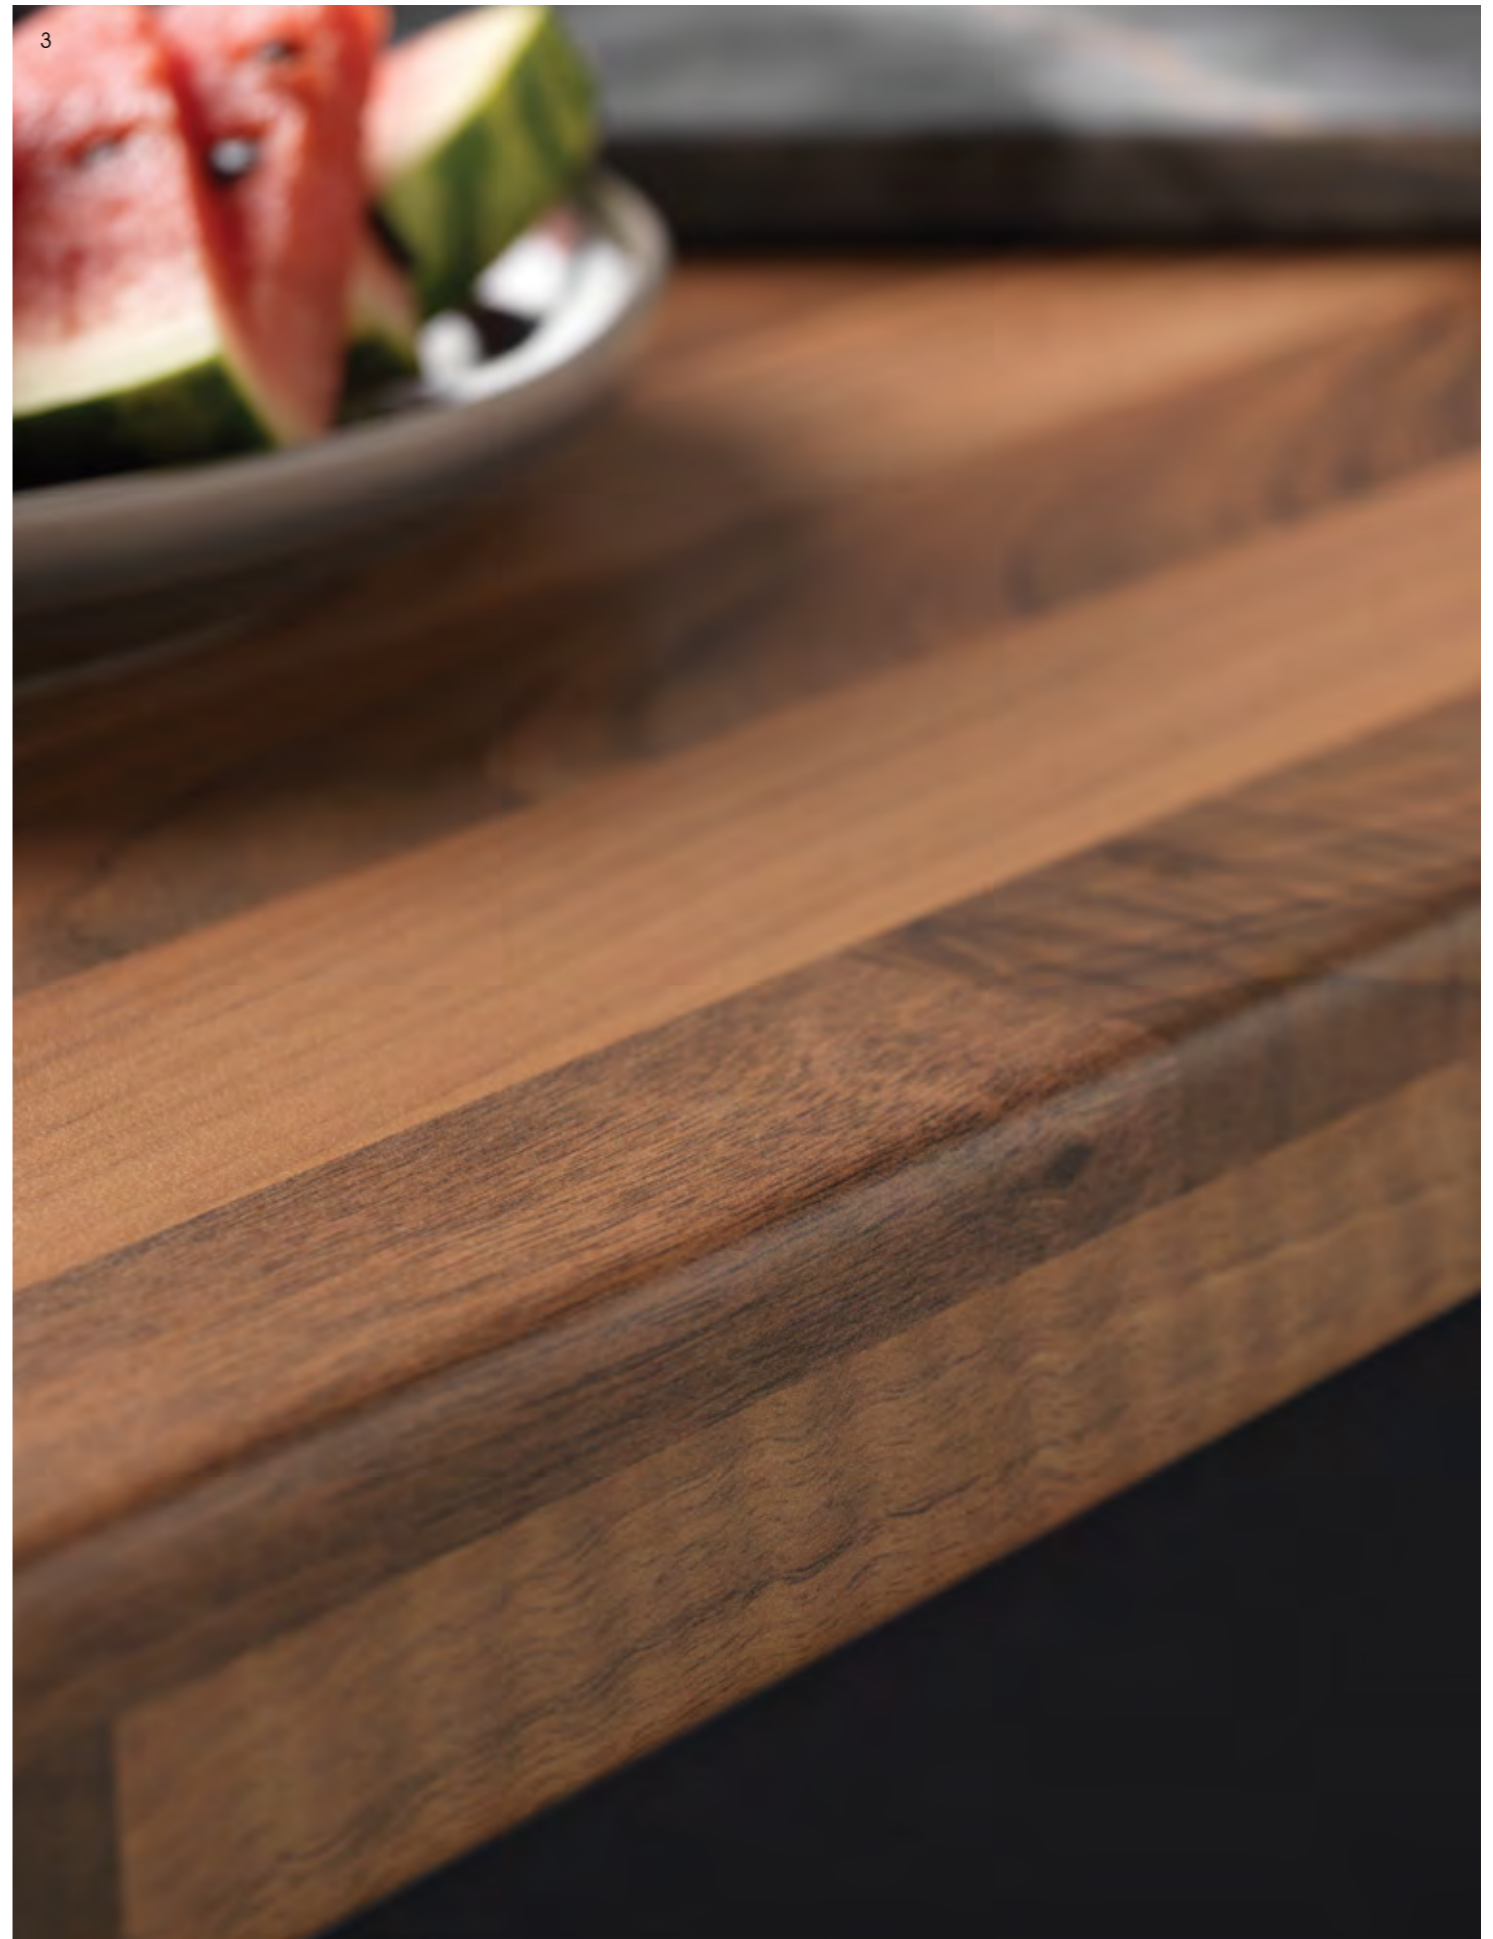

Wonderful Woods

The ultimate all rounder, there's a wood worktop to complement any kitchen style, traditional or modern, light or dark.

Formica Prima® offers a classic selection of wood worktops and upstands to add natural style and warmth to any kitchen. High quality prints beautifully capture the detail of each species, ranging from traditional Oak and Walnut to exotic and colourful Ebony and Zebrano.

The real beauty of Formica Prima woods is that you get the look, without the hassle, as our laminate worktops are water and stain resistant and unlike real wood, require no treatments or oiling.

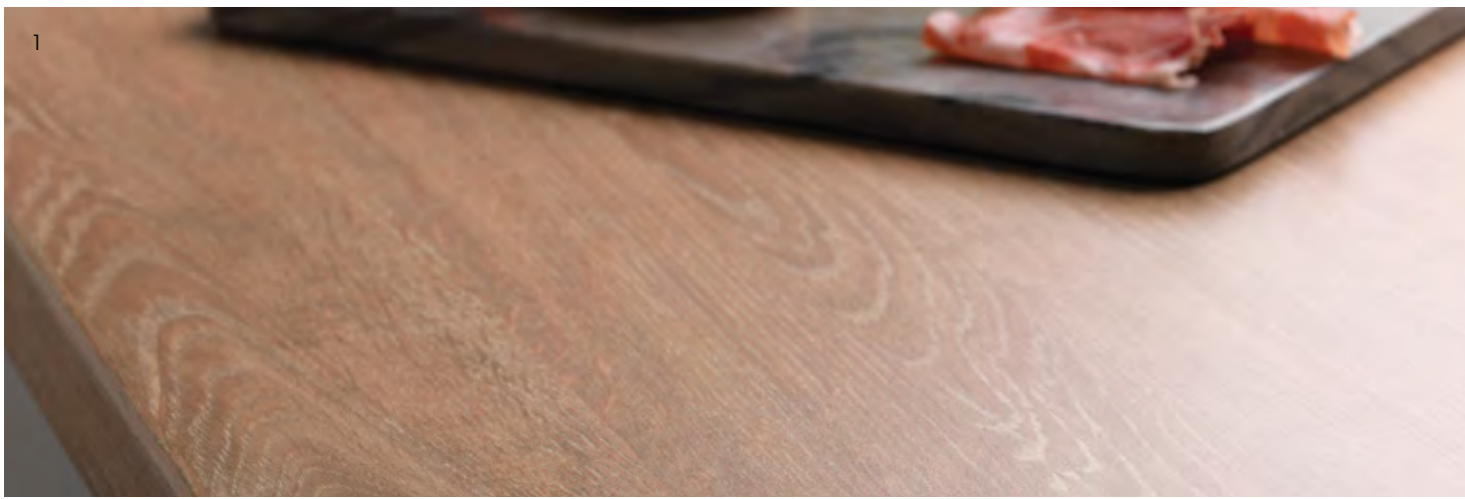

Natural Block Walnut is full of colour and character, with a detailed wood grain pattern. It has a butcher block layout that provides a modern twist on a classic wood.

1&2 Kitchen interior showing a 1205mm wide island in 38mm thickness with a P-3 profiled edge and a 600mm wide worktop with a P-Zero square edge, in Matte 58 texture.

3 Close-up of 1205mm wide island with P-3 profiled edge in Matte 58 texture.

A dark oak design, Rural Oak has a softly weathered classic feel, coloured with silver grey and brown to make it a perfect fit for contemporary kitchen interiors.

1&2 Close-up of Matte 58 texture with P-3 profiled edge on a 600mm wide worktop in 38mm thickness. 3 Close-up of 900mm wide breakfast bar.

Good to be square

The trend in worktop edge profiles is; the squarer the better. This best reflects the slab look of stone and wood worktops.

P-3
Designed specifically to enhance our beautiful work surfaces, P-3 is an angular profiled edge with a subtle 3mm curve top and bottom and features on all Formica Prima® range worktops, breakfast bars, islands and upstands.

22mm

28mm

38mm

P-Zero
If you are looking for a square edge, a selection of Formica Prima 38mm worktops, are available with a matching P-Zero edge strip pre applied.

P-Zero edging on a roll, is also available on a selection of 22mm & 38mm Prima designs. Use P-Zero edging to create clean lines and bespoke component shapes. Partner with **TRUESCALE** stones to create really dramatic kitchen surfaces.

38mm

A touch of class

Texture adds an extra dimension to any surface. Partnering the right design and texture together, elevates the aesthetics of the surface and also the tactile experience for those who touch it.

At Formica Group, not only do we design our own textures, we manufacture our own steel texture plates too.

9 premium surface textures available in the Formica Prima® range, creating beautiful, tactile surfaces.

Radiance

A shimmering texture that highlights the beautiful veining of stone and granite, refracting and reflecting light.

Ceramo

Inspired by ceramics, this dual gloss effect reflects light beautifully.

Riverwash

A dramatic texture that gives the visual impact of naturally weathered stone.

Honed

Subtle surface clefts and crevices emulate softly brushed stone.

AR Plus® Gloss

A superior high gloss laminate, that maintains its shine.

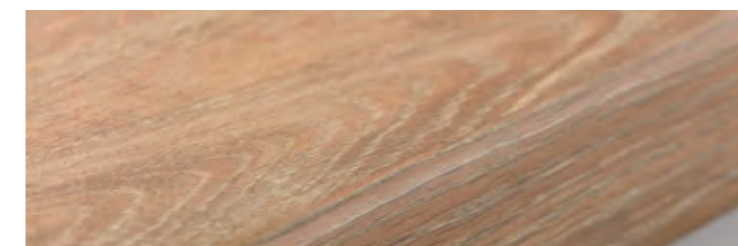

Etchings 48

A softly polished and etched texture that captures the individual beauty of natural stone and granite.

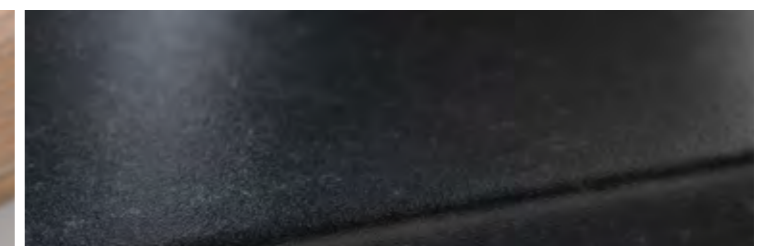

Matte 58

A warm, smooth and robust surface texture.

Crystal

A small-scale texture with a subtle sparkle that creates a brighter, more durable surface.

Naturelle

An elegant wood texture highlighted with detailed graining.

Worktops, Breakfast Bars & Islands

Importance of design

Good design can dramatically change the function of a kitchen, from a place to prepare food, into a space to eat and enjoy it, to socialise and relax, to work or study.

Great design can transform your kitchen, into the heart of your home.

Clever use of space and materials is as important in small kitchens, as in large open plan kitchens:

- A breakfast bar with recessed seating creates a compact kitchen diner.
- A waterfall edge on the end of a worktop run or island, cascading the same design both horizontally and vertically to wrap kitchen furniture, creates a modern look, with sleek, clean lines.
- If you have the space for a large island, it makes a striking and very practical centre piece to any kitchen.
- Mixing different material looks can create an eye catching contrast, such as using Formica Prima® Marbled Cappuccino, alongside Natural Block Walnut.

Variety and versatility

The Formica Prima range offers a wide variety of worktops, breakfast bars and islands, in a variety of different thicknesses and edge options, to make any possible kitchen design, a reality.

- 52 worktop designs.
- 9 premium surface textures.
- 600mm wide worktops are edged on 1 long side and come in a variety of lengths from 3050mm to 4100mm.
- 665mm & 900mm wide breakfast bars are edged on 2 long sides and come in a variety of lengths from 3050mm to 4100mm.
- 1205mm wide islands are edged on 2 long sides in a 3050mm length.
- Additional edging supplied with each worktop, breakfast bar and island.
- 22, 28 & 38mm thicknesses available on select items.
- P-3 (3mm profile) available on the full worktop range & P-Zero (square edge) option on select decors.

1 Kitchen interior showing Calacatta Marble in a 600mm wide worktop in 38mm thickness with P-3 profiled edge, 900mm wide breakfast bar in 38mm thickness with P-3 profiled edge.

Feature Splashbacks

Functional, fabulous, feature splashbacks make a real design statement in any kitchen.

Complement your worktops and kitchen furniture with high gloss coloured splashbacks, luxury metallics or modern optical solid patterns.

For a more coordinated look, splashbacks that match your worktops are also available, allowing you to extend the work surface up onto the wall.

Mid panel splashbacks are designed for use from the worktop to the underside of your kitchen cabinets and are available in long 3030mm lengths to create a dramatic and functional alternative to tiles or a painted wall.

Hob panel splashbacks are double height, to protect the wall from cooking splashes and spills.

Upstands

For the perfect finishing touch, why not add an upstand?

Upstands create clean, uncluttered lines between the back of your worktop and wall and can also help to hide any gaps or wall unevenness.

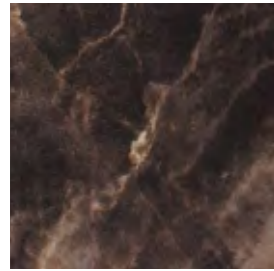

Available in long 3m lengths, matching upstands are available for the full range of Formica Prima® worktops and come with the same P-3 profile.

1 Mid panel splashback in Kashmir with AR Plus® Gloss texture.

2 Upstand in Diamond Black with Ceramo texture.

Formica Prima® quality is guaranteed

Formica® is the original laminate brand and at Formica Group we believe that we produce the highest quality laminate products available. To back this up we offer market leading guarantees on our Formica Prima® worktop and accessories range.

Lifetime guarantee on worktops, breakfast bars & islands

This guarantee covers any laminate worktop, breakfast bar or island found to be defective in either material or manufacture from the date of its installation. Swatch samples represent only a small area of an actual Formica Prima worktop, therefore colour and surface finish should be compatibility checked before your Formica Prima products are fitted, as we cannot accept claims for re-fitting resulting from a mismatch of colour or surface finish.

An installation and maintenance guide is supplied with every worktop; this must be kept by the end user to validate any guarantees.

10 year guarantee on upstands and splashbacks

Formica Prima laminate upstands and splashbacks carry a 10 year guarantee. This guarantee covers any upstand or splashback found to be defective in either material or manufacture from the date of its installation.

Exceptions to the guarantee – Gloss products & metallic splashbacks

Due to the properties of gloss and metallic laminates, additional care must be taken with these products and we are unable to accept performance responsibility.

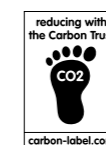

Quality assured

All Formica Prima products are manufactured in accordance with British and European standards to ensure they meet exacting modern kitchen requirements. Specific features incorporated into the worktop increase their resistance to heat, impact, moisture and scratching (excluding gloss). A moisture resistant front and back edge seal features on all Formica Prima worktops, breakfast bars and islands.

All Formica Prima worktops and accessories are manufactured at the Formica Group plant in Newton Aycliffe, County Durham. Formica Group is proud to support the "Made in Britain" campaign.
