

inspirational surfaces

BB omega

welcome to Bushboard

We have been developing kitchen and bathroom surfaces in the UK since 1935 and the idea that everyone deserves great design whatever their budget underpins our entire approach to surfacing.

When you buy a Bushboard product you are buying into our ethos of exceptional quality, exquisite design and excellent value and of course, first class customer care. We are proud that our surfaces are made in the UK.

We want to ensure you get the very best from your new worksurfaces so our products carry a lifetime guarantee as well as a unique installation guarantee so you can be sure your Omega worksurface will look sensational for years to come.

welcome to Omega

We've built our reputation on laminate and love this incredibly versatile material. Durable, affordable and with an amazing choice of textures and designs it's no wonder it's at the heart of our collection.

This Omega range of stunning laminate designs truly reflects the Bushboard ethos of bringing smart surfaces and clever ideas to our customers.

Over the following pages you will find design upon design brought to life in our inspirational collection of Omega worksurfaces, splashbacks and upstands.

get inspired

The desire to create multi-functional spaces that can easily form the hub of the home and suit busy modern lifestyles is at the forefront of today's interior design.

A seamless flow from kitchen to living room is easily achievable with the Omega collection by drawing on the large range of co-ordinating and contrasting colours and textures. With a collection designed around the latest on-trend colour palettes, smart design and innovative thinking, this range takes laminate to a new level!

See your chosen worksurface brought to life with our online design studio, create your own mood board using our speedy sample service or visit one of our many retail partners for inspiration.

BB get the look

Here we've used our 38mm square edge breakfast bar with brand new end-grain innovation to create the authentic look of real wood with minimal effort

Breakfast Bar: Graphite Oak in ultramatt texture. 38mm PP edge with brand new end-grain detail.

modern minerals

We have utilised the latest innovation in surface technology and design to bring you a unique, slimline laminate worksurface that genuinely reflects the natural beauty of highly polished stone.

Our eye-catching, higloss surfaces are truly aspirational as an affordable alternative to real quartz.

Available in six colourways with a sharp 22mm square edge, these surfaces will make a statement in any home.

**22mm

urban neutrals

This brand new selection of surfaces has been specifically developed to reflect current trends in home design. Over the following pages you will see how the modern, muted tones can deliver an understated contemporary look and feel.

Pictured detail: Urban Volcan worksurface in fusion texture.

Urban Caldeira worksurface and midway splashback in fusion texture.

BB get the look

We have created a contemporary feel in this striking kitchen space by combining two of the new designs from the Omega collection.

We have teamed the faded beauty of Graphite Oak woodgrain on the breakfast bar and splashback with the understated elegance of Urban Concrete with a Q3 profile used on the worksurface.

Breakfast bar:

and Graphite Oak midway splashback in ultramatt texture.

natural appeal

The Omega collection celebrates the appealing look and character of natural woodgrains. These ever-popular designs have evolved, offering rich colour, unique grain patterns and sympathetic texture overlays to deliver a range that is more realistic than ever before.

Take our brand new Graphite Oak, pictured right, introducing subtle grey undertones. Or turn the page to see Stamford Oak brought to life in an ultra-modern, stylish and on-trend kitchen setting.

Our new collection has something for everyone!

Quebec Oak worksurface and upstand with Q3 profile in ultramatt texture with Mulberry splashback in higloss texture.

real innovation

We are always striving to bring you smart surfaces developed through clever ideas and our latest woodgrain innovation is no exception.

The beauty of a woodgrain surface is its character. Each individual species has its own unique features. These distinctive markings have been cleverly recreated and combined with true-to-life texture overlays and our brand new realistic end-grain detail to deliver a laminate surface that has all the richness and depth of real wood without any on-going maintenance.

We have carefully selected five key designs to be enhanced by this new feature comprising Graphite Oak, Stamford Oak, Tobacco Oak, Quebec Oak and Natural Blocked Oak.

Dont forget to order your end-grain edging to complete this stylish new look. Refer to our matrix on page 47 for availability.

timeless classics

Naturally elegant, our Pebblestone designs work in any kitchen setting, from traditional to contemporary.

The palette will combine perfectly with plain coloured and woodgrain doors to make a lasting style statement and smart investment.

With the crisp edge profile, your worksurface mirrors the look of real stone.

shape your look

Everyone thinks of laminate worksurfaces in straight lines but Omega offers a range of ready-made curved components. These give you the freedom to shape your kitchen to suit your look and your lifestyle, without the expense of specialist fabrication.

The large breakfast bar features a modern double curved end which is ideal for creating an island unit around which to perch for a chat, coffee or a snack. Or it can be installed as a low table for informal kitchen suppers or the kids' homework. There is also a worksurface finished with a curve at each end which is perfect for combining with curved kitchen furniture.

**3000 x 900 x 38mm breakfast bar with curved end

smart splashbacks

Why stop at laminate for your worksurface?
This versatile material works equally well as a splashback and it's such a smart choice in place of wall tiles.

Affordable, hygienic and still looking fabulous in years to come, we have a stunning range to choose from. Whether you want to continue your look from worksurface to splashback or want a contrast, we've thought about it.

With brushed metals, striking colours, quartz, woodgrains and stones, there is an abundance of choice so take a look.

Little maintenance is required, a quick wipe down with a damp cloth is all the cleaning needed.

Pictured right: Urban Stone worksurface and midway splashback in fusion texture.

a guide to texture

Marrying the right texture with the right design is a skill in itself and brings a design to life. We've worked with seven textures across our range to do just that.

This quick guide helps you see our textures in more detail and look at the matrix on page 47 to see which texture your chosen worksurface is available in.

Our speedy sample service means you can see the final result for yourself.

to buy Bushboard

At Bushboard we're passionate about everything we do and we're always here to help.

We invest heavily in high quality manufacturing and work with the best materials and suppliers. Our values of partnership, loyalty and an ethical approach mean we do what's right; that's why we've been around since the 1930s.

Even after Bushboard products arrive in your home we strive to assure a quality installation. Our BB Complete adhesive and sealant range is designed to make the installer's life easier and assure a quality long-lasting installation for you.

Quality

Manufacturing with the finest materials is what gives Bushboard worksurfaces their signature quality. While beautiful and stylish to look at, they are also constructed to cope with the wear and tear of everyday living. Independently tested to BS/EN438, your Bushboard worksurface is designed to withstand knocks, abrasions, chemicals, cigarette burns, steam, stains from juice, tea, wine or coffee. It is also highly resistant to heat, although we recommend the use of a protective pad as saucepan bottoms can become extremely hot.

Bushboard select E1 grade high-density particleboard for strength and stability. It's homogenous construction generates excellent machining capability for sink cut-outs and mitre joints. They are surfaced in Polyrey high-pressure laminate. Omega worksurfaces are designed to perform below the surface too; a resin impregnated moisture resistant barrier combines with Bushboard's unique 'Tekseal' cast resin drip-edge to completely seal the underside against moisture penetration from everyday spills. However, it is really important that spills are mopped up immediately to reduce unnecessary damage.

Care & Maintenance

Bushboard worksurfaces are so easy to maintain. On a day-to-day basis all you need to do is wipe them down with a moist cloth and your favourite mild detergent. For more stubborn marks such as fruit juice and coffee, leave the detergent to soak on the surface for a little while before rinsing thoroughly. Obviously, your worksurface can become damaged if mistreated, so we recommend some sensible measures like placing hot pans or casserole dishes on protective mats and mopping up spills quickly. As with any laminate worksurface, you should avoid chopping, cutting or placing hot items directly on to the surface.

Textures

Premium textures need a little more care and attention. Please remember they are fashionable finishes and tend to show marks and scratches more easily with everyday use. This is also true of darker, plainer and matt finishes.

Bushboard worksurfaces are guaranteed for their lifetime. Bushboard will make good by repair and/or replacement (at its discretion) any Omega product of its manufacture which can be shown to have failed by reason of defects in its manufacture, subject to fair wear and tear, provided the product has been installed and used in accordance with the manufacturer's instructions and that the products are used for their intended purpose. Proof of date and place of purchase required. This guarantee is in addition to your statutory rights as a consumer and does not affect your rights in any way.

The Furniture Industry Research Association has awarded Omega the Gold Certificate in recognition of its excellent manufacturing standards.

Omega products incorporate Sanitized® Actifresh anti-bacterial protection. Odourless, non-toxic and taste-free it reduces bacteria and microbe growth by 99%.
