

**KALDEWEI**

Icons are pure fascination. They captivate and inspire us, fire our imagination and kindle desire. Almost by default, they radiate a magnetic attraction. Our products do no less – thanks to their new design vocabulary, timeless appeal and our unique KALDEWEI steel enamel. Working closely with illustrious designers, we do not just create bathtubs, shower surfaces and washbasins – we create true style icons that enhance even the most luxurious bathroom. All over the world. As a firmly established family business based in Germany, it is our mission to offer our customers worldwide the most exquisite bathroom solutions – from the planning stage through to complete installation.

We invite you to browse the following pages and experience the power visionary thinking in design and material for new standards in bathroom culture.

# THESE DESIGN OBJECTS ARE EASY TO COMBINE – WITH OTHER UNIQUE OBJECTS.

The KALDEWEI steel enamel ensures that our bathtubs and shower surfaces, and now our new washbasins too, are made to last. But KALDEWEI steel enamel recommends itself not only for its material properties; its aesthetic qualities deliver equally strong arguments. Designed to let you enjoy the advantages of bathroom

furniture made completely of the same material, the new washbasins now complement our bathtubs and shower surfaces in the most optimal way. Experience the beautiful feeling when individual perfect objects combine into a perfect whole: a bathroom in one style, one quality and one class.

# QUALITY SPEAKS FOR ITSELF. IN 276 LANGUAGES.

KALDEWEI design products appeal where superior quality is valued. Small wonder then that you will find our products in excellent grand hotels, upmarket private residences and even exclusive cruise ship suites – anywhere around the globe. As a worldwide partner, we meet even the most ambitious requests of the world's leading architects and clients. From the planning to the finished project: bathroom solutions from KALDEWEI appeal with innovative ideas and exquisite designs. But that's not

all: because of its superior properties KALDEWEI steel enamel scores equally at global level – especially in places such as care facilities. The reason being, our unique material guarantees absolute hygiene. Even the smallest dirt particles are easily wiped away with just a damp cloth. We set the bar high with standards based primarily on one aspect: our customers and their ideas – wherever they are in the world.

# IF YOU WANT TO CREATE TIMELESS BEAUTY, YOU NEED A MATERIAL THAT STANDS THE TEST OF TIME.

The perfect material for perfect design has a name: KALDEWEI steel enamel. Steel and glass – two entirely authentic and natural materials, used for centuries, and each with its own inherent material properties. Steel signifies strength, toughness, robustness and optimum ductility. Glass is highly resistant to chemical or thermal stress and has an excellent appearance. KALDEWEI steel enamel combines robust steel and tough glass to form an inseparable bond harnessing the

strengths of each material in perfect symbiosis. As a pioneer consistently pushing the boundaries to make the good even better, KALDEWEI has been steadily developing, refining and optimising the special formula and manufacturing processes of KALDEWEI steel enamel for almost a century now. KALDEWEI steel enamel guarantees lasting quality that remains visible, tangible and treasured day after day.

A beautiful bathroom is where we want to spend all the time in the world: today, tomorrow, even in 30 years, if you like. That's why we guarantee timeless design backed by a unique quality promise for our KALDEWEI steel enamel. Be it bathtubs, shower surfaces or wash-

basins, with our superior steel enamel it is entirely up to you – not to the ravages of time – to decide when your bathroom needs a complete renovation. We apply the same high standard to all our products – guided by one simple criterion: the standard our customers expect.

#### **DIMENSIONALLY STABLE**

Temperature fluctuations will not affect KALDEWEI steel enamel, thereby minimising the risk of cracked joints or damage from moisture penetration.

#### **SCRATCH AND IMPACT RESISTANT**

KALDEWEI steel enamel is much harder than acrylic and highly resistant to mechanical stress.

#### **CHEMICAL RESISTANT**

Perfume, bath additives or common household detergents will not harm the surface.

#### **HEAT RESISTANT**

Burning and smouldering objects do not leave marks on the surface.

#### **UV RESISTANT**

Our KALDEWEI steel enamel retains its original colour without fading or yellowing.

#### **EASY TO CLEAN AND HYGIENIC**

The glass-hard surface is hygienic and easy to clean.

#### **100 % SUSTAINABLE**

The natural materials we use in our environmentally compatible manufacturing process can be fully recycled.

# “THE WORLD IS ABOUT PEOPLE, NOT OBJECTS.”

## ARIK LEVY

Design that isn't for just anybody can't be produced by just anybody either. That is why we have asked the illustrious designer, Arik Levy, to design his first bathroom collection for KALDEWEI. Arik Levy's work is famed for its emotional power. It not only makes people's lives easier, but also enriches them. Because it bestows happiness, pleasure and wellbeing on them. That is how Arik Levy interprets excellent design – and that is exactly what he has achieved with his MEISTERSTÜCK EMERSO. The sea was his inspiration

for this design. The idea is that his tub should make the ocean a visual experience, as if one were part of it. As if one were looking at the sea not at a distance, from the shoreline, but actually swimming in it. Like a surfer waiting for the next wave. The interior shape and external trim combine to produce a wave; the extraordinary edge curves in on itself, lending the design a touch of undulance. Everything merges together to create an impressive bathroom sculpture with lines that seem to flow infinitely. Like the sea: without symmetry but full of harmony.

# “INSPIRED BY THE BEST DESIGNER IN THE WORLD: NATURE.”

## ANKE SALOMON

Anke Salomon's design vocabulary stands apart because of its unmistakable aesthetic: clear-cut, pure and full of beauty – just like nature. Anke Salomon remains faithful to her design philosophy in her collaboration with KALDEWEI. Three product lines have been created: the freestanding MEISTERSTÜCK INCAVA bathtub, a built-in version of the INCAVA, and the SILENIO Collection comprising a bathtub and washbasin. They all share a

common, naturally soft design that flows softly into the interior without visible edges and corners and not taking its cue from basic geometric shapes. As natural as gently draped fabric forming a harmonious and smooth concavity. Which makes it all the more exciting that Anke Salomon has given each of her three lines distinct design features: to the freestanding MEISTERSTÜCK INCAVA bathtub a surprising lightness; to its built-in counterpart a high, striking wall; and to the SILENIO bathtub, a serene and harmonious quality.

# THE WASHBASINS

IF YOU'VE EVER FOUND ANYTHING THAT COMPARES,  
IT WAS THE MATCHING TUB.

**EMERSO**  
MEISTERSTÜCK <sup>®</sup>

## DESIGN

Arik Levy. The MEISTERSTÜCK EMERSO washbasin is the counterpart to the bathtub of the same name. Although built inversely, its design is equally subtle and harmonious. The washbasin's flowing lines appear to undulate; the internal shape of the washbasin seems to dissolve the boundaries between solid and

liquid. Even the flush-fitting outflow is positioned in such a way that it reinforces the impression of a fluid shape. Whether freestanding or inset countertop, the MEISTERSTÜCK EMERSO is an enhancement to even the most luxurious bathroom.

MODEL	MODEL NO.	VERSION	LENGTH (cm)	WIDTH (cm)	RIM HEIGHT (cm)
MEISTERSTÜCK EMERSO	3020	Freestanding	52	42	90

## DESIGN

Arik Levy. Even as a built-in version, the EMERSO washbasin loses nothing of its special appeal. Quite the opposite: The centrally placed waste leaves it up to you to decide which side is front. It allows you to integrate the washbasin into the bathroom entirely to suit your

requirements. And perfectly enjoy the sensuous lip with its fluid asymmetry and harmonious transitions. This is our idea of perfection in superior KALDEWEI steel enamel.

## DESIGN

The family relationship with the CONO bathtubs and shower surfaces cannot be overlooked: Made of superb KALDEWEI steel enamel, the aesthetic quality and user-friendliness of these washbasins combine to produce the perfect symbiosis of clarity and serenity. The square, enamelled outflow accentuates the underlying

geometry of this sublime washbasin. In addition to its exceptional design, it captivates with a special technical feature: the overflow is invisibly integrated into the run-off support. There is no overflow hole to detract from the design's clean lines. The CONO washbasin thus exudes perfect elegance and harmony.

**CENTRO**  
AVANTGARDE ◆◆◆

# CENTRO

AVANTGARDE ◆◆◆

## DESIGN

Anke Salomon. The minimalism and simple elegance of the CENTRO bathtub family have been transferred here to the washbasins. Taking the circle as the basic shape, a very special geometry was produced – with soft radii and flowing contours. Apart from the round enamelled waste cover and the invisible overflow, the generous

dimensions of the washbasin surround are particularly striking. These lend the washbasin a distinctive character that stands out both in modern bathroom settings and traditional interiors – irrespective of which fittings you choose.

## DESIGN

Anke Salomon. The sensually modern design of the SILENIO series of washbasins distinguishes itself through its exciting tensions: The soft, organic interior shape culminates in a narrow, precise washbasin lip – with a straight-lined, geometrical external shape. This, combined with the unadorned surround,

produces a restrained yet extraordinary washbasin. The SILENIO product series offers the washbasin to go with the SILENIO Ambiente bathtub. Together with the SCONA shower surface, they form a harmonious bathroom, fitted out entirely with KALDEWEI steel enamel.

## DESIGN

KALDEWEI Design. With XETIS, KALDEWEI is once again setting new standards in modern bathroom design. The waste has been discretely hidden behind the front wall so as not to interfere with the shower surface made of high-quality KALDEWEI steel enamel. Available in 13 different sizes, XETIS integrates easily into any setting. All components of the integrated system have been

developed by KALDEWEI and match each other perfectly. XETIS thus opens up new aesthetic possibilities for bathroom designers and becomes an absolute design highlight in the bathroom. With XETIS, KALDEWEI emphasises its role as a pioneer and style icon of bathroom culture.

## DESIGN

KALDEWEI Design. Made of superior KALDEWEI steel enamel using state-of-the-art technology the shower creates a unique feel-good atmosphere in the bathroom. Its geometric shape with square radii follows modern

lines. Round details and the slight sloping of the shower surface stand in striking contrast. Its sensuous design flows harmoniously into a round waste cover positioned in dead centre.

## DUSCHPLAN

Phoenix Design. The simple things in life are sometimes the most refreshing. Like the DUSCHPLAN with its modern, timeless design and only 6.5 cm depth. This classic among shower trays can be easily integrated into

almost any bathroom. And with a moulded panel, this shower tray adds extra elegance to the bathroom. DUSCHPLAN is available in rectangular or square design and different sizes.

## DUSCHPLAN XXL

Phoenix Design. There are days when you need your space. And there are other days when you want some company. With the DUSCHPLAN XXL, both are possible,

because its unusually generous size takes freedom of movement in the shower to a whole new dimension. Pure showering pleasure – alone or with a partner.

# THE MEISTERSTÜCKE

PURE RELAXATION - IN A PURE DESIGN.

**EMERSO**  
MEISTERSTÜCK <sup>®</sup>

## DESIGN

Arik Levy. Designed for a single bather, the MEISTERSTÜCK EMERSO bathtub is a luxury to be enjoyed entirely by oneself. Ergonomics and design are at one with each other in this freestanding bathtub. The new kind of fluid design with its undulating bathtub rim

provides a natural and comfortable place to rest one's head. The tapering fully-enamelled outer shape underlines the bathtub's sculptural nature, giving it the look of a modern work of art.

**INCAVA**  
MEISTERSTÜCK <sup>®</sup>

# INCAVA

MEISTERSTÜCK 

## DESIGN

Anke Salomon. The charm of the freestanding MEISTERSTÜCK INCAVA lies in the subtle tension between the soft lines of the interior and the sensual geometry of the exterior. The reduced rim and

conically-shaped trim give the bathtub a surprising lightness. The design is perfected by the centrally-placed, flush-fitting, enamelled waste cover and the newly devised enamelled overflow.

**CONODUO**  
MEISTERSTÜCK <sup>®</sup>

## DESIGN

Sottsass Associati, Milan. The seamless shape of the MEISTERSTÜCK CONODUO combines freestanding design with excellent bathroom comfort to produce the perfect symbiosis of clarity and serenity. The precisely executed perpendicular bathtub cladding, the flush-fitting, built-in outflow, and the optimally positioned

overflow knob are all made of superb KALDEWEI steel enamel, and accentuate the coherent look in the bathroom. Two identical back slopes and the centrally positioned outlet ensure a very special bathing experience – be it alone or for two.

MEISTERSTÜCK VERSIONS 

KALDEWEI MEISTERSTÜCKE aim to make your bathroom into a unique place. And that's another reason why they can be placed anywhere in the bathroom. Be it freestanding, wall-mounted or in a corner – they can fulfil just about any wish. In keeping with this thinking,

we offer special versions of our MEISTERSTÜCKE with two or three-sided trim. The exquisite look is retained: fully-enamelled and seamless. This means that even those models that are not freestanding still preserve their clean-cut, minimalist lines.

# ASYMMETRIC DUO

MEISTERSTÜCK 

## DESIGN

Phoenix Design. The freestanding MEISTERSTÜCK ASYMMETRIC DUO is truly eye-catching – particularly the new model which is 10 cm longer (180 x 90 cm). The seamless bathtub with overflow knob and flush-fitting built-in outflow are made of fine KALDEWEI steel

enamel, and transform a bathroom into your very own bathing oasis. The generous surround provides space for fittings or bathroom paraphernalia. It represents a harmonious transition between the virtually perpendicular bathtub cladding and the fluid interior shape.

## DESIGN

Phoenix Design. The unpretentious design of the BASSINO shower pool with its straight lines conveys lightness whilst the generous space allows you to lie outstretched and to move freely in the water. With its spacious interior, BASSINO invites bathers to float weightlessly in the water. For an optimal floating effect,

it comes with a cushion to be placed under the neck, supporting the head. Floating encourages quiet, even breathing and loosens up the muscles. A trance-like state of tranquillity is achieved, with an unparalleled deep relaxation effect. Also available with panelling. Bath board available as an option.

AVANTGARDE ◆◆◆

# ELLIPSO DUO

AVANTGARDE ◆◆◆

## DESIGN

Phoenix Design. The square ELLIPSO DUO bath has strong geometric lines and the edge design is distinguished by a sophisticated, flowing shape. Its soft elliptical interior shape promises safety and comfort. The round shoulder area and precisely formed sides create a generous sense of space that invite you to take a relaxing bath alone or with a partner. The ELLIPSO DUO

OVAL emphasises the feeling of luxury and extravagance even more in that its inner elliptical shape is reflected in its exterior too. The inner shape of the freestanding bath with its own elliptical panelling fits around the bath like a second skin. The ELLIPSO DUO is also available as a whirlpool.

AVANTGARDE ◆◆◆

## DESIGN

Anke Salomon. The built-in version for the highly discerning. The narrow, precise wall of the tub surrounds the organically soft interior shape like a picture frame. The height of the edge is generous, the corner radius significantly rounder than in other KALDEWEI bathtubs. This lends the INCAVA Avantgarde a strikingly sculptural look,

setting it apart from the rest of the bathroom architecture. In contrast, the flush-fitting waste cover and the newly devised overflow – both made of KALDEWEI steel enamel – are superbly integrated. They round out the sensation of profound serenity and harmony created by the interior of the bathtub.

AVANTGARDE ◆◆◆

# MEGA DUO

AVANTGARDE ◆◆◆

## DESIGN

Sottsass Associati, Milan. The MEGA DUO combines generosity with aesthetic individuality. It is as though these baths have been specifically created for bathing with a partner. Not only do the two identically shaped backrests and the central waste offer the highest levels of comfort for two people, but the wide armrests on both sides of the bath also provide extra luxury. The

MEGA DUO OVAL, designed by Phoenix Design, is available with moulded panel on request. It combines generous sizes with aesthetic uniqueness. The panel manufactured from one piece harmoniously suits the shape of the bath and allows it to be freestanding. The MEGA DUO is also available as a whirlpool.

ADVANTAGE ◆◆◆

## DESIGN

KALDEWEI Design. The CAYONO is deliberately designed in lines coordinated with the stylistic features of modern architecture. Straight lines, small radii and a consistent geometry signal clarity, harmony and stringency in an ever more complex and fast-paced world. By the same

token, CAYONO is designed specifically for everyday use. Steep sides ensure a generously dimensioned bathtub interior – even with smaller sizes. The flat bathtub bottom allows for comfortable showering.

## KALDEWEI PROFESSIONAL

## DESIGN

Phoenix Design. What this bathtub saves in length, it makes up for in width just where you need it most: in the shoulder area. With this special shape, the MINI offers a spacious bathtub even in the smallest bath-

room. And as an extra bonus, the tapered shape means a reduction in water consumption. But not in optional extras that will enhance the luxurious feel of the MINI and intensify your bathing pleasure.

# THE EXTRAS

EVEN A PERFECT CHOICE  
CAN STILL BE PERFECTED.

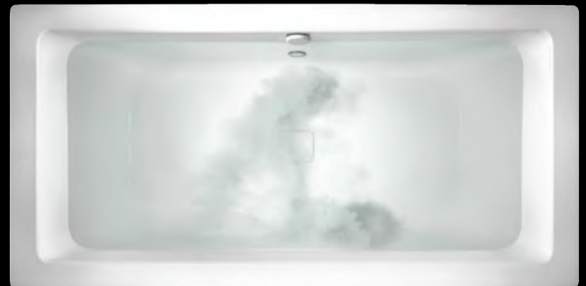

**SKIN TOUCH**

# FEELS BEAUTIFUL. MAKES BEAUTIFUL.

With SKIN TOUCH you feel even more at home in your skin. Because this new system transforms the KALDEWEI Avantgarde and Ambiente bathtubs into veritable fountains of youth. Tiny bubbles of air, 50 to 100 times smaller than in a whirl bath, flow out of a jet. The

concentration of oxygen in your bathwater is thus increased – taking it up to as much as 70% above the normal level. This microfine pearl effect relaxes and regenerates. The result: After bathing your skin feels even smoother and softer.

Experience SKIN TOUCH in a film

## THE BEST BATH ADDITIVE: THE PURE POWER OF WATER.

### VIVO TURBO & VIVO TURBO PLUS

In today's fast-moving world, a relaxing whirlpool bath is a moment of inner harmony. You can forget your worries and experience the pure pleasure of water with all your senses. The whirl intensity in the VIVO TURBO ranges from a gentle stimulation of the sensory hairs to a powerful, large-surface massage of the skin, subcuta-

neous tissue and muscles. The special feature of the VIVO TURBO is the addition of air, which can be integrated into the system while maintaining its outstanding hygienic standards. The VIVO TURBO PLUS individually adjustable whirl programmes round up this complete whirlpool experience.

### VIVO VITA

One of the best counterbalances to the stress of everyday life is weightless floating in your whirl bath. In the VIVO VITA whirl system, a pleasant sparkling air stream flows through the water. Pre-warmed air rises from the base in tiny air bubbles. At the same time, numerous bubbles stimulate the nerve endings in the skin, which feels like a pleasant full-body massage. This soft mas-

sage has a relaxing and soothing effect on your mind. In addition, the cleaning effect of the tiny air bubbles is significantly higher than that of a conventional bath. Whirl intensity can be smoothly adjusted using the bath control panel, from the soft stroke effect to a lasting effect of stimulating vibration and shaking massage.

Side jet in VIVO TURBO and VIVO TURBO PLUS.

Floor jet with air in VIVO VITA and VIVO VARIO ECO.

Side jet with air mixture in VIVO AQUA ECO, VIVO AQUA and VIVO VARIO ECO.

### VIVO AQUA ECO & VIVO AQUA

The VIVO AQUA ECO is a perfect introduction into the KALDEWEI whirl world. In this whirl system, water massage jets are targeted directly at your body through four or six nozzles (depending on bath design). Air can be optionally added to massage jet after the Venturi principle for a pleasant, massaging pressure on your skin and base layer. The intensity of the addition of air can be smoothly adjusted by the turn knob. In the VIVO AQUA

whirl system, water massage jets are targeted directly at your body through six or eight nozzles (depending on bath design). Air can be optionally added to massage jet after the Venturi principle for a pleasant, massaging pressure on your skin and base layer. Massage effect can be smoothly increased to receive a soft vibratory massage with relaxing depth effect.

### VIVO VARIO ECO & VIVO VARIO PLUS

The VIVO VARIO ECO system ideally unites the benefits of air and water. An especially quiet blower whirls tiny air bubbles up from the floor jets for a caressing massage all over the body. At the same time, water streams from paired side jets to deeply massage the skin and muscles. The whirl intensity can be infinitely adjusted using the bath control panel. In VIVO VARIO PLUS, the combined effect of floor and side jets is taken a step further. While bubbles rising from the floor jets create a tingling

feeling we call the KALDEWEI champagne effect, the rotating side jets provide skin and muscles with a pleasant massage. Additional jets integrated into the foot reflex zone and lumbar region ensure a relaxing, whole-body massage. All functions in the VIVO VARIO PLUS can be operated using the convenient Touch Display. Four favourite settings can be stored in the Touch Display and called up at any time.

Microjet with air mixture in VIVO VARIO PLUS.

Rotating side jet with air mixture in VIVO VARIO PLUS.

Floor jet with air and KALDEWEI champagne effect in VIVO VARIO PLUS.

## SOUND WAVE

# A TREAT FOR THE WHOLE BODY. EVEN THE EARS.

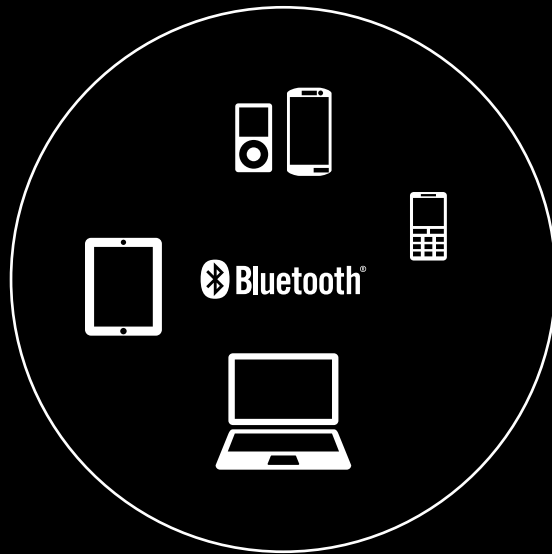

Relaxation and wellness are aspects of our lifestyle that shift the focus increasingly on wellbeing. And what better way to relax than with music?

With the new SOUND WAVE, KALDEWEI offers an innovative bathroom audio system. The SOUND WAVE components, including the Bluetooth® receiver, are concealed in the bath. This acts as an excellent sound box and provides pleasant acoustics of the highest quality. SOUND WAVE can wirelessly play audio files from your smartphone, computer, tablet or any other Bluetooth® enabled device. Experience the extraordi-

nary sound under water and escape from everyday life. The set comprises 6 acoustic panels, a control box with power cable and 2 transducers.

- Very easy to operate using your Bluetooth®-enabled device.
- Perfect for the family. Wireless connection of up to 8 devices.
- Automatic standby mode when outside the range or disconnected.

All info on SOUND WAVE is online too

Bluetooth® is a communication technology that enables wireless connections between compatible devices. Bluetooth® does not require line of sight between the SOUND WAVE and the other device. The devices must, however, be within ten metres of each other.

LIGHTING

## RELAX IN A BATH WITH SOFT LIGHT. JUST BRING THE WINE.

Nothing is more effective for creating an individual atmosphere in the bathroom than light. Used during a relaxing bath, coloured light produces a soothing ambience that enhances our feeling of well being. Light transforms the bathroom into an inviting oasis, with colour impulses stimulating the metabolism and supplying our

cells with new energy while body and soul unwind. Indirect light sources mounted flush in the sides of selected KALDEWEI bathtubs create stunning mood lighting effects for the ultimate bathing experience. Set the right ambience with soft light that is all the more effective for its subtlety.

# THE ULTIMATE IN BATHING COMFORT. EVEN AFTER THE BATH.

## RELAX LOUNGER

The KALDEWEI relax lounger instantly turns a designer bathtub into a small wellness oasis. Relaxing on the fine fabric, you'll feel as if you're lying on the deck of an elegant yacht. In addition to its design qualities, the relax lounger offers a high level of flexibility. It consists of six elements, two of which are permanently connected to each other making it possible to use the relax lounger as three separate boards with varying applications: as a shelf while lying in the bathtub, or as a mattress to recline on. If the three separate boards rest on the bathtub together, they can be connected to create a large stable slip-resistant surface that sits firmly on the bathtub. Another connection between the relax lounger and bathtub can be made by attaching fastening buttons. In this way, bathtubs already installed can be retrofitted

with the relax lounger. The weight capacity of the relax lounger is 130 kg and is supplied with a special cushion.

Cushion size: 40 x 23 x 9 cm.

Relax lounger, sizes: 170 x 75 cm, 180 x 80 cm, 190 x 90 cm, 200 x 100 cm.

The relax lounger is available in the following colours:

Anthracite

Beige

Crimson

Chocolate

RACK to store the relax lounger and cushion.

**MULTIFUNCTIONAL CUSHION**

What could be nicer after an exhausting day than to lie back, switch off and simply let all your cares drift away? With KALDEWEI's multifunctional cushion, this relaxing pleasure becomes reality. The cushions can be used in three ways. Positioned as a footrest or under the thighs,

they prevent the body from sliding downwards in larger baths. Positioned as a neck rest they provide a comfortable support for your head and neck. Placed on the sides they act as an armrest.

**BATHTUB CUSHION**

The KALDEWEI bathtub cushion brings another level of comfort to the bathtub. Its flexibility and soft materials adapt perfectly to any shape of neck and bathtub. Its volume can be regulated with an air valve – similar to an

air mattress. The skin-friendly fabric cover feels delightfully soft and is machine washable. A generous 50 x 30cm, the cushion also supports the shoulder area and allows a variety of head positions.

COMFORT SELECT

# FOR US, WELLNESS STARTS WITH A SOFT TOUCH.

Phoenix Design. The easy-to-use electronic COMFORT SELECT panel controls the main functions of a bath. The extremely flat chrome-look design fits into the

edge of the bath and thus supports the harmonious overall appearance. The innovative Piezo technology allows the following functions to be operated:

Precise control of the inflowing water temperature in increments of 0.5 degrees Celsius.

Precise control of the inflowing water temperature via the stylish display.

When the bath programme is selected, the waste is closed automatically.

Simple toggling between the bath and shower functions.

All components of this system solution are made by KALDEWEI.

The waste can also be activated independently of the programme via KALDEWEI COMFORT SELECT at any time.

# COMFORT

## DETAILS, BUT CERTAINLY NOT TRIFLES.

### COMFORT-LEVEL/COMFORT-LEVEL PLUS

Enjoying a relaxing bath depends not only on how comfortably you can recline, but also how deeply you can submerge your body in the water. With the COMFORT-LEVEL and COMFORT-LEVEL PLUS with

integrated filling function, the water depth can be increased by up to 50mm while bathing to suit personal preferences. All it takes is one turn of the lever for maximum bathing pleasure.

**WATERFALL BATHTUB INLET**

Something for those who love bathing – the waterfall bathtub inlet by KALDEWEI offers a completely new kind of bathing experience.

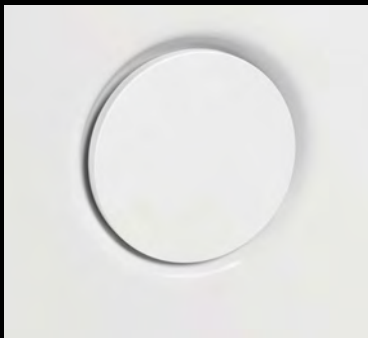

The inlet, which was designed by Phoenix Design, is integrated harmoniously in the side of the bathtub. Activating the water fill automatically opens the screen, and an even waterfall pours into the bathtub. The waterfall inlet with additional overflow function creates a quiet, pleasant atmosphere in the bathroom – with

no irritating elements at all on the inside of the bathtub. The contemporary “click-clack” system is a modern waste concept i.e. the water waste on the bottom of the bathtub opens and closes at a gentle touch of the valve ball.

A wonderfully elegant solution that meets highest design standards and appeals in form and function. The combination waterfall inlet and “click-clack” is unique.

**SECURE PLUS**

**SECURITY DOESN'T GET  
ANY MORE STYLISH.**

KALDEWEI steel enamel is at the core of the KALDEWEI brand. As a pioneer in the industry, KALDEWEI is continually enhancing this material. Above all, the focus is on anti-slip surface finishings. In a creative environment that responds to users' needs, KALDEWEI has opened a new chapter in surface finishing through the creation of the new KALDEWEI SECURE PLUS surface. The KALDEWEI SECURE PLUS enamel which covers the

entire surface of the product, is virtually invisible, but slip-resistant nonetheless. KALDEWEI SECURE PLUS fulfils the requirements of quality class B according to DIN 51097 and quality class R 10 according to DIN 51130. The surface itself has a subtle feel to it and comes in the refined look of the COORDINATED COLOURS COLLECTION.

**SECURE<sup>+</sup>**

All info on SECURE PLUS is online too

## ANTI-SLIP AND FULL ANTI-SLIP

The anti-slip and full anti-slip enamel surfaces designed by KALDEWEI in its own laboratories are hardly visible and provide more safety when showering or taking a bath. They consist of a mixture which is permanently burnt into the KALDEWEI steel enamel. Due to a flatter matrix of the anti-slip nodules, the new (full) anti-slip system is even more friendly to your skin whilst incorporating the same anti-slip characteristics. It is also impressive

with its excellent care properties. Those who opt for KALDEWEI bathtubs and shower trays place great emphasis on aesthetics and design. The anti-slip and full anti-slip enamel surfaces are perfectly matched to the shape of the bathtubs and shower trays. Thanks to the recipe, optimal colour matching is achieved. For the perfect look.

## TESTED AND CERTIFIED SAFETY

It is a matter of course for KALDEWEI to have the new anti-slip and full anti-slip enamel surfaces comprehensively and objectively tested to ensure greater safety in the bathroom for our customers.

The Rhineland TÜV organisation (German Technical Inspection Association) has certified KALDEWEI's anti-slip and full anti-slip systems as having anti-slip properties compliant with Quality Class B for barefoot wet areas (DIN 51097) and Quality Class R 10 for anti-slip characteristics in work spaces and working

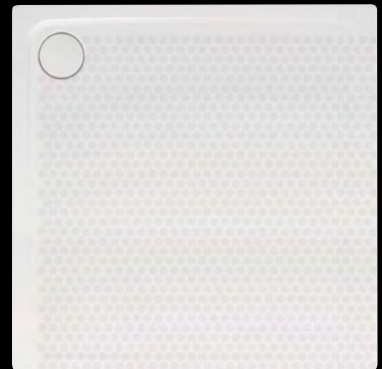

areas with an increased slip risk (DIN 51130). The CONOFLAT, Model No. 790, with full anti-slip, complies with DIN-barrier-free 18025-2 and 18040-2. The SUPERPLAN, Model No. 399, with full anti-slip complies with DIN-barrier-free 18025-2. The SUPERPLAN PLUS, Model No. 486 with full anti-slip, complies with DIN-barrier-free 18040-2. The SUPERPLAN PLUS, Model No. 494 with full anti-slip, complies with DIN-barrier-free 18040-1 and DIN 18040-2. The XETIS, Model No. 890 with full anti-slip, complies with DIN-barrier-free 18040-2.

## DECORATION & EASY-CLEAN FINISH

# EXQUISITE DESIGN NEEDS NOTHING ADDED. EXCEPT PERHAPS A PATTERN.

When design and material leave nothing to be desired, the only desire left may be for even more individuality. The KALDEWEI range therefore includes delicate ornamental patterns that are guaranteed to add a personal touch to any bathroom. "Lily" is a subtle floral pattern that is available for selected KALDEWEI bathtubs and floor-level shower surfaces. The organic design of the

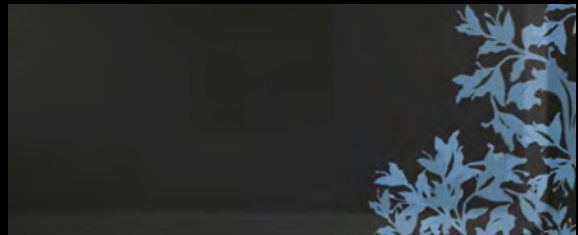

decoration makes enamelled shower surfaces with KALDEWEI lily pattern the perfect match for bathrooms with natural floors of wood or stone. And for an extra hint of glamour, the exclusive 24-carat pure gold ornamentation upgrades an Alpine White shower surface into an individual designer shower. The ornamentation can even be customised on request.

The discreet lily pattern brings a hint of the exotic to every bathroom.

With the gold ornamentation in 24-carat gold, CONOFLAT becomes an individual design object.

Add a little something extra to your private spa area with the "lily" decoration.

## LEAVES NOTHING BEHIND. EXCEPT A LASTING IMPRESSION.

With the optional easy-clean finish from KALDEWEI, water simply runs off the bathtub or shower tray, taking almost all dirt and lime particles with it. Even dried-on watermarks and limescale residue can be removed easily. And because stringent cleaners are not needed – just a soft, damp cloth, the easy-clean finish has a positive effect on the environment, too. The easy-clean

finish is a surface finish that is permanently burnt onto the KALDEWEI steel enamel. It ensures unparalleled durability and long life. Even when the surface is wiped 1-2 times a day, the anti-stick properties remain unchanged 30 years later. The easy-clean finish is available for all KALDEWEI bathtubs and shower trays and comes as standard with whirlpool bathtubs.
