BLANCO
GERMANY

As individual as you are!

The BLANCO à la Carte Inset and Undermount Studio Collection

Our passion for leading edge design and manufacturing perfection can be traced back to our German pedigree. We are proud of our reputation for quality and attention to detail. If you have an eye for perfection and love to stand out in a crowd, a BLANCO kitchen sink and tap will be your natural choice.

BLANCO sinks achieve top design awards.

BLANCO sinks are quality made in Germany.

Savings shown throughout this brochure are reflective of the BLANCO Dealers UK Product Guide.

Front Cover: BLANCO COLLECTIS 6 S SILGRANIT® White Sink with BLANCO CARENA Chrome Tap

Heinrich Blanc, founder of BLANCO

BLANCO manufactures over 1.5 million sinks in Germany each year

Over 90 years committed to innovation

Quality has been key to BLANCO ever since the company was established in Germany back in 1925. Started by Heinrich Blanc, the business was founded on the principle of offering its customers the best in terms of design, function and innovation. Whilst our products may have changed considerably in response to changing times and needs, our commitment to quality and service remains as firm as ever. Helping people create their perfect kitchen has always been at the heart of our thinking. And it always will be.

Making the most of your kitchen

BLANCO is an international business. We focus on providing the very best from our Head Office and manufacturing plants in Germany. We supply our superb range of sinks, taps and kitchen accessories to world markets. We strive to provide a combination of quality, value and service that has become the bedrock of our growth and success.

Our products have a reputation for innovation, versatility and high quality. We also offer exceptional choice with different materials, colours and models.

But if your options go beyond the sinks in this brochure, we can also provide custom-made BLANCO STEELART solutions tailor-made to your specification.

BLANCO is in a position to extend this service through in-house experts recognised for their diligence and skill as craftsmen in Stainless Steel. Together we can translate your vision into a three-dimensional reality.

The BLANCO pursuit of excellence is regularly recognised and rewarded by a number of international organisations who specialise in awarding accolades in recognition of perfection.

Taps to complement the ideal sink

Included in the pack

All sink and tap packs in the à la Carte range include the BLANCO ARTI cruciform monobloc quarter turn mixer tap. The popular classic cruciform shape is brought right up to date with the new BLANCO ARTI tap. In chrome, the quarter-turn BLANCO ARTI will sit discreetly in any kitchen whether traditional or ultra-modern.

For long life and extra reliability the body, base, handles and spout are all fashioned in metal with a tough chrome finish for easy cleaning.

Tap upgrades

In addition to the regular BLANCO ARTI tap we have included a large choice of tap upgrade possibilities. See pages 68 to 73.

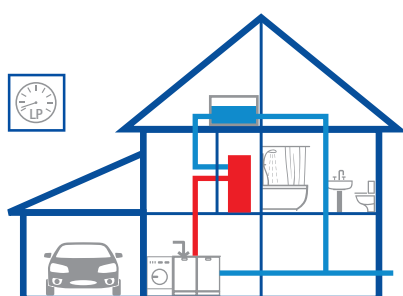

The selection includes monobloc taps with individual control of hot and cold water or new European style single lever control models. Other possibilities are pull-out hand sets to make rinsing easier and our latest BLANCO FILTRA Pro taps designed to provide fresh filtered drinking water direct from your mains supply.

ISE food disposer

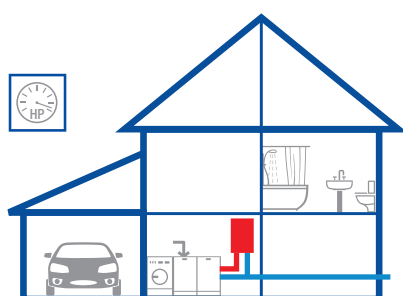

A growing concern to us all is food waste; it is estimated that over 60% of all household waste is food from preparation and leftovers.

One solution to dispose effectively of unwanted food is to fit your new kitchen sink with a waste disposer. The ISE unit is fitted in the sink waste and shreds food into small particles which are rinsed away with the waste water. Just consider no more bin smells in the summer and less time required for wrapping up unwanted food for safe disposal.

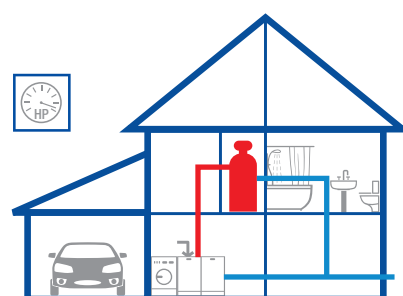

Low pressure (Gravity-fed system)

You have a cold water tank in your attic and a hot water tank in your airing cupboard. You should choose taps which state they are suitable for a low pressure system.

High pressure (Combi-boiler system)

You have a boiler unit but no hot water cylinder, the boiler unit is usually found in the kitchen and delivers hot water on demand. You should be able to choose from most of our taps.

High pressure (Pumped system)

You have a hot water cylinder with an expansion vessel on top (often called Megaflor), usually found in the airing cupboard, but you do not have a cold water tank. You should be able to choose any of our taps.

At BLANCO we consider anything 0.3 bar or below as low pressure. Any higher is considered high pressure.

Materials and finish to suit your lifestyle

You have your own unique vision of what makes the perfect kitchen. How you use your sink is important when deciding which material is right for your kitchen because each precision-engineered material has individual characteristics and benefits. Our range covers everything from the latest contemporary trends to classic lines, so all you have to do is choose the one that best complements your cooking style and personality.

Stainless Steel

Stainless Steel differs from most materials in that it can be integrated into almost any kitchen environment. Its most important properties:

- Timeless classic aesthetics
- Does not rust
- Completely heat resistant
- Hygienic and suitable for food preparation
- Stain and acid resistant
- Easy to care for

BLANCO uses only the highest quality 18/10 Stainless Steel to meet the most exacting requirements.

BLANCO Ceramic

Sinks made of BLANCO Ceramic create a special homely atmosphere.

Their attractive appearance and glazed surface finish blend with both traditional and modern kitchens.

Modern production methods and special manufacturing techniques together with the skills of our craftspeople ensures that our quality remains constant. Care throughout the production process helps to produce a sink which will maintain its appearance for years to come. Its most important properties:

- Easy to care for
- Stain and acid resistant
- Colour safe
- Completely heat resistant
- Hygienic and suitable for food preparation

SILGRANIT® PuraDur®

SILGRANIT® PuraDur® is a unique 'easy care' sink material which has been patented and developed exclusively by BLANCO.

- Hygiene+Plus is a shield against dirt and bacteria
- Easier cleaning, thanks to the unique patented hygiene protection formula
- SILGRANIT® PuraDur® is antibacterial. Tests confirm that the unique built-in hygiene protection reduces bacterial growth by an average of 98%
- Superior durability and a smooth silk surface with the look and feel of natural stone
- Available in attractive colours all with a uniform surface finish

SILGRANIT® PuraDur® with the patented hygiene protection formula

Sinks

Cabinet Width

The cabinet width measurement denotes the measurement (mm) which the sink bowl(s) need to fit into.

Sink Style Options

Inset: The frame of an inset sink sits on top of the work surface. These sinks are compatible with any work surface, including laminate worktops.

Undermount: An undermount sink is installed underneath the worktop, only compatible with solid surface worktops such as granite or solid wood.

Belfast: Belfast sinks are installed either 'dropped-on' to a purpose-built cabinet or by using installation brackets.

Inset Sink Profiles

BLANCO sinks come with a range of different profiles.

Standard: Edge is rolled over to meet the worktop.

IF and IF/A: Unique 1 mm flat edge profile.

IFU: Suitable for both inset and undermount installation

Bowl Configuration

Ensure you choose the correct sink configuration for your kitchen.

LHB, RHB and UNI (Universal): Indicates whether an inset sink is available with a Left Hand Bowl (LHB) or Right Hand Bowl (RHB).

UNI (Universal) indicates an inset sink suitable for both left and right configurations.

If the sink does not have a drainer, the handing refers to the Main Bowl.

Taps

Water Pressure

BLANCO has a range of taps suitable for low and high pressure systems.

BLANCO considers taps 0.3 bar and below as low pressure.

Features

Aerator: Mixes air into the flow of water to give a champagne-like flow. Some taps are fitted with a flow straightener; however, some of our taps are fitted with an aerator which are highlighted by this icon.

Pull-Out Spray: Features a pull-out spray, useful for directional rinsing.

Colour options

Dual Flow

Recommended solid work surface worktop or SILGRANIT® sink:

Alternatively with the use of a tap stabilising bracket, code: BL450775 or BL467720

Choosing your ideal sink

Inset Sinks

Inset sinks are installed from above into a pre-prepared hole in your worktop. It offers the widest choice of sink shapes, sizes and styles.

Installation formats

It is essential to measure correctly the cabinet width where your sink will be installed. The bowl, or bowls in the case of a multi-bowl sink, will need to fit into this space. Each sink in this brochure will show a cabinet size, and your cabinet width needs to be equal to or greater than the stated measurement.

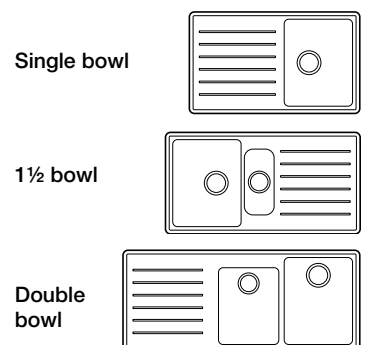

Bowl and drainer configuration

The type and position of your bowl depends on how you intend to use your sink. If you like room to clean large items, a larger single bowl may be best for you, or for a multi-functional purpose, you may prefer the versatility of two separate working bowls.

For sinks it is important to decide on which side you require the large bowl. BLANCO refers to the large bowl when stating if it is a Right Hand Bowl (RH) or Left Hand Bowl (LH).

Other sinks are reversible which indicates the bowl/bowls can be positioned on either side. Please check which format suits your kitchen best before ordering.

Taking functionality to another level

The new series BLANCO ETAGON in Stainless Steel and SILGRANIT®

Bowl: BLANCO ETAGON 500 IF/A 18/10 Stainless Steel
Upgrade tap: BLANCO PANERA-S Chrome upgrade tap as seen on page 73

NEW

One bowl, three levels: BLANCO ETAGON IF/A version, Stainless Steel.

For perfect preparation - also in SILGRANIT®.

Flexible use: ETAGON saucepan suspension rails.

The staggered bowl for added versatility through functionality. BLANCO ETAGON 500 adds a further functional level to the single bowl. The brand new system concept has all the versatility of the sink centre, yet requires little space. With its integrated step in conjunction with the specially developed ETAGON saucepan suspension rails, this modern, straight-lined bowl facilitates working on three levels.

The perfect spot for drying and storing washing-up utensils.

Thanks to the ETAGON rails, the baking sheet can be completely immersed.

Heat-resistant ETAGON rails can also be used as trivets.

TAP INCLUDE IN PRICE
 BLANCO ARTI PK4552CH

The models in the BLANCO ELON family are particularly notable for the combination of a large bowl and the extending drainer area with a compact outer dimension. BLANCO ELON XL 8 S is the new version for the 80cm base unit – for even greater comfort in food preparation and washing up.

The ELON 45 S is the perfect choice for small kitchens. It guarantees maximum utilisation of the smallest spaces. On all 3 ELON models, the sliding drainer grid in stainless steel provides additional space for draining dishes or saucepans over the bowl without restricting use of the same in any way.

The modern undulating design of the drainer and its grid are beautifully matched. Furthermore, the grid can also be used on the table as a decorative trivet.

The versatile drainer grid can also be used as a trivet.

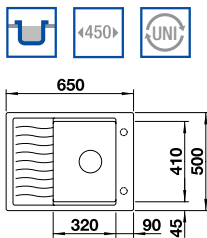

Drainer grid sits neatly on the compact drainer.

Extend your drainer with the stainless steel drainer grid.

BLANCO has fundamentally modernised the classic sink centre. Designers and developers have managed to perfectly combine the successful features of

the traditional CLASSIC model with contemporary design. In addition, the extended functionality meets the higher requirements for ergonomics and comfort

when working. The result is BLANCO CLASSIC Neo – the new generation of a classic.

The SmartCut chopping board fits safely on the drainer.

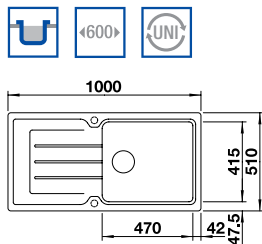

The versatile multifunctional bowl in stainless steel can be used in the main and the additional bowl.

The colander and the chopping board can be used in parallel to facilitate ergonomic working.

Water Pressure

BLANCO has a range of taps suitable for low and high pressure systems. BLANCO considers taps 0.3 bar and below as low pressure.

Features

Aerator: Mixes air into the flow of water to give a champagne-like flow. Some taps are fitted with a flow straightener; however, some of our taps are fitted with an aerator which are highlighted by this icon.

Pull-Out Spray: Features a pull-out spray, useful for directional rinsing.

Colour options

Dual Flow

Recommended solid work surface worktop or SILGRANIT® sink:

Alternatively with the use of a tap stabilising bracket, code: BL450775 or BL467720

BLANCO ISE waste disposer upgrades

A SIMPLE ADDITION TO YOUR KITCHEN

When fitting a sink in your new kitchen or as part of a make-over why not consider the added convenience of installing a food waste disposer? It is estimated that over 60% of household waste is food from preparation and leftovers. Using a waste disposer to grind down and flush away unwanted leftover food waste reduces mess, is more convenient, hygienic and saves time. The environment benefits, less waste finishes up in landfill sites and the waste food can also be converted into soil conditioner at the water treatment plant.

Simply turn on the cold tap, switch on the disposer and feed food waste into the disposer. The waste is both simply and quickly ground into fine particles and flushed away into your regular waste system.

The waste disposer fits conveniently to the sink waste, located out of sight in the cupboard under the sink.
